2.3 What are the key risks specific to the Issuer?

The most material risk factors specific to the Issuer which may negatively impact the operations and financial position of the Issuer should the circumstances mentioned therein materialise are set out below:

2.3.1 Dependence of Issuer on its Subsidiaries

The Issuer is a holding company that does not conduct its operative business itself but does so through its Subsidiaries. The Issuer's cash flow and possible future interest payments are dependent on the profitability of the Subsidiaries or must otherwise be met by borrowed capital or the sale of the Properties. In order to service the Bonds, the Subsidiaries need to continue to achieve positive cash flows from operating activities. The Subsidiaries generally generate such cash flows from rent and from proceeds of disposals of property. If the Subsidiaries are unable to generate positive cash flows from their operating activities in the future, the Subsidiaries could be forced to sell the Properties irrespective of the market situation, and possibly on terms unfavourable to the Group, or borrow money on financially unattractive terms.

2.3.2 Third Party Interests in BBT Entities, Center Parc, Develco Malta Limited and Risparmio Casa Malta Limited

The Issuer through TUM Operations does not own all shares in BBT Entities, Center Parc, Develco Malta Limited and Risparmio Casa Malta Limited and does not hold all voting rights, and is to an extent exposed to influence by other shareholders. Hence significant changes or other material decisions with respect to BBT Entities, Center Parc, Develco Malta Limited and Risparmio Casa Malta Limited may only be implemented with qualified consent and/or consent of the remaining shareholders. Such exposure may limit the Group's flexibility to implement its strategy.

2.3.3 Dependence on Full Occupancy of its Properties and Increasing Rent

The commercial success of the Group depends significantly on its ability to retain high occupancy rates, reducing operating costs whilst increasing rent levels. This will depend on several factors. These factors include in particular the demand for properties, the local rental market, refurbishment and modernisation measures that will be undertaken over time, and tenant turnover. Thus a loss of rent, rent reductions and increased vacancies would lead to a decline in total current forecasted rental income. There is therefore a risk that the Subsidiaries will be less profitable if demand for commercial space declines as this may lead to an increase in vacancy rates. If tenants fail to meet their rent payment obligations in whole or in part (eg due to a deterioration of their economic situation or a deterioration of their business activity), or if larger numbers of tenants give notice of termination without the Subsidiaries being able to re-let the Properties within a reasonable time period, the Subsidiaries could sustain a decrease in current rental income, which could have a significant adverse effect on its results of operations. To the extent that the Subsidiaries are able to re-let a Property, there is a risk that they will not be able to do so on terms attractive to them.

2.3.4 Property Valuations

Valuation of property is intrinsically subjective and based on a number of assumptions at a given point in time, and there can be no assurance that any such property valuations and property-related assets will reflect actual market values. In addition, property valuations are influenced by a variety of factors such as changes in regulatory requirements and applicable laws, political and social conditions, the financial markets, consumer spending power, and interests and inflation rate fluctuations. Consequently the net realisable value of the Property may decrease, which decrease could have a material adverse effect on the financial position of the Subsidiaries.

3 KEY INFORMATION ON THE BONDS

3.1 What are the main features of the securities?

The key features of the Bonds are set out below:

Each Bond forms part of a duly authorised issue of 5.2% secured callable bonds 2031 – 2034 of a nominal value of €100 per Bond issued by the Issuer at par up to the principal amount of €12 million. The Issue Date of the Bonds is expected to be 28 November 2024. The Bonds are secured.

The currency of the Bonds is Euro (€).

Subject to admission to listing of the Bonds to the Official List, the Bonds are expected to be assigned ISIN: MT0002271212.

The Bonds are redeemable on 22 November 2034, unless redeemed early on an Early Redemption Date. The Bonds shall bear interest from and including 22 November 2024 at the rate of 5.2% per annum on the nominal value thereof, payable annually in arrears on each Interest Payment Date. The first interest payment will be affected on 22 November 2025, covering the period 22 November 2024 up to and including 21 November 2025.

The Bonds, as and when issued and allotted, shall constitute the general, direct and unconditional obligations of the Issuer and as secured by means of the Collateral granted in terms of the Security Trust Deed II. The Bonds shall, at all times, rank *pari passu*, without any priority or preference among themselves but, in view of the fact that the Bonds shall be secured by the Collateral, shall rank with priority and preference over other present and future unsecured obligations of Tum Operations Limited with respect to the BBT Pledged Shares, save for such exceptions as may be provided by applicable law, and with ranking and priority over the Collateral. Specifically, Tum Operations shall grant the Share Pledge over the BBT Pledged Shares in terms of the Pledge of Shares Agreement.

The minimum subscription amount of Bonds that can be subscribed for by Applicants upon subscription is €1,000, and in multiples of €100 thereafter. There are no special rights attached to the Bonds other than the right of the Bondholders to payment of interest and capital, the benefit of the Collateral through the Security Trustee, and in accordance with the ranking specified in the Prospectus.

The Bonds are freely transferable and, once admitted to the Official List of the MSE, shall be transferable only in whole (in multiples of €100) in accordance with the rules and regulations of the MSE applicable from time to time. The minimum subscription amount of €1,000 shall only apply during the Issue Period and the Intermediaries' Offer, if it takes place. No minimum holding requirement shall be applicable once the Bonds are admitted to listing on the Official List and commence trading thereafter, subject to trading in multiples of €100.

3.2 Where will the securities be traded?

Application has been made to the Malta Stock Exchange for the Bonds being issued pursuant to the Prospectus to be listed and traded on its Official List. The Bonds are expected to be admitted to the Official List with effect from 28 November 2024 and trading is expected to commence on 29 November 2024. Dealing may commence prior to notification of the amount allotted being issued to Applicants.

3.3 Is there a guarantee attached to the securities?

The Bonds are not guaranteed.

3.4 What are the key risks that are specific to the Bonds?

The most material risk factors specific to the Bonds are set out below:

- There can be no assurance that an active secondary market for the Bonds will develop, or, if it develops, that it will continue. There can be no assurance that an investor will be able to sell or otherwise trade in the Bonds at or above the Bond Issue Price, or at all.
- Investment in the Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Bonds.
- The MFSA has the authority to suspend trading or listing of the Bonds or discontinue the listing of the Bonds on the Official List if, *inter alia*, it comes to believe that such a suspension is required for the protection of investors or the integrity or reputation of the market. Any such trading suspensions or listing revocations / discontinuations could have a material adverse effect on the liquidity and value of the Bonds.
- Whilst the Collateral that is to be granted in favour of the Security Trustee for the benefit and in the interest of Bondholders grants the Security Trustee a right of preference and priority for repayment over the Collateral, there can be no guarantee that the value of the Collateral over the term of the Bonds will be sufficient to cover the full amount of interest and principal outstanding under the Bonds. This may be caused by a number of factors, not least of which general economic factors that could have an adverse impact on the value of the relevant Collateral, specifically the value of the BBT Pledged Shares. If such circumstances were to arise or subsist at the time that the Collateral is to be enforced by the Security Trustee, it could have a material adverse effect on the recoverability of all the amounts that may be outstanding under the Bonds.

2.1 General Risk Factors

2.1.1 Forward Looking Statements

The Prospectus and the documents incorporated therein by reference or annexed thereto contain forward-looking statements that include, among others, statements concerning the Issuer's strategies and plans relating to the attainment of its respective objectives, capital requirements and other statements of expectations, beliefs, future plans and strategies, anticipated developments and other matters that are not historical facts and which may, accordingly, involve predictions of future circumstances.

Prospective investors can generally identify forward-looking statements by the use of terminology such as "may", "will", "should", "expect", "intend", "plan", "estimate", "anticipate", "believe", "forecast", "project" or similar phrases. Such forward-looking statements are inherently subject to several risks, uncertainties and assumptions, a few of which are beyond the Issuer's control. Important factors that could cause actual results to differ materially from the expectations of the Issuer's directors include those risks identified under the heading "Risk Factors" and elsewhere in the Prospectus.

The Issuer cautions prospective investors that these forward-looking statements are subject to risks and uncertainties that could cause actual events or results to differ materially from those expressed or implied by such statements, that such statements do not bind the Issuer with respect to future results, and no assurance is given that the projected future results or expectations covered by such forward-looking statements will be achieved.

Prospective investors are advised to read the Prospectus in its entirety and, particularly, all the risk factors set out in the Prospectus for a further discussion of the factors that could affect the Issuer's future performance. In light of these risks, uncertainties and assumptions, the events described in the forward-looking statements in the Prospectus may not occur. All forward-looking statements contained in the Prospectus are made only as at the date of the Prospectus. Subject to applicable legal and regulatory obligations, the Directors expressly disclaim any obligations to update or revise any forward-looking statements contained herein to reflect any change in expectations with regard thereto or any change in events, conditions or circumstances on which any statement is based.

2.1.2 Tax Risks

The Group is subject to the general tax environment in Malta. The Group's tax burden may increase as a consequence of current or future tax assessments, tax audits or court proceedings based on changes in tax laws or changes in the application or interpretation thereof. The Group's tax burden depends on various aspects of tax laws, as well as their application and interpretation. Amendments to tax laws may have an effect on such application and interpretation. Also changes in tax legislation, administrative practice or case law, possible at any time on short notice, could have adverse tax consequences for the Group. For example there could be increases in rates of property tax or income tax. Additionally divergent interpretations by the tax authorities or the courts are possible. If these changes in the tax framework conditions should occur, individually or together, or if the changes of the legal or tax framework conditions that negatively affect the business of the Group should arise, this could have a material adverse effect on the net assets, financial condition and results of operations of the Group.

2.1.3 Difficulties in Replacing Key Personnel

The success of the Group depends on the performance of its management executives and qualified personnel in key positions. The loss of one or more members of the board of directors or other key personnel could impair the ability to manage the operations of the Group effectively, if the Group fails to attract new highly qualified management executives or key personnel.

2.1.4 Litigation, Administrative Proceedings and Similar Claims

Entities of the Group have been and probably will be in the future subject to administrative and legal proceedings in the ordinary course of business. Such litigation relates to matters such as outstanding rent payments and the termination of lease contracts in so far as concerns the Subsidiaries. Although not material on a case-by-case basis, such litigation ties up resources and may have an adverse effect on the Group's business if they occur frequently or in a concentrated matter.

2.2 Risks relating to the Issuer

2.2.1 Dependence of Issuer on its Subsidiaries

The Issuer is a holding company that does not conduct its operative business itself but does so through its Subsidiaries. The Issuer's cash flow and possible future interest payments are dependent on the profitability of the Subsidiaries or must otherwise be met by borrowed capital or the sale of the Properties. In order to service the Bonds, the Subsidiaries need to continue to achieve positive cash flows from operating activities. The Subsidiaries generally generate such cash flows from rent and from proceeds of disposals of property. If the Subsidiaries are unable to generate positive cash flows from their operating activities in the future, the Subsidiaries could be forced to sell the Properties irrespective of the market situation, and possibly on terms unfavourable to the Group, or borrow money on financially unattractive terms.

2.2.2 Third Party Interests in BBT Entities, Center Parc, Develco Malta Limited and Risparmio Casa Malta Limited

The Issuer through TUM Operations does not own all shares in BBT Entities, Center Parc, Develco Malta Limited and Risparmio Casa Malta Limited and does not hold all voting rights, and is to an extent exposed to influence by other shareholders. Hence significant changes or other material decisions with respect to BBT Entities, Center Parc, Develco Malta Limited and Risparmio Casa Malta Limited may only be implemented with qualified consent and/or consent of the remaining shareholders. Such exposure may limit the Group's flexibility to implement its strategy. This could for example affect the distribution of dividends from such Subsidiary. Furthermore such shareholders may have economic or business interests or goals that are inconsistent with those of the Group, take actions contrary to the Group's policies or objectives, experience financial and other difficulties or be unable or unwilling to fulfill their obligations under agreements between them and the Group.

2.3 Risk relating to the Subsidiaries

2.3.1 Dependence on Demographic and Economic Developments in Malta

The Subsidiaries are property owning companies dependent on tenancies, and so their business activities are affected by demographic, economic and political factors. A decline in the demand for rented space may adversely affect the Subsidiaries' ability to achieve high occupancy rates and average rent levels. Economic developments in and related to the property market in Malta are of significant importance for the Subsidiaries' business and future prospects. These developments place a decisive role in determining property prices and rent levels, turnover and vacancy rates. Negative economic developments may lead to losses with respect to rental income which will also expose the Subsidiaries or increase vacancies. In such circumstances the Subsidiaries may not re-let the Properties on attractive terms or might only be able to do so after making additional investment. While the Subsidiaries have taken steps to absorb any changes in economic or demographic conditions, in particular by creating modern spaces finished to high standards to comply with tenants' expectations, the Subsidiaries may nevertheless be negatively affected by unfavourable economic and demographic developments.

2.3.2 Dependence on Full Occupancy of its Properties and Increasing Rent

The commercial success of the Group depends significantly on its ability to retain high occupancy rates, reducing operating costs whilst increasing rent levels. This will depend on several factors. These factors include in particular the demand for properties, the local rental market, refurbishment and modernisation measures that will be undertaken over time, and tenant turnover. Thus a loss of rent, rent reductions and increased vacancies would lead to a decline in total current forecasted rental income. There is therefore a risk that the Subsidiaries will be less profitable if demand for commercial space declines as this may lead to an increase in vacancy rates. If tenants fail to meet their rent payment obligations in whole or in part (eg due to a deterioration of their economic situation or a deterioration of their business activity), or if larger numbers of tenants give notice of termination without the Subsidiaries being able to re-let the Properties within a reasonable time period, the Subsidiaries could sustain a decrease in current rental income, which could have a significant adverse effect on its results of operations. To the extent that the Subsidiaries are able to re-let a Property, there is a risk that they will not be able to do so on terms attractive to them. The Subsidiaries are also required to conduct their property management in such a manner that the Properties are maintained in the condition as required by the lease agreements and by law. If this is not possible for any reason and if the required maintenance measures are not performed on time or at all, this could lead to a reduction in rent that can be charged for such Properties.

2.3.3 Risk Related to Development Permits and Project Delays

Certain property development projects being undertaken the Group are still subject to obtaining necessary development permits from the relevant regulatory authorities. The attainment of these permits is contingent upon compliance with local regulations, planning requirements, and any conditions set forth by the authorities. There is no assurance that these permits will be granted in a timely manner, or at all, which could result in significant project delays or additional costs.

In addition, even if the necessary permits are obtained, there remains a risk that property development projects could face delays due to unforeseen events such as changes in regulatory policies, legal challenges, or external factors like adverse weather conditions, supply chain disruptions, or shortages in labour or materials.

Any delays in the commencement or progress of property developments due to failure in obtaining permits or unforeseen project setbacks could have an adverse impact on the Group's ability to meet its project timelines, forecasted revenues, and cash flow expectations. Prolonged delays may also lead to increased costs, reduced profitability, or, in the worst-case scenario, project cancellations. These factors could materially and adversely affect the Group's financial condition and operational performance.

2.3.4 Exposure to Risks Related to the Maintenance and Repair of the Properties

The Subsidiaries need to maintain the Properties in good condition. For this reason and to avoid loss of value and maintain demand for a Property, the Subsidiaries perform maintenance and repairs on its Properties. The Subsidiaries could have underestimated the amount to be invested for the targeted maintenance as costs may increase due to various factors, such as increased costs of materials, labour costs, energy costs etc.

