2.3 What are the key risks specific to the Issuer?

The most material risk factors specific to the Issuer which may negatively impact the operations and financial position of the Issuer should the circumstances mentioned therein materialise are set out below:

2.3.1 Being the parent company of the Group, the Issuer is dependent on the business prospects of its subsidiary companies, ranging from the entities in the Middle East, the Mediterranean basin and Sub-Saharan Africa. The Issuer's financial performance will be impacted should the financial performance of the Group decline.

2.3.2 The Group is exposed to the risks associated with the trends and future outlook of the oil and gas industry, including the demand and/or supply for oil and gas in the future.

2.3.3 The price of oil and gas is, to a large extent, affected by geopolitical tensions, such as the conflict between Russia and Ukraine and ongoing conflict and, or geopolitical tensions in the Middle East and Africa. The volatility of these markets can affect the appetite of International Energy Companies to undertake new projects to explore and develop new reservoirs, which could have a negative indirect impact on the Group, and on its business pipeline and related revenues.

2.3.4 The concerns derived from the climate change are causing a global push to shift from fossil energies to alternative sources such as wind and solar, which in the long run could lead to a decrease of the consumption of oil and gas. This could be further accelerated by the conflict in Ukraine.

2.3.5 Following the pressure of regulatory bodies and of the public in general, some financing institutions are less inclined to fund projects linked with non-renewable sources of energy.

2.3.6 The Group's operations are dependent on emerging markets, which present economic and political challenges. Therefore, the Group's business may be negatively impacted by political and economic instability, exchange controls, risk of nationalisation and changes in Government policies.

2.3.7 The oil and gas industry, particularly in the Mediterranean region, is dominated by a very limited number of International Energy Companies (IECs). The Group's performance depends on it being able to maintain and increase its relationship with these IECs.

3.0 Key Information on the Bonds

3.1 What are the main features of the securities?

The key features of the Bonds are set out below:

Each Bond forms part of a duly authorised issue of a maximum of the Euro equivalent of €25,000,000 in unsecured bonds of a nominal value of €5,000 per EUR Bond / \$5,000 per USD Bond. The Issue Date of the Bonds is expected to be on or around 26 November 2025. The Bonds are redeemable in 2031 – 2036. The Bonds shall bear interest at the rate of 5.50% per annum for the EUR Bonds and 6.50% per annum for the USD Bonds. Interest shall be paid annually on 30 June of each year between and including each of the years 2026 and 2036. The first payment of Interest on the Bond will be payable on 30 June 2026 (the First Interest Payment Date). Given that this would not represent a full calendar year from the date of issuance of the Bonds, this first payment of Interest shall be calculated on a pro rata basis.

Subject to admission to listing of the Bonds to the Official List, the EUR Bonds are expected to be assigned ISIN: MT0000311267 whilst the USD Bonds are expected to be assigned ISIN: MT0000311275. The Bonds, as and when issued and allotted, shall constitute the general, direct, unconditional and unsecured obligations of the Issuer. The Bonds shall at all times rank *pari passu*, without any priority or preference among themselves and with other outstanding and unsecured debt of the Issuer, present and future, save for such exceptions as may be provided by applicable law.

The minimum subscription amount of Bonds that can be subscribed for by Applicants upon subscription is €5,000 / \$5,000 (as applicable) and in multiples of €5,000 / \$5,000 (as applicable) thereafter. Once the Bonds are admitted to listing on the Official List, there is no minimum holding requirement. The Bonds are freely transferable and, once admitted to the Official List, shall be transferable in multiples of €5,000 / \$5,000 (as applicable) in accordance with the rules and regulations of the MSE applicable from time to time.

There are no special rights attached to the Bonds other than the right of the Bondholders to payment of interest and capital.

3.2 Where will the securities be traded?

Application has been made to the Malta Stock Exchange for the Bonds being issued pursuant to the Prospectus to be listed and traded on its Official List. The Bonds are expected to be admitted to the Malta Stock Exchange with effect from 26 November 2025 and trading is expected to commence on 27 November 2025. Dealing may commence prior to notification of the amount allotted being issued to Applicants.

3.3 What are the key risks associated with the Bonds?

The most material risk factors specific to the Bonds are set out below:

3.3.1 The Bonds, when issued and allotted, shall constitute the general, direct, unconditional and unsecured obligations of the Issuer and shall, at all times, rank *pari passu*, without any priority or preference among themselves and, save for such exceptions as may be provided by applicable law, without priority or preference to all present and future unsecured obligations of the Issuer. This means that any secured or privileged debts of the Issuer shall rank at all times ahead of the obligations of the Issuer under the Bonds, as a result of which the Bondholders may not be able to recover their investment in the Bonds in the case of insolvency or an equivalent situation, whether in full or in part.

3.3.2 Debt instruments which may be redeemed by an issuer prior to their maturity date are considered as having an embedded call option, with the price of the bonds taking these components into account. The Bonds may be redeemed at the option of the Issuer on an Early Redemption Date. In view of the early redemption component, the Bonds are complex financial instruments for the purposes of MiFID II and may not be suitable for the risk profile of all investors. In the event that an investor does not seek professional advice and, or does not read and fully understand the provisions of the Prospectus, there is a risk that such investor may acquire an investment which is not suitable for his or her risk profile.