2.3.5 Exposure to Risks due to Delays

Certain Properties are still undergoing construction and will commence operations at a later date as indicated in section 5.6 of this Registration Document. Commencement of operations may be delayed as a result of labour force or the contractors not complying with the agreed time schedules or their becoming insolvent. This will push back commencement of tenancies, which will negatively affect expected results.

2.3.6 Losses Exceeding Insurance Coverage

The Properties held by the Subsidiaries are insured against losses due to fire, flooding, earthquakes and other natural hazards to the extent usual for its business. The insurance policies are however subject to exclusions and limitations of liability. The Subsidiaries may therefore have limited or no coverage relating to third-party liability, other natural disasters and other environmental risks or war. The Subsidiaries may also have no coverage relating to inflation, changes in planning laws or regulations, building codes, title defects and defective construction. In addition, insurers could become insolvent. Should an uninsured loss or a loss in excess of the insurance limits occur, the Subsidiaries may lose capital invested in the affected Property as well as anticipated income and capital appreciation from the Property. In such circumstances the Subsidiaries may incur further costs to repair further damage caused by uninsured risks. The Group may thus experience material losses in excess of insured proceeds.

2.3.7 Single Tenant Risk

A significant portion of revenue generated from the Subsidiaries' portfolio may be dependent on key tenants occupying a significant portion of a Property. The financial failure of, or default in payment by, a key or single tenant under its lease is likely to cause a significant or complete reduction in the Subsidiaries' rental revenue from a Property.

2.3.8 Property Valuations

Valuation of property is intrinsically subjective and based on a number of assumptions at a given point in time, and there can be no assurance that any such property valuations and property-related assets will reflect actual market values. In addition, property valuations are influenced by a variety of factors such as changes in regulatory requirements and applicable laws, political and social conditions, the financial markets, consumer spending power, and interests and inflation rate fluctuations. Consequently the net realisable value of the property may decrease, which decrease could have a material adverse effect on the financial position of the Subsidiaries

2.3.9 Competition

The property market in Malta is very competitive in nature. An increase in supply and/or a reduction in demand in the property market in which the Subsidiaries operate, may result in parts of the Properties remaining vacant or being leased out at prices which are lower than what is being anticipated by the Subsidiaries once the current tenancies expire. Such changes in market trends could negatively impact the financial condition of the Subsidiaries.

2.3.10 Financial Risks

Following the issuance of the Bonds, the Issuer will have an aggregate amount of €34 million in bonds outstanding, which includes the obligations under both the Bonds and the 2019 Bonds. The Group may require additional funds to finance or refinance its debt, capital expenditures, future acquisitions and working capital requirements. The Group may thus need to borrow additional funds or to raise equity or debt capital. The extent of the Group's future capital requirements will depend on many factors which may be beyond the Group's control, and its ability to meet such capital requirements will depend on future operating performance and ability to generate cash flows. There can be no assurance that the Group will be able to obtain additional financing on acceptable terms when required. If the Group does not generate sufficient cash flows or if the Group is unable to obtain sufficient funds from future equity or debt financing or at acceptable interest rates, the Group may not be able to pay its debts when due or to fund other liquidity needs. Any or all, or a combination of these, would limit operating flexibility.

During the period under review, the Issuer's primary activity related to the rental of a commercial property portfolio composed of the Zentrum Property and the Center Parc property which properties were owned and controlled by the Subsidiaries.

In June 2023, the Group exchanged its 75% shareholding in Center Parc for shares in BBT p.l.c.. The shares issued by BBT p.l.c. in favour of the Issuer reflected the fair value of the 75% shareholding in Center Parc resulting in the Issuer realising a €3.1m gain from the disposal of a subsidiary. The gain on the disposal of Center Parc together with the consolidated operating activity of Center Parc for the first 6 months of 2023 was recognised under profit from discontinued operations.

2023 revenue primarily consisted of €1.8m in rental income generated from the Zentrum Property which is rented to various tenants under long term agreements. Approximately 62% of FY23 rental income was generated from the rental of a showroom and garage space to Motors Inc. Limited, a company in which the parent of the Issuer holds a 33.33% shareholding interest in. The Issuer also recognised a further €145k in revenue from cost recharges to tenants.

The remaining revenue was generated from (i) the gain on disposal of Hotel VIU57 which was transferred to the Issuer by its parent at cost during the year and resold to BBT p.l.c at fair value during the year, and (ii) a gain on bargain purchase reported following the transfer of shares in Center Parc to BBT p.l.c. as the transfer value reported was lower than the fair value of shares issued by BBT p.l.c. in favour of the Issuer.

Administrative expenses predominantly consist of water & electricity costs, salaries and wages, and professional fees while finance costs relate to the annual interest expenses incurred on the existing €20.0m bond and other interest costs due on related party balances.

The share of profit from associates reflects the share of net losses reported by the BBT subgroup. BBT p.l.c. commenced operations in June 2023, with losses reported in 2022 and 2023 primarily driven by professional costs incurred in connection with the implementation of the BBT structure.

As at 31 December 2023, the Issuer's total assets amounted to €75.1m, the majority of which was backed by real estate investment. The decrease in investment property between Dec22 and Dec23 of €34.9m was driven by the derecognition of the Center Parc property following the transfer of the 75% shareholding in Center Parc to BBT p.l.c., which investment is accounted for as an investment in associate. Following the exchange of shares, the Issuer reported an increase of €25.8m in investment in associates reflecting the fair value of equity attributed to the 75% shareholding in Center Parc transferred to BBT p.l.c. plus a further €7.0m receivable from Center Parc which was capitalised in BBT p.l.c.. Property, plant and equipment predominantly relates to the land cost and development works undertaken on the San Gwakkin Property up to December 2023, which property is currently being developed into office space and a showroom for long term rental.

The Issuer's amounts due from related parties as at 31 December 2023 include a €3.2m receivable from BBT p.l.c. following the transfer of the Hotel VIU57. €1.75m of the balance outstanding was settled in cash in 2024 with the remaining balance capitalised for additional shares in BBT p.l.c. The remaining balance is unsecured and repayable on demand, except for a €325k loan that bears interest at 3.75% p.a. and is repayable in June 2029.

The debt exposure of the Issuer is primarily driven by the €20m existing bonds in issue (reported net of bond issue costs), plus a €11.5m bank facility advanced by APS Bank to part finance the San Gwakkin Property of which €5.2m was utilised by December 2023. The issuer also has a €1.8m balance outstanding to related parties following the acquisition of the Hotel VIU57. This related party balance incurs no interest but is repayable in 2029.

Deferred tax liabilities have been recognised on the revaluation of the investment property and relate solely to deferred tax recognised on the Zentrum Property. As the Issuer's business model is to retain investment property for long-term income and capital gain this tax liability is not expected to be realised unless a disposal of the property is made. Trade and other payables include a €0.5m balance due to contractors undertaking development work on the San Gwakkin Property, with the remaining balance reflecting normal trade payable balances.

Total equity of the Issuer attributed to shareholders amounted to €41.4m as at December 2023. The movement in non-controlling interest was driven by the derecognition of Center Parc from the consolidation with the remaining balance reflecting the 25% minority interest retained by third parties in San Gwakkin Limited.

Cash flow from operations primarily reflect cash inflows from the rental of the Zentrum Property and Center Parc property, net of costs and movement in working capital balances. Cash flow from operations in 2023 was negatively impacted due to the non-consolidation of the Center Parc operations following the transfer to BBT in June 2023 but positively impacted by a €6.0m payment by BBT p.l.c. to the Issuer to settle the outstanding balance from Center Parc to the Issuer following the share for share exchange and the partial capitalisation of €7.0m of the balance outstanding.

Net cash flows used in investing activities related to property acquisitions and investments in associates over the period. The investment in 2023 is predominantly driven by the land acquisition cost and development works on the San Gwakkin Property which were part financed through the APS loans facility. Net cash used in financing activity also includes bond interest payments.

The audited financial statements are available on the Issuer's website (www.tumfinance.com) and are also available for inspection at its registered office as set out in section 19 of this Registration Document.

8. TREND INFORMATION

There has been no material adverse change in the prospects or in the financial or trading position of the Issuer since the date of publication of its interim financial statements for the period ended 30 June 2024. The Issuer is dependent on the business prospects of the Group and, therefore, the trend information relating to the members of the Group has a material effect on its financial position and prospects.

As at the time of publication of this Registration Document, the Issuer considers that generally it shall be subject to the normal business risks associated with the business and industries in which the Group is involved and operates, and, barring unforeseen circumstances, does not anticipate any trends, uncertainties, demands, commitments or events outside the ordinary course of business that could be considered likely to have a material effect on the upcoming prospects of the Group and its business, at least with respect to the current financial year. However, investors are strongly advised to carefully read the risk factors in the Prospectus.

An overview of the most significant recent trends affecting the Group and the market in which the Group operates is provided below.

8.1 General Market Conditions

The Group is subject to general market and economic risks that may have a significant impact on its current and future property developments and their timely completion within budget and their profitable operation. These include factors such as the health of the local property market, inflation and fluctuations in interest rates, exchange rates, property prices and rental rates. In the event that general economic conditions and property market conditions experience a downturn, which is not contemplated in the Group's planning during development, this shall have an adverse impact on the financial condition of the Group and may therefore affect the ability of the Issuer to meet its obligations under the Bonds.

8.2 Economic Update

In 2023, real GDP growth reached 5.6%, which is higher than the 4% projected in Autumn. The economy showed strong growth in both private consumption and exports as a result of higher tourism flows and the population increase. Indeed, tourism rebounded to pre-pandemic levels in 2023 while tourist arrivals in the first two months of 2024 increased by more than 26%, although tourist expenditure was somewhat more moderate. Moreover, the estimated total population of the Maltese islands stood at approximately 563,443 at the end of 2023, an increase of 3.9% when compared to the previous year. Malta's economy also continues to benefit from a low pass-through of monetary policy to retail interest rates and government initiatives that have maintained energy prices at 2020 levels.

In 2024, real GDP is forecast to grow at a slower pace and reach 4.6%. While growth was primarily driven by net exports in 2023, domestic demand is expected to be the main driver of growth in 2024. Private consumption is maintaining a brisk pace of growth and there are expectations for a gradual recovery in private investment. Similarly, construction investment is expected to stabilise and recover moderately following a significant decline in 2023, with growth projected at 2.5% in 2024 and 3.9% in 2025.

Harmonised Index of Consumer Prices (HICP) inflation fell significantly from 5.6% in 2023 to 2.3% in 2024, reflecting the unexpected rapid drop experienced in the initial months of 2024 and dipping below the euro area average in May. HICP excluding energy and food remained firmly below the euro area average, which stood at 2.9%. Meanwhile, according to the Retail Price Index (RPI), inflation dropped to 1.5% in June 2024, the lowest rate since June 2021, primarily due to a drop in food inflation while energy prices remain unchanged due to Maltese Government intervention.

The NSO's Property Price Index (PPI), which is based on actual transactions involving apartments, maisonettes and terraced houses, continued to increase in annual terms, primarily driven by developments in the Apartments Price Index. Indeed, the PPI increased by 6.7% between the first quarter of 2024 and the corresponding quarter of 2023.

The Group's long-term strategy is to focus on acquiring commercial property for long term rental purposes, acquiring vacant sites for redevelopment into residential units for resale; and realising profits and capital gains from its direct and indirect property investments.

In the near term, the Group will be principally focused on completing the Parilja Property, In-Nahal Property, Geblin Property and Mosta property developments, which are earmarked for resale. At the same time, the Group will direct resources towards the completion of the San Gwakkin Property, Independent 2 Property and Ta' Natu commercial properties, with approximately 90% of the leasable area within San Gwakkin Property already under lease agreements.

The Directors are optimistic on the health of the property markets in Malta, which opinion is based on the assumption that the general economy and disposable income remain positive. Continued demand for properties in new real estate projects driven by the ever-increasing population in Malta support current property prices notwithstanding the rise in the number of developments undertaken in the last few years and others which are due to commence in the near term. This further enhances the Group's confidence in the market.

9. SECURITY TRUSTEE

Security for the fulfilment of the Issuer's obligations in terms of the Bond Issue is to be granted in favour of the Security Trustee for the benefit of Bondholders, by way, *inter alia*, of the granting of the Collateral as described in further detail in sub-section 5.5 of the Securities Note. The security shall be constituted in favour of the Security Trustee for the benefit of all Bondholders from time to time registered in the Central Securities Depository of the Malta Stock Exchange. The Collateral will be vested in the Security Trustee for the benefit of the Bondholders in proportion to their respective holding of Bonds.

10. ADMINISTRATIVE, MANAGEMENT AND SUPERVISORY BODIES

10.1 The Issuer

10.1.1 Executive and Non-Executive Directors

The Memorandum of Association of the Issuer provides that the business and affairs of the Issuer shall be managed and administered by a Board of Directors to be composed of not less than three (3) and not more than six (6) Directors.

The Board of Directors is vested with the management of the Issuer, and their powers of management and administration emanate directly from the Memorandum and Articles of Association and the law. The Directors have the power to transact all business of whatever nature not expressly reserved by the Memorandum and Articles of Association to be exercised by the Issuer in general meeting or by any provision contained in any law for the time being in force.

Amongst other things, the Board of Directors has the power to borrow or raise money or secure the payment of money, and in conjunction with or independently therefrom, to charge or hypothecate the property of the Issuer or any part thereof for any debt or liability or obligation of the Issuer, without limitation.

The Directors are appointed by ordinary resolution of the Issuer and the Directors other than the managing Director shall retire from office every three years but retiring Directors shall be re-eligible for appointment. They can also be removed by ordinary resolution.

Decisions taken by the Directors are decided by simple majority. Each Director shall have one (1) vote and in case of an equality of votes, the chairperson has a casting vote.

The Issuer has three (3) employees and most of the day-to-day business of the Issuer has been delegated to the Group and its employees. Silvan Fenech and Matthew Fenech shall be responsible for overseeing, supervising and managing the day-to-day operations and to then report to the Independent Non-Executive Directors. The Independent Non-Executive Directors are in turn entrusted with providing the Issuer direction and strategy, monitoring and supervising its performance and ensuring that controls and risk management systems are in place. Stanley Portelli will generally oversee good governance and regulatory compliance, whilst Mario Vella and William Wait will oversee financial matters.

In line with generally accepted principles of sound corporate governance, at least one of the Directors shall be a person independent of the Group.

None of the Directors have been:

- a) convicted in relation to fraud or fraudulent conduct;
- b) made bankrupt or associated with any liquidation or insolvency caused by action of creditors;
- c) the subject of any official public incrimination or sanction by any statutory or regulatory authority; or
- d) disqualified by a court from acting as director or manager.

The Directors believe that the Issuer's current organisational structure is adequate for its present activities. The Directors will maintain this structure under continuous review to ensure that it meets the changing demands of the business and to strengthen the checks and balances necessary for better corporate governance.

10.1.2 Directors' Service Contracts

Stanley Portelli, Mario Vella and William Wait, the Independent Non-Executive Directors of the Issuer, have a service contract with the Issuer.

10.1.3 Aggregate Emoluments of Directors

Pursuant to the Issuer's Memorandum and Articles of Association, the aggregate remuneration of the Board of Directors or any increase thereof, to be paid to the Board of Directors has to be approved by the Issuer in general meeting following notice of the proposed remuneration or increase thereof. The Directors shall also be entitled to reimbursement of all travelling, hotel and other expenses properly incurred by them in attending and returning from meetings of the Board of Directors or general meetings of the Issuer or in connection with the business of the Issuer.

During the financial year ended 31 December 2023, the Directors received emoluments amounting in total to €36,000 (2022: €36,000)

10.1.4 Loans to Directors

There are no loans outstanding by the Issuer to any of its Directors, nor any guarantees issued for their benefit by the Issuer.

10.1.5 Removal of Directors

In terms of the Issuer's Articles of Association, the Directors may be removed by an ordinary resolution and the Directors other than the managing director shall retire from office every three years. All retiring Directors shall be re-eligible for appointment. The Directors of the Issuer currently in office are expected to remain in office at least until the next Annual General Meeting of the Issuer.

There are no provisions in the Issuer's Memorandum and Articles of Association regulating the retirement or non-retirement of Directors over an age limit.

10.1.6 Powers of Directors

The Directors have the power to transact all business of whatever nature not expressly reserved by the Memorandum and Articles of Association to be exercised by the Issuer in general meeting or by any provision contained in any law for the time being in force.

In accordance with the Issuer's Articles of Association, the Board of the Issuer may borrow or raise money or secure the payment of money and in conjunction with or independently therefrom to charge or hypothecate the property of the Issuer or any part thereof for any debt, liability or obligation of the Issuer, and this without any limitation whatsoever and to do all such other matters on behalf of the Issuer as are not by the Issuer's Articles of Association or by the Act reserved to the general meeting.

10.1.7 Employees

As at the date of the Prospectus, the Issuer has three (3) employees. As at 31 December 2023, the average number of persons employed with the Issuer amounted to one (1) (2022: one (1)).

10.2 Working Capital

As at the date of this Registration Document, the directors of the Issuer are of the opinion that working capital available to the Issuer, is sufficient for the attainment of its objects and the carrying out of their respective business for the next 12 months of operations. The proceeds from the Bond Issue have been taken into account when providing said clean working capital statement; said clean working capital statement would still apply if the proceeds from the Bond Issue were not so included in the calculation of working capital.

10.3 Conflict of Interest

Members of the ultimate beneficial owner's family, as well as the ultimate beneficial owner himself, are present on the board of directors of several entities within the Group. Silvan Fenech and Matthew Fenech are directors on the board of directors of all members in the Group. Anthony Fenech, the ultimate beneficial owner, is a director of the Issuer, TUM Operations and Easysell. All three (3) members of the family compose the board of directors of TUM Invest. The Executive Directors of the Issuer are susceptible to conflicts between the potentially divergent interests of the Group.

Conflicts may further arise given the lender-borrower relationship subsisting between the Company and TUM Operations and with its indirect subsidiaries, Center Parc and Easysell, respectively.

Conflicts may also arise in respect of the Zentrum Property owned by Easysell, given that the Issuer uses part of such property as its registered office.

The Audit Committee of the Issuer has the task of ensuring that any such potential conflicts of interest relating to the Directors are handled in the best interest of the Issuer.

A director of the Issuer or other Group companies shall not vote and shall not be taken into account for the purpose of forming a quorum, in respect of any contract or arrangement or other proposal in which he/she has a material interest.

All directors also have a general duty to ensure their personal interests do not conflict with those of the company they serve.

To the best knowledge of Issuer, no other potential conflicts of interest exist between any duties owed by members of the Board of Directors of the Issuer, and/or other Group companies' and/or senior management and the private interests and/or duties of such persons.

11. AUDIT COMMITTEE PRACTICES

The Audit Committee is a sub-committee of the Board and fulfils an oversight role in connection with the quality and integrity of the Company's financial statements. The Board of Directors delegates certain specific responsibilities to the Audit Committee and has formally set out terms of reference governing the scope of its composition, role, functions, powers, duties and responsibilities, as well as the procedures and processes to be complied with in its activities.

The over-arching objective of the Audit Committee is that of assisting the Board in fulfilling its oversight responsibilities for the financial reporting process, the system of internal controls, the audit process and the process for monitoring compliance with applicable laws and regulations. The Audit Committee is expected to deal with and advise the Board on issues of financial risk, control and compliance, and associated assurance of the Company, including:

- i. ensuring that the Issuer adopts, maintains and, at all times, applies appropriate accounting and financial reporting processes and procedures;
- ii. monitoring of the audit of the Issuer's management and annual accounts;
- iii. facilitating the independence of the external audit process and addressing issues arising from the audit process and ensuring good communication between internal and external audit activities, as applicable;
- iv. reviewing of the systems and procedures of internal control implemented by management and of the financial statements, disclosures and adequacy of financial reporting;
- v. making of recommendations to the Board in relation to the appointment of the external auditors and the approval of the remuneration and terms of engagement of the external auditors, following the relative appointment by the shareholders in the annual general meeting;
- vi. monitoring and reviewing of the external auditors' independence and, in particular, the provision of additional services to the Issuer;
- vii. ensuring that the Issuer, at all times, maintains effective financial risk management and internal financial and auditing control systems, including compliance functions; and
- viii. assessing any potential conflicts of interests between the duties of Directors and their respective private interests, or their duties and interests unrelated to the Issuer.

In addition, the Audit Committee has the role and function of evaluating any proposed transaction to be entered into by the Company and a related party to ensure that the execution of any such transaction is at arm's length, on a commercial basis and ultimately in the best interests of the Issuer.

The Audit Committee is made up entirely of Non-Executive Directors, all of whom are deemed to be independent of the Company. Audit Committee members are appointed for as long as they remain Independent Non-executive Directors, unless terminated earlier by the Board. Mario Vella, an Independent, Non-Executive Director of the Issuer, acts as Chairperson, whilst Stanley Portelli and William Wait act as members of the Audit Committee. In compliance with the Capital Markets Rules, Mario Vella and William Wait are considered to be competent in accounting and/or auditing matters. The Issuer considers that the members of the Audit Committee have the necessary experience, independence and standing to hold office as members thereof and the Audit Committee, as a whole, is deemed to have relevant competence in the sector the Company operates in.

Since the Issuer relies on TUM Operations for repayment of principal and interest on the Bond, the Audit Committee will also maintain an effective working relationship with the company and its external auditors. It will also maintain the same relationship with TUM Invest given the day to day management of the Issuer has been delegated to this company.

12. COMPLIANCE WITH CORPORATE GOVERNANCE REQUIREMENTS

The Issuer is subject to, and supports, the Code of Principles of Good Corporate Governance forming part of the Capital Markets Rules (the **"Code"**). The Board acknowledges that the Code does not dictate or prescribe mandatory rules but recommends principles of good practice. Nonetheless, the Board strongly believes that the Code is in the best interest of the Issuer, shareholders, its bondholders and other stakeholders, and that compliance with the Code evidences the Issuer's and the Directors' commitment to high standards of good corporate governance.

The Board considers that during the financial year ended 31 December 2023, the Issuer was in compliance with the Code, save for the following exceptions:

(i) Principle 2: "Chairman and Chief Executive"

Although the Articles of Association of the Company allow for the appointment of a Chief Executive Officer, no such officer has been appointed for the period under review. In addition, the division of responsibilities between the Chairman and Chief Executive Officer has not been set out in writing. Accordingly, the responsibilities of the Chief Executive are not applicable at this point in time. The Board notes that the Chairman is also an executive member of the Board. However, the Board is of the view that this function of the Chairman does not impinge on his ability to bring to bear independent judgement to the Board.

(ii) Principle 4: "The Responsibilities of the Board"

The Board has not formally developed a succession policy for the future composition of the Board of Directors.

(iii) Principle 7: "Evaluation of the Board's Performance"

The Board has not appointed a committee for the purpose of undertaking an evaluation of the Board's performance. The Board believes that the size of the Issuer and the Board itself does not warrant the establishment of a committee specifically for the purpose of carrying out a performance evaluation of its role and the size of the Issuer's Board is such that it should enable it to evaluate its own performance without the requirement of setting up an ad-hoc committee for this purpose.

(iv) Principle 8: "Committees"

The Board has not established a remuneration and/or nominations committee. The Board has formulated the view that the size, structure and management of the Issuer are such that the establishment of an ad hoc remuneration committee is not warranted, and the responsibility for the establishment, review and implementation of the Issuer's remuneration policies has been retained within the remit of the Board itself. In particular, the current remuneration policy of the Issuer comprises purely fixed-rate remuneration, with no entitlement to any performance-based remuneration, or any entitlement to share options, retirement pension benefits or other benefits. Furthermore, the Board believes that the procedure for the nomination and appointment of Directors contained in the Articles of Association are commensurate to the size and operations of the Issuer and does not consider the requirement to establish an ad hoc nominations committee to be necessary for the Issuer. Instead, the Board takes on the role of periodically assessing the skills, knowledge and experience of individual Directors for the Board to have the appropriate level of skill, knowledge and experience, that would endow the Board with the requisite collective competence for the proper functioning, management and oversight of the Issuer by the Board. The Board intends to keep under review the utility and possible benefits of having a remuneration committee and nominations committee in due course.

(v) Principle 9: "Relations with Shareholders and the Market"

There are no formal procedures in place within the Issuer for the resolution of conflicts between minority and controlling shareholders, nor do the Memorandum and Articles of Association of the Issuer contemplate any mechanism for arbitration in these instances. The Issuer does not have a formal policy in place to allow minority shareholders to present an issue to the Board. In practice, however, the open channel of communication between the Issuer and minority shareholder, being the Chairperson of the Board of Directors, is such that any issue that may merit bringing to the attention of the Board may be transmitted via the company secretary or directly by the said Chairperson.

(vi) Principle 10: "Institutional Shareholders"

The Issuer has no institutional shareholders; therefore Principle 10 of the Code does not apply to the Issuer.

As required by the Act and the Capital Markets Rules, the Issuer's financial statements are subject to annual audit by the Issuer's external auditors. In view of the reporting structure adopted by the Code, the Issuer, on an annual basis in its annual report, details the level of the Issuer's compliance with the principles of the Code, explaining the reasons for non-compliance, if any.

13. LITIGATION

There have been no governmental, legal or arbitration proceedings involving the Issuer (including any such proceedings which are pending or threatened of which the Issuer is aware) during the period covering twelve months prior to the date of the Prospectus which may have, or have had, in the recent past significant effects on the financial position or profitability of the Issuer and/or the Group, taken as a whole.

14. ADDITIONAL INFORMATION

14.1 Share Capital of the Issuer

The authorised share capital of the Issuer is €20,000,000 divided into 20,000,000 ordinary shares of a nominal value of €1.00 each. The issued share capital of the Issuer is €17,693,000 divided into 17,693,000 ordinary shares of a nominal value of €1.00 each, being fully paid up and subscribed for, allotted and taken up by TUM Invest, other than 2 shares which are subscribed for, allotted and taken up by Anthony Fenech (the ultimate beneficial owner). TUM Invest is ultimately beneficially wholly owned by Anthony Fenech meaning that said Anthony Fenech exercises effective control over the Issuer.

All shares from time to time unissued shall be at the disposal of shareholders in general meeting, which may by means of (extra)ordinary resolution of the shareholders offer, allot, grant options over or otherwise dispose of such shares to such persons, at such times and on such terms as may be determined.

All ordinary shares in the Issuer rank equally in all respects. Every ordinary share confers the right to one vote.

The shares of the Issuer are not listed on the Exchange. An application has not been filed for the shares of the Issuer to be quoted on the Official List of the Exchange. There is no capital of the Issuer which has been issued to the public during the two years immediately preceding the publication of the Prospectus.

It is not expected that the Issuer will issue any shares during the next financial year, whether fully or partly paid up, in consideration for cash or otherwise.

There is no capital of the Issuer which is currently under option, nor is there any agreement by virtue of which any part of the capital of the Issuer is to be put under option. There are no arrangements, known to the Issuer, which may at a subsequent date result in a change in control of the Issuer.

The Issuer adopts measures in line with the Code to ensure that the relationship of the Issuer with the rest of the Group and/or with the ultimate shareholders, is retained at arm's length, including, in respect of the Issuer, adherence to rules on related party transactions set out in Chapter 5 of the Capital Markets Rules requiring the vetting and approval of any related party transaction by the Audit Committee, which is constituted in its totality by Independent Non-Executive Directors. The Audit Committee has the task of ensuring that any potential abuse is managed, controlled and resolved in the best interests of the Issuer. The composition of the Board, including the presence of the Independent, Non-Executive Directors, effectively minimises the possibility of any abuse of control by any major shareholder. With particular reference to the relationship between the Issuer and the ultimate shareholders, the Articles of Association of the Issuer provide that a Director shall not vote and shall not be taken into account for the purpose of forming a quorum, in respect of any contract or arrangement or other proposal in which he/she has a material interest.

2 RISK FACTORS

THE VALUE OF INVESTMENTS CAN GO DOWN AS WELL AS UP AND PAST PERFORMANCE IS NOT NECESSARILY INDICATIVE OF FUTURE PERFORMANCE. THE NOMINAL VALUE OF THE BONDS WILL BE REPAYABLE IN FULL UPON MATURITY ON THE MATURITY DATE UNLESS THE BONDS ARE PREVIOUSLY RE-PURCHASED AND CANCELLED.

AN INVESTMENT IN THE BONDS INVOLVES CERTAIN RISKS INCLUDING THOSE DESCRIBED BELOW AND IN THE REGISTRATION DOCUMENT. PROSPECTIVE INVESTORS SHOULD CAREFULLY CONSIDER, WITH THEIR OWN INDEPENDENT FINANCIAL AND OTHER PROFESSIONAL ADVISERS, THE RISK FACTORS CONTAINED IN THE PROSPECTUS AND OTHER INVESTMENT CONSIDERATIONS AS WELL AS ALL THE OTHER INFORMATION CONTAINED IN THE PROSPECTUS BEFORE DECIDING TO MAKE AN INVESTMENT IN THE BONDS.

THE ORDER IN WHICH THE INDIVIDUAL RISKS ARE PRESENTED BELOW IS NOT INTENDED TO PROVIDE AN INDICATION OF THE LIKELIHOOD NOR THE SEVERITY OR SIGNIFICANCE OF INDIVIDUAL RISKS.

NEITHER THE PROSPECTUS NOR ANY OTHER INFORMATION CONTAINED HEREIN OR SUPPLIED IN CONNECTION WITH THE BONDS ISSUED BY THE ISSUER IS (I) INTENDED TO PROVIDE THE BASIS OF ANY CREDIT OR OTHER EVALUATION, OR (II) SHOULD BE CONSIDERED AS A RECOMMENDATION BY THE ISSUER OR THE SPONSOR OR ANY AUTHORISED FINANCIAL INTERMEDIARY THAT ANY RECIPIENT OF THE PROSPECTUS OR ANY OTHER INFORMATION SUPPLIED IN CONNECTION THEREWITH, SHOULD PURCHASE ANY BONDS ISSUED BY THE ISSUER. PROSPECTIVE INVESTORS SHOULD MAKE THEIR OWN EVALUATION OF ALL RISK FACTORS AND SHOULD CONSIDER ALL OTHER SECTIONS IN THIS DOCUMENT.

2.1 Forward Looking Statements

This Securities Note contains "forward-looking statements" which include, among others, statements concerning matters that are not historical facts and which may involve projections of future circumstances. These statements by their nature involve a number of risks, uncertainties and assumptions, a few of which are beyond the Issuer's control, and important factors that could cause actual risks to differ materially from the expectations of the Issuer's directors. Such forecasts and projections do not bind the Issuer with respect to future results and no assurance can be given that future results or expectations covered by such forward-looking statements will be achieved.

2.2 Suitability of the Bonds

An investment in the Issuer and the Bonds may not be suitable for all recipients of the Prospectus and prospective investors are urged to consult an independent investment adviser licensed under the Investment Services Act, Chapter 370 of the laws of Malta, as to the suitability or otherwise of an investment in the Bonds before making an investment decision. In particular, such advice should be sought with a view to ascertaining that each prospective investor:

- i. has sufficient knowledge and experience to make a meaningful evaluation of the Bonds, the merits and risks of investing in the Bonds and the information contained or incorporated by reference to the Prospectus or any applicable supplement;
- ii. has sufficient financial resources and liquidity to bear all the risks of an investment in the Bonds, including where the currency for principal or interest payments is different from the prospective investor's currency;
- iii. understands thoroughly the terms of the Bonds and is familiar with the behaviour of any relevant indices and financial markets;
- iv. is able to evaluate possible scenarios for economic, interest rate and other factors that may affect his/her/its investment and his/her/its ability to bear the applicable risks; and
- v. is able to assess as to whether an investment in the Bonds shall achieve his/her/its investment objective.

2.3 Risks relating to the Bonds

An investment in the Bonds involves certain risks including, but not limited to, those described below:

- Investment in the Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Bonds. Investors should also be aware that the price of fixed rate bonds should theoretically move adversely to changes in interest rates. When prevailing market interest rates are rising their prices decline and, conversely, if market interest rates are declining, the prices of fixed rate bonds rise. This is called market risk since it arises only if a Bondholder decides to sell the Bonds before maturity on the secondary market.
- In view of the current inflationary environment, investment in the Bonds involves the risk that rising inflation on real rates of return in relation to coupon payments as well as secondary market prices may have an adverse impact on the value of the Bonds, such that increasing rates of inflation could have an adverse effect on the return on the Bonds in real terms.
- Even after the Bonds are admitted to trading on the Official List of the MSE, the Issuer is required to remain in compliance with certain requirements relating, *inter alia*, to the free transferability, clearance and settlement of the Bonds in order to remain a listed company in good standing. Moreover, the Malta Financial Services Authority has the authority to suspend trading or listing of the Bonds if, *inter alia*, it comes to believe that such a suspension is required for the protection of investors or the integrity or reputation of the market. The Malta Financial Services Authority may discontinue the listing of the Bonds on the Official List. Any such trading suspensions or listing revocations/discontinuations could have a material adverse effect on the liquidity and value of the Bonds.
- In the event that the Issuer wishes to amend any of the Terms and Conditions of the Bonds, it shall call a meeting of Bondholders in accordance with the provisions of sub-section 6.16 of this Securities Note. These provisions permit defined majorities to bind all Bondholders, including Bondholders who do not attend and vote at the relevant meeting and Bondholders who vote in a manner contrary to the majority.
- A Bondholder will bear the risk of any fluctuations in exchange rates between the currency of denomination of the Bonds (€) and the Bondholder's currency of reference, if different. Any adverse fluctuations may impair the return of investment of the Bondholder in real terms after taking into account the relevant exchange rate.
- All of the Bonds may be redeemed by the Issuer on any Early Redemption Date by giving at least thirty (30) Business Day's prior written notice to the relevant Bondholders. Once the Bonds are redeemed, the Bondholders will no longer be entitled to any interest or other rights in relation to those Bonds. If Bonds are redeemed prior to the Redemption Date, a Bondholder would not receive the same return on investment that it would have received if they were redeemed on the Redemption Date. In addition, Bondholders may not be able to re-invest the proceeds from an early redemption at yields that would have been received had they not been redeemed. This optional redemption feature may also have a negative impact on the market value of the Bonds.
- The Bonds are complex financial instruments and may not be suitable for all recipients of the Prospectus. Prospective Investors are urged to consult an independent investment adviser licensed under the Investment Services Act as to the suitability or otherwise of an investment in the Bonds before making an investment decision. In the event that the prospective Investor does not seek independent financial advice and/or does not read and fully understand the provisions of the Prospectus, there is a risk that such investor may acquire an investment which is not suitable for his or her risk profile.
- No prediction can be made about the effect which any future public offerings of the Issuer's securities, or any takeover or merger activity involving the Issuer, will have on the market price of the Bonds prevailing from time to time. If such changes take place, they could have an adverse effect on the market price for the Bonds.
- The Bonds and the Terms and Conditions of the Bond Issue are based on the requirements of the Capital Markets Rules, the Companies Act and the Prospectus Regulation in effect as at the date of the Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in law or administrative practice after the date of the Prospectus.

2.4 Risks relating to the Collateral

The Bonds shall at all times rank *pari passu* without any priority or preference among themselves but, in respect of the Issuer, and save for such exceptions as may be provided by applicable law, they shall rank with priority or preference to all present and future obligations of Tum Operations, by virtue and to the extent of the first ranking Share Pledge over the BBT Pledged Shares owned by it, which the said Tum Operations will constitute and grant in favour of the Security Trustee for the benefit of the Bondholders. Whilst the Share Pledge grants the Security Trustee a right of preference and priority for repayment of the Bonds over the creditors of Tum Operations in respect of the BBT Pledged Shares, and whilst the estimated value of such Collateral as at the date of this Securities Note is sufficient to cover the Redemption Value of the

Bonds, there can be no guarantee that the aggregate value of the said BBT Pledged Shares over the term of the Bonds will be and/or remain sufficient to cover the said full Redemption Value outstanding under the Bonds.

This may be the result of various factors, including general economic factors or even specific factors, events or circumstances that could have an adverse impact on the performance and financial condition of BBT p.l.c., and consequently on the value of the BBT Pledged Shares, as the case may be. If such circumstances were to arise or subsist at the time that the Collateral is to be enforced by the Security Trustee, it could have a material adverse effect on the recoverability of any amounts that may be outstanding under the Bonds.

Furthermore, there is no guarantee that the estimated value of the Collateral as set out in the Registration Document and in the Valuation Report is necessarily correct or would actually be achieved on the market. The valuation of shares is to an extent subjective, due to, among other things, the assumptions upon which the valuation is calculated. Accordingly, there can be no assurance that the estimated value as referred to in the Registration Document and in the Valuation Report reflects actual values that would be achieved on a sale at the time of enforcement of the Share Pledge or any of them.

By acquiring Bonds, a Bondholder is considered to be bound by the terms of the Security Trust Deed II as if he/she/it had been a party to it. The Security Trust Deed II contains a number of provisions which prospective investors ought to be aware of prior to acquiring the Bonds. For instance, in terms of the Security Trust Deed II: (i) the Security Trustee is not bound to take any such steps or proceedings or take any other action to enforce the security constituted by the Collateral unless the Security Trustee shall have been indemnified to its satisfaction against all actions, proceedings, claims and demands to which it may thereby render itself liable and all costs, charges, damages and expenses which it may incur by so doing; and (ii) the Security Trustee may pay itself out of the trust funds all sums owing to it in respect of the remuneration costs, charges, expenses or interest or by virtue of any indemnity from the Issuer and/or Tum Operations to which it is entitled under the Security Trust Deed II or by law or by virtue of any release or indemnity granted to it and all such sums as aforesaid shall be so retained and paid in priority to the claims of the Bondholders and shall constitute an additional charge upon the property charged with the Collateral.

All information on the Terms and Conditions of the Bonds which is offered to any prospective investor by Authorised Intermediaries is to be provided by such Authorised Intermediaries to the prospective investor prior to such investor subscribing to any Bonds. Any interested investor has the right to request that Authorised Intermediaries provide the investor with all and any information on the Prospectus, including the Terms and Conditions of the Bonds.

Neither the Issuer nor any of its advisers accept any responsibility for any actions of any Authorised Intermediary, including their compliance with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to a resale, placement or other offering of Bonds.

If given or made, such information and/or representation must not be relied upon as having been authorised by the Issuer. The Issuer does not accept responsibility for any information not contained in the Prospectus.

In the event of a resale, placement or other offering of Bonds by an Authorised Intermediary, said Authorised Intermediary shall be responsible to provide information to prospective investors on the terms and conditions of the resale, placement or other offering at the time such is made. Provided that the Bonds are deemed to be complex instruments, they may not be distributed to retail clients before at least an Appropriateness Test has been carried out. Particularly, to the extent that an Authorised Intermediary provides investment advice in respect of a purchase of the Bonds by an Applicant, such Authorised Intermediary shall also be required to conduct a Suitability Test in respect of that Applicant and, based on the results of such test, be satisfied that an investment in the Bonds may be considered suitable for the Applicant.

Any resale, placement or offering of Bonds to an investor by an Authorised Intermediary will be made in accordance with any terms and other arrangements in place between such Authorised Intermediary and such investor, including price, allocations and settlement arrangements. Where such information is not contained in the Prospectus, it will be the responsibility of the relative Authorised Intermediary at the time of such resale, placement or other offering to provide the prospective investor with that information and the Issuer does not have any responsibility or liability for such information.

5.5 Collateral

5.5.1 Constitution of the Collateral

Security for the fulfilment of the Issuer's obligations in terms of the Bond Issue is to be granted in favour of the Security Trustee for the benefit of Bondholders, by way, *inter alia*, of the granting of the Collateral, as described hereunder.

Tum Operations has agreed to grant the Collateral in favour of the Security Trustee for the benefit of Bondholders, as primary beneficiaries, in terms of the Security Trust Deed II and the Pledge of Shares Agreement, and for such purpose shall appoint the Security Trustee to hold and administer the Collateral under trust. The Collateral will secure the claim of the Security Trustee, for the benefit and in the interest of Bondholders, for the repayment of the full amount of the principal and interest under the Bonds by a preferred claim over the Collateral.

The Bonds will be secured by, and Bondholders shall have the benefit of, a pledge over the BBT Pledged Shares which shall be granted by Tum Operations in favour of the Security Trustee.

Specifically, the Issuer and Tum Operations shall enter into a Security Trust Deed II with the Security Trustee which sets out the covenants of the Issuer to pay the principal amount under the Bonds on the Redemption Date, or an Early Redemption Date, as may be applicable, and interest thereon on each Interest Payment Date in terms of the Prospectus, the pledgee rights under the Pledge of Shares Agreement and all other ancillary rights and benefits enjoyed by the Security Trustee (for the benefit of Bondholders) under the Security Trust Deed II.

Pursuant to the foregoing and the Valuation Report, the Collateral being offered comprises an aggregate value in the amount of *circa* €17,500,000.

In terms of the Security Trust Deed II, the parties thereto have agreed that (a) at any time before the Collateral shall have become enforceable and the Security Trustee shall have determined or become bound to enforce the same, the voting rights and right to participate at general meetings of BBT p.l.c. shall vest in Tum Operations owning the BBT Pledged Shares under the Pledge of Shares Agreement; (b) at any time before the Collateral shall have become enforceable and the Security Trustee shall have determined or become bound to enforce the same, any dividends or other distributions paid by BBT p.l.c. shall be received and may be used by Tum Operations for its business; (c) at any time before the Collateral shall have become enforceable and the Security Trustee shall have determined or become bound to enforce the same, the Security Trustee may at the cost and request of the Issuer and/or Tum Operations, as pledgor under the Share Pledge and with due regard to the interests of all the Bondholders do or concur with Tum Operations in doing certain transactions in respect of the BBT Pledged Shares or part thereof, including without limitation, the sale, exchange, surrender or dealing with or exercise any other rights in respect of all or any part of the BBT Pledged Shares upon such terms or for such consideration or in any such manner as the Security Trustee may think fit, always having due regard to the interests of the Bondholders; and (d) the Security Trustee retained the discretion and/or right, upon a request of the Issuer and/or Tum Operations as pledgor under the Share Pledge, to reduce, cancel and create or otherwise redefine the Collateral or to substitute any part of the Collateral with other collateral acceptable to the Security Trustee and which in the latter's reasonable opinion (which could be based on a professional valuation made by an independent valuer to be appointed by the Issuer and/or Tum Operations at the request and/or with the consent of the Security Trustee) the value of the elements of the Collateral as reduced, redefined, reconfigured or relocated or the resulting collateral after any substitution as aforesaid is at least equal to the Redemption Value of the outstanding Bonds in issue at the relevant time.

The Collateral will be vested in the Security Trustee for the benefit of the Bondholders in proportion to their respective holding of Bonds. No provision contained in the Prospectus, the Pledge of Shares Agreement and/or the Security Trust Deed II shall be construed as creating or otherwise acknowledging any obligation on the part of the Security Trustee in favour of the Bondholders for any payments that may fall due under the Bonds.

By creating a preferred claim over the BBT Pledged Shares, the Collateral will secure the claim of the Security Trustee, for the benefit of and in the interest of Bondholders, for the repayment of the principal and interest due and accruing under the Bonds. Accordingly, following the issue of the Bonds and application of the Bond Issue proceeds in accordance with the terms of this Securities Note, the Security Trustee will have the benefit of a pledge over the BBT Pledged Shares for the full amount of the Bonds and interest thereon. The Security Trustee's role includes holding and administering the

Collateral for the benefit of the Bondholders and the enforcement of the said Collateral upon the happening of an Event of Default in terms of sub-section 6.13 of this Securities Note. The Security Trustee shall have no payment obligations to Bondholders under the Bonds, which remain exclusively the obligations of the Issuer.

The Security Trustee's role includes holding and administering the Collateral for the benefit of the Bondholders and the enforcement of the said Collateral upon the happening of an Event of Default. The Security Trustee shall have no payment obligations to Bondholders under the Bonds, which remain exclusively the obligations of the Issuer. The Security Trustee shall hold the said property under trust in relation to a commercial transaction, as defined in the Trust and Trustees Act, Chapter 331 of the laws of Malta, and transactions connected or ancillary thereto. Furthermore, the Security Trustee shall hold the said property under a security trust as provided in Article 2095E of the Civil Code (Chapter 16 of the laws of Malta). The security shall, therefore, be constituted in the name of the Security Trustee in the manner provided for by applicable law of Malta for the benefit of the Bondholders and this for amounts owing to the Bondholders by the Issuer in terms of the Prospectus, as may be amended from time to time, including amounts of interest or charges due in terms thereof, in relation to the Bonds.

In the event that the Issuer and/or Tum Operations, commits any of the Events of Default, as applicable, including default of the Issuer's obligations to repay any Bonds (together with interest and charges thereon) in terms of the Prospectus, or any default under the Security Trust Deed II and/or under the Pledge of Shares Agreement, the Security Trustee shall have the authority to enforce the Collateral as set out hereunder. The Security Trustee shall not be bound to take any steps to ascertain whether any Event of Default or other similar condition, event or circumstance has occurred or may occur, and, until it shall have actual knowledge or express notice to the contrary, the Security Trustee shall be entitled to assume that no such Events of Default or condition, event or other circumstance has happened and that each of the Issuer and Tum Operations is observing and performing all the obligations, conditions and provisions on its part pursuant to the Prospectus, the Pledge of Shares Agreement and the Security Trust Deed II, as applicable.

In terms of the Articles of Association of BBT P.I.c., the Security Trustee shall prior to enforcing the Share Pledge by appropriation or transfer of the BBT Pledged Shares to a third party, offer the BBT Pledged Shares for sale on a pre-emptive basis to the other members of BBT P.I.c and only in the event that the other members of BBT P.I.c. not accept such offer, may the Security Trustee enforce the Share Pledge in accordance with the terms set out in the Security Trust Deed II and/or the Pledge of Shares Agreement.

Following the Security Trustee's enforcement of the Collateral, the Security Trustee shall apply any available funds as follows: first to pay any sums due to the Security Trustee as trust administration costs or liabilities of the Security Trustee; and secondly to pay the Bondholders outstanding dues by the Issuer in terms of the Prospectus.

As stated above in this sub-section with respect to the security property constituting the Collateral, in terms of the Security Trust Deed II, the Security Trustee shall retain the discretion to request that additional shares be pledged in its favour and/or release or substitute the security property, in whole or in part, held as collateral in terms of the Prospectus with alternative security from time to time, subject to an independent valuation report confirming to the satisfaction of the Security Trustee that the value of the security being substituted and added to the rights constituting the Collateral is at least equal to the Redemption Value at such date. In the event where the Security Trustee makes declarations of trust indicating additional property settled on trust, or releases part of the property settled on trust as contemplated above, the Issuer shall make the necessary company announcement in accordance with the Capital Markets Rules to that effect.

Without prejudice to other powers and discretions of the Security Trustee in terms of the Security Trust Deed II, and the Pledge of Shares Agreement, the Security Trustee shall have the discretion to enforce the Collateral on its own accord or upon receiving notice from the Bondholders that any of the Events of Default has occurred in accordance with the provisions hereof. The Security Trustee shall have the discretion to postpone any sale of the assets held on trust if the best value reasonably achievable for the said assets on the open market for the time being would not be considered a fair value in the opinion of the Security Trustee or in the opinion of any advisor appointed by the Security Trustee for the valuation of the said assets.

No provision contained in the Prospectus, the Pledge of Shares Agreement and/or the Security Trust Deed II shall be construed as creating or otherwise acknowledging any obligation on the part of the Security Trustee in favour of the Bondholders for any payments that may fall due under the Bonds.

In terms of the Security Trust Deed II, the Tum Finance Security Trust II shall terminate in any of the following events, whichever is the earliest:

- i. upon the Issuer repaying all amounts outstanding to the Bondholders in terms of the Prospectus and upon the Security Trustee receiving confirmation in writing to this effect from the Issuer; or
- ii. after one hundred and twenty-five (125) years from the date of the Security Trust Deed II; or
- iii. on such earlier date as the Security Trustee shall declare in writing to be the date on which the relative trust period shall end, provided that such action is in accordance with the terms of the Prospectus and the Pledge of Shares Agreement.

Every Bondholder shall be entitled to be entered in the register of Bondholders maintained by the CSD and shall, thereupon, become a Beneficiary under the Security Trust Deed II. The beneficial interest of a Beneficiary in terms of the Security Trust Deed II shall terminate upon such time as a Bondholder is no longer registered in the register of Bondholders maintained by the CSD, or upon the redemption of the principal amount of the Bonds and payment of all interest thereunder, as the case may be. The Security Trustee shall, so far as is reasonable and within a reasonable time of receiving a request in writing to that effect, provide full and accurate information on the Security Trust Deed II to beneficiaries of the Tum Finance Security Trust II and to the MFSA. A copy of the Security Trust Deed II may be inspected during the lifetime of the Prospectus at the registered office of the Issuer as set out in section 19 of the Registration Document.

The terms and conditions of the Security Trust Deed II shall, upon admission to listing of the Bonds or subsequent purchase of any Bonds, be binding on such subscriber or purchaser as a beneficiary under the trust as if the Bondholders had been a party to the Security Trust Deed II and as if the Security Trust Deed II contained covenants on the part of each Bondholder to observe and be bound by all the provisions therein, and the Security Trustee is authorised and required to do the things required of it by the Security Trust Deed II.

5.5.2 Process for creation of the Collateral and release of Bond Issue proceeds to the Issuer

The Bond Issue proceeds shall be retained by the Sponsor, Manager & Registrar and be released to the Issuer on condition that: (i) the Pledge of Shares Agreement has been duly executed and the statutory form is registered with the appropriate authority in favour of the Security Trustee as trustee of the Tum Finance Security Trust II; and (ii) it receives confirmation that the Bonds will be admitted to the Official List.

Upon receipt of the net proceeds of the Bond Issue amounting to €11,600,000 by the Issuer, the Issuer shall inject €11,600,000 into Tum Operations and the 11,600,000 preference shares, having a nominal value of €1.00 each in Tum Operations shall be allotted in favour of the Issuer. Tum Operations shall release the net Bond Issue proceeds pursuant to the loan agreements as stipulated and for the purposes specified in sub-section 5.1 above.

6.5 Status and ranking of the Bonds

The Bonds, as and when issued and allotted, shall constitute the general, direct and unconditional obligations of the Issuer, as secured by means of the Collateral granted in terms of the Security Trust Deed II. The Bonds shall at all times rank *pari passu*, without any priority or preference among themselves, but, in view of the fact that the Bonds shall be secured by the Collateral, shall rank with priority and preference over other present and future unsecured obligations of the Issuer and Tum Operations with respect to the BBT Pledged Shares, if any, save for such exceptions as may be provided by applicable law, and with ranking and priority over the Collateral.

Pursuant to the terms of the Security Trust Deed II, the Issuer and Tum Operations, have agreed to constitute in favour of the Security Trustee for the benefit of Bondholders, as beneficiaries, security over the Collateral and to appoint the Security Trustee to hold and administer the Collateral under trust. The Collateral will secure the claim of the Security Trustee, for the benefit and in the interest of Bondholders, for the repayment of the principal and interest under the Bonds by a preferred claim over the BBT Pledged Shares and the other security property generally from time to time.

The Collateral shall be held by the Security Trustee for the benefit of the Bondholders and, accordingly, the Bonds shall rank with priority and preference over other present and future unsecured obligations of the Issuer and Tum Operations. Notwithstanding the aforesaid, privileges or similar charges accorded by law in specific situations may arise during the course of the business of the Issuer and/or Tum Operations, which may rank with priority or preference to the Bonds and/or the Collateral, as applicable. It is further noted that in terms of the Security Trust Deed II, the Security Trustee may pay itself out of the trust funds all sums owing to it in respect of the remuneration costs, charges, expenses or interest or by virtue of any indemnity from the Issuer and/or Tum Operations, to which it is entitled under the Security Trust Deed II or by law or by virtue of any release or indemnity granted to it, and all such sums as aforesaid shall be so retained and paid in priority to the claims of the Bondholders and shall constitute an additional charge upon the property charged with the Collateral.

6.6 Rights attaching to the Bonds

A Bondholder shall have such rights as are, pursuant to this Securities Note, attached to the Bonds, including:

- ii. the repayment of capital;
- iii. the benefit of the Collateral through the Security Trustee, in accordance with the provisions of sub-section 5.5 of this Securities Note;

6.7 Interest

- 6.7.1 The Bonds shall bear interest from and including 22 November 2024 at the rate of 5.2% per annum on the nominal value thereof, payable annually in arrears on each Interest Payment Date. The first interest payment will be effected on 22 November 2025, covering the period 22 November 2024 up to and including 21 November 2025. Any Interest Payment Date which falls on a day other than a Business Day will be carried over to the next following day that is a Business Day. Each Bond will cease to bear interest from and including its due date for redemption, unless payment of the principal amount in respect of the Bond is improperly withheld or refused or unless default is otherwise made in respect of payment, in any of which events interest shall continue to accrue at the rate specified above plus one per cent (1%), but in any event not in excess of the maximum rate of interest allowed by Maltese law. In terms of article 2156 of the Civil Code (Chapter 16 of the laws of Malta), the right of Bondholders to bring claims for payment of interest and repayment of the principal on the Bonds is barred by the lapse of five (5) years.
- 6.7.2 When interest is required to be calculated for any period of less than a full year, it shall be calculated on the basis of a three hundred and sixty (360) day year consisting of twelve (12) months of thirty (30) days each, and in the case of an incomplete month, the number of days elapsed.

6.8 Yield

The gross yield calculated on the basis of the Interest, the Issue Price and the Nominal Value of the Bonds is 5.2%. The table below illustrated the gross yield at the different Early Redemption Dates:

2033	100.00	5.200%

6.9 Registration, form, denomination and title

- 6.9.1 Certificates will not be delivered to Bondholders in respect of the Bonds in virtue of the fact that the entitlement to Bonds will be represented in an uncertificated form by the appropriate entry in the electronic register maintained on behalf of the Issuer at the CSD. - iii. if the Issuer shall fail to perform or shall otherwise be in breach of any other material obligation contained in the Terms and Conditions and such failure shall continue for sixty (60) days after written notice thereof shall have been given to the Issuer by any Bondholder and/or by the Security Trustee; and/or
- iv. if the Issuer and/or Tum Operations commits a breach of any of the covenants or provisions contained in the Security Trust Deed II to be observed and performed on their respective parts and the said breach still subsists for thirty (30) days after having been notified by the Security Trustee; and/or
- v. if any representation or warranty made or deemed to be made or repeated by or in respect of the Issuer is or proves to have been incorrect in any material respect in the sole opinion of the Security Trustee; and/or
- vi. if an order is made or resolution passed or other action taken for the dissolution, termination of existence, liquidation, winding-up or bankruptcy of the Issuer; and/or
- vii. if the Issuer stops or suspends payments (whether of principal or interest) with respect to all or any class of its debts or announces an intention to do so or ceases or threatens to cease to carry on its business or a substantial part of its business; and/or
- viii. if the Issuer is unable, or admits in writing its inability, to pay its debts as they fall due or otherwise becomes insolvent; and/or

- x. if a judicial or provisional administrator is appointed upon the whole or any material part of the property of the Issuer and such appointment is determined by the Security Trustee to be prejudicial, in its opinion, to the Bondholders; and/or
- xi. if security constituted by any hypothec, pledge or charge upon the whole or any part of the undertaking or assets of the Issuer shall become enforceable and steps are taken to enforce the same and the taking of such steps shall be determined in writing by the Security Trustee to be, in its opinion, prejudicial to the Bondholders; and/or

- xiv. there shall have been entered against the Issuer a final judgment by a court of competent jurisdiction from which no appeal may be or is made for the payment of money in excess of three million Euro (€3,000,000) or its equivalent and ninety (90) days shall have passed since the date of entry of such judgment without its having been satisfied or stayed.

Upon any such Event of Default occurring and not being remedied within the relevant cure period, as applicable, the principal monies and interest accrued under the Bonds shall be deemed to have become immediately payable at the time of the event which shall have happened as aforesaid.

In the event that the Security Trustee becomes aware of the fact that an Event of Default has occurred or is likely to occur it shall notify the Malta Financial Services Authority, the Sponsor, Manager & Registrar and the Bondholders of such fact without delay in writing;

Provided that in the event of any breach by the Issuer and/or Tum Operations of any of the covenants, obligations or provisions herein contained due to any fortuitous event of a calamitous nature beyond its control, then the Security Trustee may, but shall be under no obligation so to do, give said defaulting party such period of time to remedy the breach as in its sole opinion may be justified in the circumstances and if in its sole opinion the breach is remediable within the short term and without any adverse impact on the Bondholders. The Security Trustee shall not be bound to take any steps to ascertain whether any Event of Default or other similar condition, event or circumstance has occurred or may occur, and, until it shall have actual knowledge or express notice to the contrary, the Security Trustee shall be entitled to assume that no such Event of Default or condition, event or other circumstance has happened and that each of the Issuer and/or Tum Operations is observing and performing all the obligations, conditions and provisions on its part contained under the Prospectus and the Security Trust Deed II, as applicable.

6.14 Transferability of the Bonds

- 6.14.1 The Bonds are freely transferable and, once admitted to the Official List, shall be transferable only in whole (in multiples of €100) in accordance with the rules and regulations of the MSE applicable from time to time. As such, no minimum holding requirement shall be applicable once the Bonds are admitted to listing on the Official List and commence trading thereafter, subject to trading in multiples of €100.
- 6.14.2 Any person becoming entitled to a Bond in consequence of the death or bankruptcy of a Bondholder may, upon such evidence being produced as may, from time to time, properly be required by the Issuer or the CSD, elect either to be registered himself/herself/itself as holder of the Bond or to have some person nominated by him/her/it registered as the transferee thereof. If the person so becoming entitled shall elect to be registered himself/herself/itself, he/she/it shall deliver or send to the CSD a notice in writing signed by him/her/it stating that he/she/it so elects. If he/she/it shall elect to have another person registered he/she/it shall testify his/her/its election by transferring the Bond, or procuring the transfer of the Bond, in favour of that person. Provided always that if a Bond is transmitted in furtherance of this paragraph 6.15.2, a person will not be registered as a Bondholder unless such transmission is made in multiples of €100.
- 6.14.3 All transfers and transmissions are subject in all cases to any pledge (duly constituted) of the Bonds and to any applicable laws and regulations.
- 6.14.4 The costs and expenses of affecting any registration of transfer or transmission, except for the expenses of delivery by any means other than regular mail (if any) and except, if the Issuer shall so require, the payment of a sum sufficient to cover any tax, duty or other governmental charge or insurance charges that may be imposed in relation thereto, will be borne by the person to whom the transfer / transmission has been made.
- 6.14.5 The Issuer will not register the transfer or transmission of Bonds for a period of fifteen (15) days preceding the due date for any payment of interest on the Bonds or the due date for redemption.

6.15 Further issues

The Issuer may, from time to time, without the consent of the Bondholders, create and issue further debentures, debenture stock, bonds, loan notes or any other debt securities, either having the same terms and conditions as any outstanding debt securities of any series (including the Bonds) and so that such further issue shall be consolidated and form a single series with the outstanding debt securities of the relevant series (including the Bonds), or upon such terms as the Issuer may determine at the time of their issue.

6.16 Meetings of Bondholders

- 6.16.1 The Issuer may, from time to time, call meetings of Bondholders for the purpose of consultation with Bondholders or for the purpose of obtaining the consent of Bondholders on matters which in terms of the Prospectus require the approval of a Bondholders' meeting and to affect any change to the applicable Terms and Conditions of the Bonds.
- 6.16.2 A meeting of Bondholders shall be called by the Directors by giving (i) the Security Trustee and (ii) all Bondholders listed on the register of Bondholders as at a date being not more than thirty (30) days preceding the date scheduled for the meeting, not less than fourteen (14) days' notice in writing. Such notice shall set out the time,

place (whether physical or virtual) and date set for the meeting and the matters to be discussed or decided thereat, including, if applicable, sufficient information on any amendment of the Prospectus that is proposed to be voted upon at the meeting and seeking the approval of the Bondholders. Following a meeting of Bondholders held in accordance with the provisions contained hereunder, the Issuer shall, acting in accordance with the resolution(s) taken at the meeting, communicate to the Security Trustee and the Bondholders whether the necessary consent to the proposal made by the Issuer has been granted or withheld. Subject to having obtained the necessary approval by the Bondholders in accordance with the provisions of this sub-section 6.16 at a meeting called for that purpose as aforesaid, any such decision shall subsequently be given effect to by the Issuer.

- 6.16.3 No change or amendment to, or waiver of, any of the applicable Terms and Conditions of the Bonds may be made unless such decision is taken at a meeting of Bondholders duly convened and held for that purpose in accordance with the terms hereof.
- 6.16.4 A meeting of Bondholders shall only validly and properly proceed to business if there is a quorum present at the commencement of the meeting. For this purpose, at least two (2) Bondholders present, in person or by proxy, representing not less than 50% in nominal value of the Bonds then outstanding, shall constitute a quorum. If a quorum is not present within thirty (30) minutes from the time scheduled for the commencement of the meeting as indicated on the notice convening same, the meeting shall stand adjourned to a place, date and time as shall be communicated by the Directors to the Security Trustee and the Bondholders present at that meeting. The Issuer shall within two (2) days from the date of the original meeting publish by way of a company announcement the date, time and place where the adjourned meeting is to be held. An adjourned meeting shall be held not earlier than seven (7) days, and not later than fifteen (15) days, following the original meeting. At an adjourned meeting the number of Bondholders present at the commencement of the meeting, in person or by proxy, shall constitute a quorum; and only the matters specified in the notice calling the original meeting shall be placed on the agenda of, and shall be discussed at and decided upon during, the adjourned meeting.
- 6.16.5 Any person who in accordance with the Memorandum and Articles of Association of the Issuer is to chair the annual general meetings of shareholders shall also chair meetings of Bondholders.
- 6.16.6 Once a quorum is declared present by the chairperson of the meeting, the meeting may then proceed to business and address the matters set out in the notice convening the meeting. In the event of decisions being required at the meeting the Directors or their representative shall present to the Security Trustee and the Bondholders the reasons why it is deemed necessary or desirable and appropriate that a particular decision is taken. The meeting shall allow reasonable and adequate time to Bondholders to present their views to the Issuer and the other Bondholders present at the meeting. The meeting shall then put the matter as proposed by the Issuer to a vote of the Bondholders present at the time at which the vote is being taken, and any Bondholders taken into account for the purpose of constituting a quorum who are no longer present for the taking of the vote shall not be taken into account for the purpose of such vote.
- 6.16.7 The voting process shall be managed by the Issuer's company secretary under the supervision and scrutiny of the auditors of the Issuer and the Security Trustee.
- 6.16.8 The proposal placed before a meeting of Bondholders shall only be considered approved if at least sixty per cent (60%) in nominal value of the Bondholders present at the meeting, or at any adjourned meeting, as the case may be, at the time when the vote is being taken, in person or by proxy, shall have voted in favour of the proposal.
- 6.16.9 The meeting of Bondholders may be held by means of any telephone conference or other communication equipment which allows those participating to hear and speak to each other, and any Bondholder or Director and/or any officer of the Company participating in a meeting in this manner is deemed to be present in person at such meeting and will be counted when reckoning a quorum.
- 6.16.10 Save for the above, the rules generally applicable to proceedings at general meetings of shareholders of the Issuer shall mutatis mutandis apply to meetings of Bondholders.

6.19.2 To the best of the Directors' knowledge, the Prospectus contains all relevant material information with respect to the Issuer and the Bonds and all information contained in the Prospectus is in every material respect true and accurate and not misleading, and there are no other facts in relation to the Issuer, its business and financial position, the omission of which would, in the context of issue of the Bonds, make any statement in the Prospectus misleading or inaccurate in any material respect.

6.20 Bonds held jointly

In respect of any Bonds held jointly by several persons (including spouses), the person first named in the register of Bondholders shall, for all intents and purposes, be deemed to be such nominated person by all those joint holders. 6.21 Bonds held subject to usufruct

In respect of a Bond held subject to usufruct, the name of the bare owner and the usufructuary shall be entered in the register. The usufructuary shall, for all intents and purposes, be deemed *vis-a-vis* the Issuer to be the holder of the Bonds so held and shall have the right to receive interest on the Bonds and to vote at meetings of the Bondholders but shall not, during the existence of the Bonds, have the right to dispose of the Bonds so held without the consent of the bare owner, and shall not be entitled to the repayment of principal on the Bonds, which shall be due to the bare owner.

6.22 Governing law and jurisdiction

6.22.1 The Bonds are governed by and shall be construed in accordance with Maltese law.

6.22.2 Any legal action, suit or proceedings against the Issuer arising out of or in connection with the Bonds and/or the Prospectus shall be brought exclusively before the Maltese courts.

7 TAXATION

7.1 General

Investors and prospective investors are urged to seek professional advice as regards both Maltese and any foreign tax legislation which may be applicable to the acquisition, holding and disposal of Bonds, as well as any interest payments made by the Issuer. The following is a summary of the anticipated tax treatment applicable to the Bonds and to Bondholders in so far as taxation in Malta is concerned. This information, that does not constitute legal or tax advice and does not purport to be exhaustive, refers only to Bondholders who do not deal in securities in the course of their normal trading activity.

The information below is based on an interpretation of tax law and practice relative to the applicable legislation, as known to the Issuer at the date of the Prospectus, in respect of a subject on which no official guidelines exist. Investors are reminded that tax law and practice and their interpretation, as well as the levels of tax on the subject matter referred to in the preceding paragraph, may change from time to time.

This information is being given solely for the general information of investors who do not deal in the acquisition and disposal of securities in the course of their normal trading activities. The precise implications for investors will depend, among other things, on their particular circumstances and on the classification of the Bonds from a Maltese tax perspective, and professional advice in this respect should be sought accordingly.

7.2 Malta tax on interest

Since interest is payable in respect of a Bond which is the subject of a public issue, unless the Issuer is otherwise instructed by a Bondholder to receive the interest gross of any withholding tax or if the Bondholder does not fall within the definition of "recipient" in terms of article 41(c) of the Income Tax Act (Chapter 123 of the laws of Malta), interest shall be paid to such person net of a final withholding tax, currently at the rate of 15% (10% in the case of certain types of collective investment schemes) of the gross amount of the interest, pursuant to article 33 of the Income Tax Act. Bondholders who do not fall within the definition of a "recipient" do not qualify for the said rate and should seek professional advice on the taxation of such income as special rules may apply.

This withholding tax is considered as a final tax and a Maltese resident individual Bondholder is not obliged to declare the interest so received in his/her income tax return, to the extent that the interest is paid net of tax. No person, whether corporate or non-corporate, shall be charged to further tax in respect of such income and the tax deducted shall not be available as a credit against the recipient's tax liability or available as a refund, as the case may be.

The Issuer will render an account to the Maltese Commissioner for Revenue of all amounts of interest paid and tax so deducted, including the identity of the recipient.

In the case of a valid election made in writing by an eligible Bondholder resident in Malta to receive the interest due without the deduction of final tax, interest will be paid gross and such person will be obliged to declare the interest so received in his/her/its Maltese income tax return and be subject to tax on such interest at the standard rates applicable to that person at that time. Additionally, in this latter case the Issuer will advise the Malta Commissioner for Revenue on an annual basis in respect of all interest paid gross and of the identity of all such recipients. Any such election made by a resident Bondholder at the time of subscription may be subsequently changed by giving notice in writing to the Issuer. Such election or revocation will be effective within the time limit set out in the Income Tax Act.

In terms of article 12(1)(c) of the Income Tax Act, Bondholders who are not resident in Malta satisfying the applicable conditions set out therein, including but not limited to the condition that the Bondholder is not owned and controlled by, whether directly or indirectly, nor acts on behalf of an individual/s who are ordinarily resident and domiciled in Malta, are not taxable in Malta on the interest received and will receive interest gross, subject to the requisite declaration/evidence being provided to the Issuer in terms of law.

7.3 Exchange of information

In terms of applicable Maltese legislation, the Issuer and/or its agent are required to collect and forward certain information (including, but not limited to, information regarding payments made to certain Bondholders) to the Maltese Commissioner for Revenue. The Maltese Commissioner for Revenue will or may, in turn, automatically or on request, forward the information to other relevant tax authorities subject to certain conditions.

Relevant legislation includes, but is not limited to:

- (i) the implementation of Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended) which provides for the implementation of the regime known as the Common Reporting Standard ("CRS") – incorporated into Maltese law through Legal Notice 384 of 2015 entitled the Cooperation with Other Jurisdiction on Tax Matters (Amendment) Regulations, 2015; and
- (ii) the agreement between the Government of the United States of America and the Government of the Republic of Malta to Improve International Tax Compliance and to Implement FATCA – incorporated into Maltese law through Legal Notice 78 of 2014 ("FATCA Legislation").

The CRS has been proposed by the Organisation for Economic Co-operation and Development as a new global standard for the automatic exchange of financial account information between tax authorities in participating jurisdictions. The CRS requires Malta based financial institutions ("FIs") (defined as such for the purposes of CRS) to identify and report to the Maltese tax authorities financial accounts held by a "Reportable Person" (as defined under the CRS legislation), and certain entities with one or more controlling persons, as defined under the CRS legislation, which is classified as a reportable person. Financial information relating to Bonds and the holders of the Bonds may fall within the purview of CRS and may be subject to reporting and information exchange provisions.

In particular with respect to CRS, the following information will be reported annually by the FIs to the Commissioner for Revenue in respect of each reportable account maintained by the FIs: (i) the name, address, jurisdiction of tax residence, tax identification number (TIN) and date and place of birth (in the case of an individual); (ii) the account number (or

functional equivalent in the absence of an account number); (iii) the account balance or value as of the end of the relevant calendar year or other appropriate reporting period or, if the account was closed during such year or period, the closure of the account; (iv) the total gross amount paid or credited to the account holder with respect to the account during the calendar year or other appropriate reporting period with respect to which the FI is the obligor or debtor, including the aggregate amount of any redemption payments made to the account holder during the calendar year or other appropriate reporting period.

Under the FATCA Legislation, FIs in Malta (defined as such for the purposes of FATCA) are obliged to identify and report financial accounts held by specified U.S. persons, as defined under the FATCA Legislation, and certain non-U.S. entities which are controlled by U.S. controlling persons, as defined under the FATCA Legislation, to the Commissioner for Revenue. The latter is, in turn, required to exchange such information to the US Internal Revenue Service. Financial account information in respect of holders of the Bonds could fall within the scope of FATCA and they may, therefore, be subject to reporting obligations.

Pursuant to obligations under FACTA Legislation, FIs reserve the right to store, use, process, disclose and report any required information including all current and historical data related to the past and/or present account/s held by reportable persons, including, but not limited to, the name, address, date of birth, place of birth and U.S. tax identification number, the details of any account transactions, the nature, balances and compositions of the assets held in the account, to the Commissioner for Revenue.

The Commissioner for Revenue shall by automatic exchange framework for reciprocal information exchange, communicate to the other competent authority on an annual basis, any relevant information that may fall to be classified as reportable, and vice-versa.

FIs reserve the right to request any information and/or documentation required, in respect of any financial account, in order to comply with the obligations imposed under FATCA and CRS and any referring legislation. In the case of failure to provide satisfactory documentation and/or information, an FI may take such action as it thinks fit, including without limitation, the closure of the financial account.

7.4 Maltese taxation on capital gains on transfer of the Bonds

On the assumption that the Bonds would not fall within the definition of “securities” in terms of article 5(1)(b) of the Income Tax Act, that is, “shares and stocks and such like instrument that participate in any way in the profits of the company and whose return is not limited to a fixed rate of return”, to the extent that the Bonds are held as capital assets by the Bondholder, no income tax on capital gains should be chargeable in respect of a transfer of the Bonds.

7.5 Duty on documents and transfers

In terms of the Duty on Documents and Transfers Act (Chapter 364 of the laws of Malta), duty is chargeable *inter alia* on the transfer or transmission causa mortis of marketable securities. A marketable security is defined in the said legislation as “a holding of share capital in any company and any document representing the same”.

Accordingly, the Bonds should not be treated as constituting marketable securities within the meaning of the aforementioned legislation and, therefore, the transfer/transmission thereof should not be chargeable to duty.

Furthermore, even if the Bonds are considered to be marketable securities for the purposes of the Duty on Documents and Transfers Act, in terms of article 50 of the Financial Markets Act (Chapter 345 of the laws of Malta), in view of the fact that the Bonds constitute financial instruments of a company quoted on a regulated market exchange, as is the Official List, redemptions and transfers of the Bonds should in any case be exempt from Maltese duty.

INVESTORS AND PROSPECTIVE INVESTORS ARE URGED TO SEEK PROFESSIONAL ADVICE AS REGARDS BOTH MALTESE AND ANY FOREIGN TAX LEGISLATION APPLICABLE TO THE ACQUISITION, HOLDING AND DISPOSAL OF BONDS, AS WELL AS INTEREST PAYMENTS MADE BY THE ISSUER. THE TAX LEGISLATION OF THE INVESTOR'S MEMBER STATE AND OF THE ISSUER'S COUNTRY OF INCORPORATION MAY HAVE AN IMPACT ON THE INCOME RECEIVED FROM THE SECURITIES. THE ABOVE IS A SUMMARY OF THE ANTICIPATED TAX TREATMENT APPLICABLE TO THE BONDS AND TO BONDHOLDERS. THIS INFORMATION, WHICH DOES NOT CONSTITUTE LEGAL OR TAX ADVICE, REFERS ONLY TO BONDHOLDERS WHO DO NOT DEAL IN SECURITIES IN THE COURSE OF THEIR NORMAL TRADING ACTIVITY.

8 TERMS AND CONDITIONS OF THE BOND ISSUE

- 8.1 The following Terms and Conditions shall be read in conjunction with all the other terms and conditions relative to and regulating the contractual relationship created between the Issuer on the one hand and the Bondholders on the other.
- 8.2 The issue and allotment of the Bonds is conditional upon: (i) the Minimum Amount of €8,040,000 being subscribed for; (ii) the Pledge of Shares Agreement and the Security Trust Deed II being duly executed; (iii) the Collateral being duly granted and registered with the appropriate authority/ies, as applicable; and (iv) the Bonds being admitted to trading on the Official List. In the event that any one or more of the aforesaid conditions is not satisfied, any application monies received by the Issuer from all Applicants will be returned, without interest, by direct credit into the Applicant's bank account indicated by the Applicant / Authorised Intermediary on the relative Application / subscription agreement.

Applications must be accompanied by the full price of the Bonds applied for, in Euro. Payment may be made by credit transfer to the respective Authorised Intermediary, by cheque payable to the respective Authorised Intermediary or by any other method of payment as accepted by the respective Authorised Intermediary. In any case, acceptance of payment shall be made at the Authorised Intermediary's sole and absolute discretion and may be on the basis that the Applicant indemnifies the Authorised Intermediary against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of the Applicant's remittance to be honoured on first presentation, and that, at any time prior to unconditional acceptance by the Authorised Intermediary of such late payment in respect of such Bonds, the Authorised Intermediary may (without prejudice to other rights) treat the agreement to allocate such Bonds as void, in which case the Applicant will not be entitled to any refund or payment in respect of such Bonds (other than return of such late payment).
- 8.4 It is the responsibility of investors wishing to apply for the Bonds to inform themselves as to the legal requirements of so applying, including any requirements relating to external transaction requirements in Malta and any exchange control in the countries of their nationality, residence or domicile.
- 8.5 The contract created by the Issuer's acceptance of an Application filed by a prospective bondholder shall be subject to all the Terms and Conditions set out in this Securities Note.
- 8.6 If Applications are signed/delivered on behalf of another party or on behalf of a corporation or corporate entity or association of persons, the person signing will be deemed to have duly bound his/her principal, or the relative corporation, corporate entity, or association of persons, and will be deemed also to have given the confirmations, warranties and undertakings contained in these Terms and Conditions on their behalf. Such representative may be requested to submit the relative power of attorney/resolution or a copy thereof duly certified by a lawyer or notary public if so required by the Issuer acting through the Registrar, but it shall not be the duty or responsibility of the Registrar or the Issuer to ascertain that such representative is duly authorised to appear on the Application and bind the Applicant.
- 8.7 Applications in the name of a corporation or corporate entity or association of persons need to include a valid Legal Entity Identifier ("LEI") (which needs to be unexpired). Failure to include a valid LEI code will result in the Application being cancelled by the Issuer, acting through the Registrar, and subscription monies will be returned to the Applicant in accordance with the terms set out herein.
- 8.8 In the event that an Applicant fails to submit full information and/or documentation required with respect to an Application, the Applicant shall receive a full refund, without interest, by direct credit transfer to such account indicated by him/her/it at any time before the Bonds are admitted to listing on the Official List. Neither the Issuer nor the Registrar shall be responsible for any charges, loss or delay arising in connection with such credit transfer.
- 8.9 In the case of joint Applications, reference to the Applicant in these Terms and Conditions is a reference to each of the joint Applicants, and liability therefor is joint and several.
- 8.10 Applications in the name and for the benefit of minors shall be allowed provided that the Applicant already holds an account with the MSE. Any Bonds allocated pursuant to such an Application shall be registered in the name of the minor as Bondholder, with interest and redemption monies payable to the parent/s / legal guardian/s submitting the Application until such time as the minor attains the age of eighteen (18) years, following which all interest and redemption monies shall be paid directly to the registered holder, provided that the Issuer has been duly notified in writing of the fact that the minor has attained the age of eighteen (18) years.
- 8.11 The Bonds have not been and will not be registered under the Securities Act of 1933 of the United States of America and, accordingly, may not be offered or sold within the United States or to or for the account or benefit of a U.S. person.

- 8.12 No person receiving a copy of the Prospectus in any territory other than Malta may treat the same as constituting an invitation or offer to such person, nor should such person in any event use the Prospectus, unless, in the relevant territory, such an invitation or offer could lawfully be made to such person without contravention of any regulation or other legal requirements.
- 8.13 It is the responsibility of any person outside Malta wishing to make any Application to satisfy himself/herself/itself as to full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any other formalities required to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.
- 8.14 Subject to all other Terms and Conditions set out in the Prospectus, the Issuer reserves the right to reject, in whole or in part, or to scale down, any Application, and to present any cheques and/or drafts for payment upon receipt. The right is also reserved to refuse any Application which in the opinion of the Issuer, acting through the Registrar, is not properly completed in all respects in accordance with the relative instructions or is not accompanied by the required documents.
- 8.15 Save where the context requires otherwise or where otherwise defined therein, terms defined in the Prospectus bear the same meaning when used in these Terms and Conditions, in any of the annexes and in any other document issued pursuant to the Prospectus.

- 8.17 Subject to all other Terms and Conditions set out in the Prospectus, the Issuer reserves the right to revoke the Bond Issue at any time before the closing of the Issue Period. The circumstances in which such revocation might occur are expected to be exceptional, for example where a significant change in market conditions occurs.
- 8.18 The Bonds will be issued in multiples of €100. The minimum subscription amount of Bonds that can be subscribed for by all Applicants is €1,000.
- 8.19 For the purposes of the Prevention of Money Laundering and Funding of Terrorism Regulations (Subsidiary Legislation 373.01), as may be amended from time to time, all appointed Authorised Intermediaries are under a duty to communicate, upon request, all information about clients as is mentioned in Articles 1.2(d) and 2.4 of the "Members' Code of Conduct" appended as Appendix 3.6 to Chapter 3 of the MSE Bye-Laws, irrespective of whether the said appointed Authorised Intermediaries are Malta Stock Exchange members or not. Such information shall be held and controlled by the Malta Stock Exchange in terms of the General Data Protection Regulation (EU) 2016/679 (GDPR) and the Data Protection Act (Chapter 586 of the laws of Malta) for the purposes and within the terms of the Malta Stock Exchange Data Protection Policy as published from time to time.
- 8.20 It shall be incumbent on the respective Authorised Intermediaries to ascertain that all other applicable regulatory requirements relating to subscription of Bonds by an Applicant are complied with, including without limitation the obligation to comply with all applicable MiFIR requirements as well as applicable MFSA Rules for investment services providers, all applicable Anti-Money Laundering and Counter Terrorist Financing rules and regulations, as well as the applicable MFSA Conduct of Business Rules.
- 8.21 It shall be incumbent on the respective Authorised Intermediary to ascertain that all other applicable regulatory requirements relating to subscription of Bonds by an Applicant are complied with, including without limitation the obligation to comply with all applicable requirements set out Directive 2014/65/EU of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments ("MiFID II") as well as applicable MFSA Rules for investment services providers. Provided that the Bonds are deemed to be complex instruments, they may not be distributed to retail clients before at least an Appropriateness Test has been carried out. Particularly, to the extent that an Authorised Intermediary provides investment advice in respect of a purchase of the Bonds by an Applicant, such Authorised Intermediary shall also be required to conduct a Suitability Test in respect of that Applicant and, based on the results of such test, be satisfied that an investment in the Bonds may be considered suitable for the Applicant.

For the purpose of this Securities Note, the term "Appropriateness Test" means the test conducted by any Authorised Intermediary, when providing an investment service (other than investment advice or portfolio management) in relation to the subscription for and the trading of the Bonds, for the purpose of such Authorised Intermediary determining (after collecting the necessary information) whether the investment service or the Bonds are appropriate for the prospective Applicant or prospective transferee. In carrying out this assessment, the Authorised Intermediary shall ask the Applicant or the prospective transferee to provide information regarding the Applicant or transferee's knowledge and experience so as to determine that the Applicant or transferee has the necessary experience and knowledge in order to understand the risks involved in relation to the Bonds or investment service offered or demanded, in accordance with the Conduct of Business Rulebook issued by the MFSA. In the event that the Authorised Intermediary considers, on the basis of the test conducted, that the transfer of Bonds is not appropriate for the Applicant or prospective transferee, the Authorised Intermediary shall reject the prospective Applicant's request to subscribe for or acquire Bonds, irrespective of whether the Applicant or transferee is warned that the investment in the Bonds is not appropriate for the Applicant or transferee.

For the purpose of this Securities Note, the term "Suitability Test" means the process through which an Authorised Intermediary providing investment advice or portfolio management services in relation to the subscription for and trading of Bonds obtains such information from the Applicant or prospective transferee as is necessary to enable the Authorised Intermediary to recommend to or, in the case of portfolio management, to effect for, the Applicant or prospective transferee, the investment service and trading in Bonds that are considered suitable for him/her, in accordance with the Conduct of Business Rulebook issued by the MFSA.

8.22 By completing and delivering an Application for Bonds, the Applicant:

- ii. warrants that the information submitted by the Applicant is true and correct in all respects. All Applications need to include a valid MSE account number in the name of the Applicant/s. Failure to include an MSE account number will result in the Application being cancelled by the Issuer (acting through the Registrar) and subscription monies will be returned to the Applicant. In the event of a discrepancy between the personal details (including name and surname and the Applicant's address) provided by an Applicant and those held by the MSE in relation to the MSE account number indicated by the Applicant, the details held by the MSE shall be deemed to be the correct details of the Applicant;
- iii. authorises the Registrar and the MSE to include his/her/its name or, in the case of joint Applications the first named Applicant, in the register of securities of the Issuer in respect of the Bonds allocated to such Applicant and further authorises the Issuer, the Registrar, the respective Authorised Intermediary and the MSE to process the personal data that the Applicant provides in connection with an Application for Bonds, for all purposes necessary and subsequent to the Bond Issue applied for, in accordance with the General Data Protection Regulation (EU) 2016/679 (GDPR) and the Data Protection Act (Chapter 586 of the laws of Malta). The Applicant has the right to request access to and rectification of the personal data relating to him/her/it as processed by the Issuer and/or the MSE. Any such requests must be made in writing and sent to the CSD. The requests must be signed by the Applicant to whom the personal data relates;
- iv. confirms that in making such Application no reliance was placed on any information or representation in relation to the Issuer or the issue of the Bonds other than what is contained in the Prospectus and, accordingly, agree/s that no person responsible solely or jointly for the Prospectus or any part thereof will have any liability for any such other information or representation;
- v. agrees that the registration advice and other documents and any monies returnable to the Applicant may be retained pending clearance of his/her/its remittance, and any verification of identity as required by the Prevention of Money Laundering Act (Chapter 373 of the laws of Malta) and regulations made thereunder, and that such monies will not bear interest;
- vi. agrees to provide the Issuer, acting through the Registrar, with any information which it/they may request in connection with the Application;
- vii. warrants, in connection with the Application, to have observed all applicable laws, obtained any requisite governmental or other consents, complied with all requisite formalities and paid any issue, transfer or other taxes due in connection with his/her/its Application in any territory, and that the Applicant has not taken any action which will or may result in the Issuer or the Registrar acting in breach of the regulatory or legal requirements of any territory in connection with the issue of the Bonds or his/her/its Application;
- viii. warrants that all applicable exchange control or other regulations (including those relating to external transactions) have been duly and fully complied with;

- x. agrees that unless such Application is made with Calamatta Cuschieri Investment Services Limited as an Authorised Intermediary, Calamatta Cuschieri Investment Services Limited will not, in its capacity of Sponsor, treat the Applicant as its customer by virtue of such Applicant making an Application for the Bonds, and that Calamatta Cuschieri Investment Services Limited will owe the Applicant no duties or responsibilities concerning the price of the Bonds or their appropriateness and suitability for the Applicant;
- xi. agrees that all documents in connection with the issue of the Bonds and any returned monies, including refunds of unapplied Application monies, if any, will be sent at the Applicant's own risk and may be sent, in the case of documents, by post at the address (or, in the case of joint Applications, the address of the first named Applicant) as set out by the Applicant and in the case of monies by direct credit into the Applicant's bank account as indicated by the Applicant;
- xii. renounces to any rights the Applicant may have to set off any amounts the Applicant may at any time owe the Issuer against any amount due under the terms of these Bonds;

- xiv. warrants that his/her/its remittance will be honoured on first presentation and agrees that if such remittance is not so honoured on its first presentation, the Issuer, acting through the Registrar, reserves the right to invalidate the relative

Application. Furthermore, the Applicant will not be entitled to receive a registration advice or to be registered in the register of Bondholders or to enjoy or receive any rights in respect of such Bonds, unless the Applicant makes payment in cleared funds and such consideration is accepted by the respective Authorised Intermediary (which acceptance shall be made in the Authorised Intermediary's sole and absolute discretion and may be on the basis that the Applicant indemnifies the Authorised Intermediary against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of the Applicant's remittance to be honoured on first presentation, and that, at any time prior to unconditional acceptance by the Authorised Intermediary of such late payment in respect of such Bonds, the Authorised Intermediary may (without prejudice to other rights) treat the agreement to allocate such Bonds as void and may allocate such Bonds to some other person, in which case the Applicant will not be entitled to any refund or payment in respect of such Bonds (other than return of such late payment));

- xv. agrees that all Applications, acceptances of applications and contracts resulting therefrom will be governed by, and construed in accordance with, Maltese law and that he/she/it submits to the exclusive jurisdiction of the Maltese Courts and agrees that nothing shall limit the right of the Issuer to bring any action, suit or proceeding arising out of or in connection with any such Applications, acceptances of applications and contracts in any other manner permitted by law in any court of competent jurisdiction;
- xvi. warrants that if he/she signs/delivers an Application on behalf of another party or on behalf of a corporation or corporate entity or association of persons, he/she has due authority to do so and such person, corporation, corporate entity or association of persons will also be bound accordingly, and will be deemed also to have given the confirmations, warranties and undertakings contained in these Terms and Conditions;

2.1.1 Historical Financial Performance

Consolidated revenue for FY23 decreased slightly by 1.4% amounting to circa €3.7m and reflects revenue generated from the Group's properties and other income. Although the total change in revenue is immaterial, the rental income of the Group decreased substantially due to the sale of Center Parc Retail Hub, decreasing from €3.3m in FY22 to €1.8m in FY23. Other income increased to €1.9m from €0.5m due to a gain on disposal of Hotel VIU57 and a gain on bargain purchase as a result of the additional acquisition of shares of BBT p.l.c.

Administrative expenses totalled €588k in FY23 which is lower than the €868k reported in FY22 due to tighter cost control. Administrative expenses include maintenance, utility, common area expenses and other similar expenses, whereby part of these costs are recovered through the service charge levied. The cost of utilities is expected to decrease due to the installation of solar panels mentioned previously which will decrease the overall water and electricity expenses.

The net finance costs for FY23 amounted to €841k, €40k higher than FY22, primarily due to slightly higher finance costs and lower interest. The finance costs were higher mainly because of the €35k increase in bank charges during the year. This was partially offset by a lower interest expense on the related party loan. This led to a profit before taxation of €2.1m. After accounting for tax expenses of €0.4m and a profit from discontinued operation of €3.7m, the Group recorded a total comprehensive income of €5.4m. The profit from discontinued operations relates to the disclosure of gain on investments relating to the transfer of Center Parc Holdings Ltd for shares in BBT plc.

2.1.2 Forecasted Financial performance:

Revenues

Rental Operations:

RENTAL OPERATIONS THE YEAR ENDED 31 DECEMBER

	2024F €000s	2025F €000s
Rental Income – Easysell	1,732	1,738
Rental Income – Ta'Natu	193	230
Rental Income – Centrepark	-	975
Rental Income – San Gwakkinn	-	-
Rental Income – Independent 2	-	180
Total Rental Income	1,924	3,123

For the fiscal year FY24, the company is anticipating €1.9m in rental income, with projections indicating a significant increase to €3.1m by FY25. This upward trajectory is largely attributable to the leasing initiatives associated with two pivotal projects: the Center Parc development and the Independent 2 property. The Center Parc project is expected to contribute substantially to the company's rental income due to its strategic location and amenities. Similarly, the Independent 2 property, which is set to be leased to a third party as a commercial outlet (Class 4B) at an annual rental rate of €250 per square meter, is poised to further enhance rental revenues.

Property Development:

PROPERTY DEVELOPMENT SALES FOR THE YEAR ENDED 31 DECEMBER

	2024F €000s	2025F €000s
Parilja	-	6,480
In-Nahal	-	3,173
Geblin	-	6,200
Total Revenues	-	15,853

The second segment of its revenue model related to contributions from property development and sales starting in FY25. The projected total revenue from this segment is estimated at €15.9m, predominantly derived from three key projects: Parilja, In-Nahal, and Geblin.

The Parilja project is expected to yield €6.5m and is scheduled for completion in Q1 FY25 with all units in this development are projected to be sold by Q4 FY25.

The In-Nahal project is projected to generate €3.17m in FY25 and €31.7m in total revenue with completion anticipated for Q3 FY27 and sales expected to conclude by Q2 FY28.

Meanwhile, the Geblin project is also expected to yield €6.2m with completion is targeted for FY25.

Other selected Items:

The administrative expenses for FY24 primarily consist of audit fees, director's remuneration, and legal and professional fees. A notable change occurs in FY25, when these expenses begin to incorporate lease payments to BBT¹, a subsidiary of the group. Specifically, the Group is expected to incur a rental charge of €900k per annum related to the leasing of Centre Parc Phase 2 from BBT. Agency fees are also projected to amount to €935k², alongside a substantial cost of sales for property developed, estimated at €10.8m³. Collectively, these are expected to amount to an overall cost of goods sold of €13.2m in FY25.

Moving on to depreciation costs, these expenses are primarily related to the investment properties held for rental purposes and the furnishings and finishings of the Risparmio Casa outlets. Depreciation is anticipated to increase from €923k in FY24 to €1.2m in FY25. This represents a year-on-year growth of approximately 39%, in line with the forecasted increase in assets.

Upon completion of the investment properties, the Group's portfolio is projected to be carried at fair value as determined by architectural valuations, and retained at this fixed amount thereafter. The projected revaluation gains in the income statement, net of deferred tax, are forecasted to be €2.4m in FY24 and €9.5m in FY25.

The share of profit from associates is expected to be positive in FY24 at €922k, and is estimated to reach €2.6m in FY25. This improvement is attributed to the profitability of the Group's subsidiary BBT, contributing €869k in FY24 and an anticipated €2.1m in FY25, alongside a smaller contribution from Risparmio Casa of €53k in FY24, rising to €670k in FY25.

Finance expenses encompass interest costs and deferred bond issue costs. The interest costs are projected to occur at varying rates depending on the various loans and bonds outstanding. Interest associated with property development is capitalized during the construction phase and subsequently expensed to the income statement upon recognition of property sales. Finance income includes interest income on excess cash estimated at 1.5% of the surplus cash balance per annum, while the loan receivable from a related party bears interest at 3.75% per annum, with repayment due by Q2 FY29.

The net finance costs are estimated to reach €1.0m in FY24, with projections indicating an increase to €2.0m in FY25 in line with the issuance of the Bond issue. In FY25 tax expenses are expected to increase materially mainly due to property sales tax of €1.2m. This is forecast to lead to a profit after taxation of €10.8m.

Historically the company's revenue primarily stemmed from rental operations and therefore operated at very high margins. The average EBIT margin during the historical period was approximately 78%, with a return on assets of around 2.0%. Looking ahead to FY24 and FY25, the Group will now incorporate property development and sales into its activities. This shift is expected to reduce the EBIT margin to 24% due to the inclusion of cost of goods sold related to property developments. Both return on equity and return on assets are forecasted to increase significantly going forward, coming in at 22.2% and 8.9% in FY25.

1 The Group also incurs a rental charge of €900k per annum in relation to the rental of Center Parc Phase 2 from BBT

The Group's total asset base is made up of mostly non-current assets related to investment property, investments in associates and PPE.

As mentioned in Part 1 the Group sold Centre Parc Holdings Ltd in return for an increased shareholding in BBT p.l.c. which decreased the investment property value by 53% and increased investments in associates by 685%. Additionally, the value of PPE increased to €8.6m due to the construction at San Gwakkin. There was also a €325k loan due from the ultimate parent company to Tum Operations Limited.

Once completed, the investment properties are projected to be valued as follows: Easysell at €31.4m (completed), San Gwakkin at €26.5m (expected completion in FY25), Ta' Natu Commercial Outlet at €3.8m (expected completion in FY24), and Independent 2 at €3.0m (expected completion in FY25). With the completion of all projects held for long-term rental in fiscal year FY25, the investment property is projected to stabilize at €64.8 m.

As at FY24, property, plant, and equipment (PPE) is forecast to include the San Gwakkin property being still under construction. Upon completion in FY25, this property will be reclassified under investment property. The remaining components of PPE predominantly consist of solar panels installed atop the Easysell property and fit-out costs associated with the Risparmio Casa outlets. This shift in classification reflects the company's strategy of transitioning development assets into long-term income-generating investments.

The investment in associates reflects the Group's holdings in the BBT subgroup and RCM. In FY24, €1.4m due from Develeco was capitalized in BBT, showcasing the Group's strategic investments in its subsidiaries. In FY25 investment in associates is expected to reach 34.4m, attributable to the completion of ongoing property development projects that will enhance the overall value of the investment.

Historically, current assets mainly consisted of amounts due from related parties. Going forward current assets will be primarily composed of inventory related to property development units projected at cost. In FY24 and FY25, inventory is expected to represent approximately 75% and 57% of total current assets, respectively. This transition reflects a substantial increase in current assets, which are projected to grow from €6.1m in FY23 to €28.8m in FY24. The significant growth in current assets underscores the Group's strategic emphasis on property development, which aligns with anticipated revenue increases in the forthcoming years.

Turning to the liabilities section, total debt is primarily composed of debt securities, projected to reach €31.5m in FY24. This includes the existing bond amounting to €19.7m and the proposed bond issue of €11.7m net of costs. Additionally, bank loans are expected to come in at €5.2m to €9.5m to €12.4m in FY23, FY24 and FY25 respectively.

To note that €10.5m of the total related party balances projected in FY24 are not expected to be repaid during the projected period. This amount is primarily due to TUM Invest.

The share capital of the Group and other reserves (reserves that emerged from the common control acquisition of Easysell Limited on Q2 FY19) historically have not changed and are expected to remain the same in FY24. The retained earnings fluctuate in line with the profit generated. The capital contribution in FY23 consists of a long-term loan payable to Tum Invest limited repayable exclusively at the discretion of the borrower, and the contribution as at acquisition of the associates FY22. With the disposal of Centre Parc Holdings Ltd, the non-controlling interest has decreased significantly. The Group's equity base increased slightly in line with the retained earnings which was offset by the minor negative non-controlling interest and is expected to follow the same trend in FY24 and FY25.

The Gearing Ratio 1, which measures net debt relative to the sum of net debt and total equity, stood at 37.3% in FY23 and is projected to rise slightly to 38.3% by FY25. This indicates a moderate level of leverage, suggesting a balanced approach to financing.

Gearing Ratio 3, which compares net debt to total equity, reflects a rise from 63.8% in 2023 to 62.2% in FY25 following a sharp increase in FY24 due to the Bond Issue. This forecasted decrease in FY25 is mainly due to the higher equity base.

Lastly, the Current Ratio, calculated as current assets divided by current liabilities, shows a healthy improvement from 1.6x in 2023 to 2.5x in FY25. This shift suggests enhanced liquidity and a stronger capacity to meet short-term obligations, reflecting positively on the company's financial health.

Cash Flow					
Free Cash Flow (Net cash from operations + Interest - Capex)	1,892	2,101	(1,823)	(16,728)	2,501

Cash generated from operations amounted to €1.3m mainly due to the profit before tax that was generated during the year and the finance costs from the bond, which was partially offset, by the gain on disposal from Hotel VIU57 and the gain from the acquisition of shares of BBT p.l.c.

After adjusting for the movement in working capital, including the operating activity from Center Parc Holdings Ltd and deducting taxation, the Group had a net cash flow generated from operating activities of €6.1m.

Net cash flows used in investing activities amounted to €9.8m mainly due to the additions to San Gwakkin and the loans advanced to related parties.

The Group's net cash flows generated from financing activities amounted to €4.5m and were mostly the proceeds received from bank loans. Management is anticipating €21.4m in financing activities during FY24 which is the net result of expected proceeds from the Bond issue, proceeds from bank loans and repayments of lease liabilities which historically has been more or less the same.

During the year the Group generated a cash movement of €748k resulting in a positive cash balance of €853k and after taking into consideration the cash movement of the discontinued operations, the Group's actual closing cash balance was €845k. A further positive cash movement is projected for FY24 with the cash position at the end of the year expected to be €5.6m.

The free cash flow during the year was negative, primarily due to the additions at San Gwakkin and is forecast to remain so in FY24 due to heavy capital expenditures. In FY25 however, free cash flow is forecast to turn positive as the Group starts to reap the benefits of the aforementioned investments.

Part 3 - Key Market and Competitor Data

3.1 General Market Conditions

The Group is subject to general market and economic risks that may have a significant impact on its current and future property developments and their timely completion within budget and their profitable operation. These include factors such as the health of the local property market, inflation and fluctuations in interest rates, exchange rates, property prices and rental rates. In the event that general economic conditions and property market conditions experience a downturn, which is not contemplated in the Group's planning during development, this shall have an adverse impact on the financial condition of the Group and may therefore affect the ability of the Issuer to meet its obligations under the Bonds.

3.2 Economic Update⁴

The Bank's Business Conditions Index (BCI) indicates that in August 2024, annual growth in business activity was broadly unchanged from July and remained slightly below its historical average estimated since January 2000. The European Commission confidence surveys show that sentiment in Malta increased in August, but remained below its long-term average, estimated since November 2002.

The largest improvement was recorded in the construction sector, though the sentiment indicator in this sector remained negative. Additional data show that in month-on-month terms, price expectations decreased across all sectors, bar among consumers. The largest decreases were recorded in the services and retail sectors. In August, the European Commission's Economic Uncertainty Indicator (EUI) for Malta increased compared with July, indicating higher uncertainty, with the largest increase recorded in industry.

In July, both industrial production and retail trade contracted on a year-on-year basis. In June, services production accelerated when compared with the same month a year ago. The unemployment rate decreased to 3.0% in July from 3.1% in June but remained unchanged from July 2023. Commercial building permits in July were higher than a year earlier but lower when compared to a month earlier.

⁴ Central Bank of Malta – Economic Update 9/2024

On the other hand, residential building permits decreased on both a monthly and an annual basis. In August, the number of residential promise-of-sale agreements increased on a year earlier, while final deeds of sale fell. The annual inflation rate based on the Harmonised Index of Consumer Prices (HICP) stood at 2.4% in August, slightly higher than 2.3% in the previous month, exceeding the euro area average by 0.2%.

HICP excluding energy and food in Malta increased to 2.3%, while remaining firmly below the euro area average. Inflation based on the Retail Price Index (RPI) rose slightly to 1.5% from 1.4% in July. In July, Maltese residents' deposits increased above their level a year ago, driven by balances belonging to households, financial and non-financial corporations. Meanwhile, credit to Maltese residents also increased in annual terms, reflecting higher lending to both the government sector and other sectors.

In July, the Consolidated Fund registered a surplus of €150.2m, an improvement of €194.1m when compared with the deficit registered a year earlier. This was due to a rise in government revenue, which was complemented by a decline in government expenditure. Overall, the Consolidated Fund balance registered a €60.5m surplus for the period from January, from a deficit of €302.4m in the same period a year earlier.

3.3 Economic Outlook⁵

According to the Bank's latest forecasts, Malta's gross domestic product (GDP) is expected to grow by 4.3% in 2024. Growth is then projected to ease to 3.5% in both 2025 and 2026. This implies a marginally downward revision in 2024 and 2025, when compared to the Bank's previous projections, while for 2026 the outlook is revised upwards.

In 2023, growth was primarily driven by net exports, while domestic demand is envisaged to be the main driver of growth in 2024. Private consumption growth continues at a brisk pace, and private investment, is expected to gradually recover. Net exports are also projected to contribute positively, driven mainly by services exports. Growth in 2025 and 2026 is expected to continue to be led by domestic demand.

Employment growth is set to moderate, albeit from high rates, in the projection horizon, while the average wage is expected to grow at a faster rate in 2024, partly in response to the pronounced inflation in the recent past and a tight labour market.

Annual inflation based on the Harmonised Index of Consumer Prices is projected to drop significantly, from 5.6% in 2023 to 2.4% in 2024, before reaching 1.9% by 2026. Compared to previous projections, inflation has been revised down by 0.5 percentage point in 2024, largely reflecting the unexpected rapid drop experienced in the initial months of the year.

The general government deficit-to-GDP ratio is set to decline to 4.1% in 2024, and to narrow further over the rest of the forecast horizon, to stand at 3.1% by 2026. The general government debt-to-GDP ratio is set to increase throughout the forecast horizon, reaching 54.3% by 2026. When compared with the previous projection round, the projected deficit ratio is higher, while the debt ratio is broadly unchanged.

Risks to activity are broadly balanced over the projection horizon. Downside risks largely emanate from possibly adverse trade effects related to ongoing geopolitical tensions. On the other hand, the labour market could exhibit even stronger dynamics than envisaged in this projection round, both in terms of employment and wages. This could then result in stronger private consumption growth.

Risks to inflation are balanced over the project horizon. Upside risks to inflation could stem from extreme weather events and effects of geopolitical developments. Other upside risks to headline inflation include the potential impact of measures to combat climate change. Furthermore, wage pressures could be stronger than envisaged in the baseline. On the downside, imported inflation could fall more rapidly than expected, while services inflation could normalise more quickly than envisaged in this projection round.

On the fiscal side, risks are tilted to the downside (deficit-increasing). These mainly reflect the likelihood of slippages in current expenditure, including higher-than-expected outlays on energy support measures if commodity prices are higher than envisaged. They also reflect the likelihood of additional increases in pensions and public sector wages in the outer years of the forecast horizon. Should these risks materialise, they are set to be partly offset by the likelihood of additional fiscal consolidation efforts to comply with the EU's fiscal rules.

3.4 The retail sector⁶

The confidence indicator in the retail sector fell further below its long-term average of 0.4.11. It stood at -10.1, down from -6.7 in the previous month. Contrary to July, retailers now assessed their stocks of finished goods to be above normal levels. Participant' assessment of sales over the past three months and to a lesser extent their expectations of business activity over the next three months, stood less negative compared to a month earlier.

3.5 Commercial property market

The strong economic growth sustained by the Maltese economy in recent years has contributed to a rise in the employment rate and the influx of foreign workers within the Maltese workforce. This has contributed to an increase in the demand for rental of office and commercial space in Malta. To address such growing demand, the supply of office and commercial space in Malta has considerably increased over the last couple of years. Of note, there are several traditional business areas in Malta. For instance, Sliema attracts many international brands and companies. Likewise, Valletta, being Malta's capital city, is considered as the hub for law firms and many long-established family businesses.

Other traditional commercial areas include the likes of St. Julian's, which is popular for its sea-view offices, and Floriana, which attracts businesses that want to be located in the vicinity of Valletta. In furtherance, there are also top-quality commercial developments within in the proximity of the airport and in other residential areas such as Naxxar, Mosta, Mellieha and in parts of the south of Malta. The variety of commercial and office space in Malta cater for every type of business, from start-ups to established global organisations. In this regard, numerous business centres have recently been developed, with new centres in the pipeline.

Although the supply for commercial property has increased in recent years, rental demand is still greater than supply as can be seen in the increase in average asking rental rates for office space which increased to €213/sqm in 2023, up from €183/sqm in 2022. The largest increase in rental rates came from the central region which saw growth of 31.9%. Further analysis shows that the highest proportion of office space can be found in the Northern Harbour region (52% of all listings), followed by the Central region (31%).

When it comes to commercial property sales there was only a marginal increase in the asking price when compared to 2022 with this increasing by just 2%, with Central region properties increasing by 9.7%.

The ECB policy decisions to combat inflation have seen the key policy interest rate stand at a record high with the ECB charging banks 4.5% per annum on main refinancing operations. To date, these interest rate hikes have not been reflected in the local market. Should interest rates locally rise, the path that both rent and sale prices in the commercial property market would take depends on multiple factors and so is unclear.

On one hand as the general price level of goods and services rises, property values may appreciate accordingly as investors turn to property as a hedge for inflation. The development of new commercial properties may also slow down as financing becomes costlier, potentially limiting the supply of available space and therefore increasing the price of already available property. On the other hand, persistently, sticky inflation could dampen economic activity and lead to suppressed demand levels and put downward pressure on both rental and sales prices.