3.3.3 Investment in the Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Bonds. Investors should also be aware that the price of fixed rate bonds should, theoretically, move adversely to changes in interest rates.

3.3.4 The Bonds are being issued with a fixed coupon rate and hence have a fixed rate of return. As such, subsequent changes in market interest rates, which are affected by a number of variables including the rate of inflation, may have an impact on the market value of the Bonds which typically moves inversely to movements in interest rates. The extent of the impact on the real rate of return depends on the changes in the level of inflation (higher inflation, lower real return) as well as the remaining years to maturity whereby the longer the term to maturity, the higher the impact on real returns.

3.3.5 Even after the Bonds are admitted to trading on the Official List, the Issuer is required to remain in compliance with certain requirements relating, *inter alia*, to the free transferability, clearance and settlement of the Bonds in order to remain a listed company in good standing. Moreover, the MFSA has the authority to suspend trading or listing of the Bonds if, *inter alia*, it comes to believe that such a suspension is required for the protection of investors or the integrity or reputation of the market. The Malta Financial Services Authority may discontinue the listing of the Bonds on the MSE.

3.3.6 In the event that the Issuer wishes to amend any of the Terms and Conditions of the Bonds it shall call a meeting of Bondholders in accordance with the provisions of the Securities Note. Said provisions permit defined majorities to bind all Bondholders, including Bondholders who do not attend and vote at the relevant meeting and Bondholders who vote in a manner contrary to the majority.

4.0 Key Information on the Offer of the Bonds and Admission to Trading

4.1 Under which conditions and timetable can I invest in these Bonds?

The Bonds are open for subscription by: (a) Existing Bondholders; and (b) Authorised Intermediaries pursuant to an Intermediaries' Offer in respect of any balance of the Bonds not subscribed to by Existing Bondholders, provided that, the Issuer reserves the right not to proceed with an Intermediaries' Offer when the aggregate value of allocated Bonds is equivalent to, or in excess of, the Euro equivalent of €23,000,000.

An Existing Bondholder shall be given the option to:

- (i) participate in the Exchangeable Bonds Transfer whereby the Existing Bondholder shall surrender all or part of the Exchangeable Bonds held as at the Cut-Off Date in exchange for an amount equivalent to the par value of the Bonds applied for, subject to the Minimum Retention Requirement; and
- (ii) apply for a number of Excess Bonds by completing the appropriate section of an Application Form.

Provided that an Existing Bondholder may only apply for Excess Bonds in terms of point (ii) above if said Existing Bondholder has surrendered all the Exchangeable Bonds held by him / her / it as at the Cut-Off Date pursuant to the Exchangeable Bonds Transfer.

Existing Bondholders shall only be entitled to surrender Exchangeable Bonds in exchange for Bonds of the same currency and therefore, Exchangeable Bonds denominated in Euro (€) may only be exchanged for EUR Bonds and Exchangeable Bonds denominated in US Dollar (\$) may only be exchanged for USD Bonds.

Existing Bondholders electing to participate in the Exchangeable Bonds Transfer shall subscribe for Bonds through the transfer to the Issuer of all or part of the Exchangeable Bonds held by them as at the Cut-off Date (subject to the Minimum Retention Requirement) and shall be allocated Bonds for the corresponding nominal value of Exchangeable Bonds transferred to the Issuer. In light of the aforesaid and given that Applications must be in multiples of €5,000 (in the case of EUR Bonds) or \$5,000 (in the case of USD Bonds), should the nominal value of Exchangeable Bonds surrendered by an Existing Bondholder not be in multiples of €5,000 (in the case of EUR Bonds) or \$5,000 (in the case of USD Bonds), Existing Bondholders shall be required to pay the Cash Top-Up together with the submission of their Application Form. The payment of the Cash Top-Up in terms of this section 4.1 shall only apply to an Existing Bondholder who opts to exchange his / her / its entire holding of Exchangeable Bonds for Bonds. The transfer of Exchangeable Bonds to the Issuer in consideration for the subscription for Bonds shall cause the obligations of the Issuer with respect to such Exchangeable Bonds to be extinguished and shall give rise to obligations on the part of the Issuer under the Bonds. Bonds applied for by Existing Bondholders by way of Exchangeable Bonds Transfer as described above shall be allocated prior to any other allocation of Bonds.

Any balance of the Bonds not subscribed to by Existing Bondholders upon closing of the Issue Period, shall be offered for subscription by Authorised Intermediaries participating in the Intermediaries' Offer. Any subscriptions received during the Intermediaries' Offer shall be subject to the same terms and conditions as those applicable to Applications by Existing Bondholders but limited to any remaining balance of Bonds after fully allocating to Existing Bondholders the Bonds applied, including Excess Bonds.

For the purposes of the Intermediaries' Offer, should this take place, the Issuer shall enter into conditional subscription agreements with a number of Authorised Intermediaries for the subscription of the resultant balance of Bonds, whereby it will bind itself to allocate Bonds thereto during the Intermediaries' Offer. In terms of the subscription agreements, Authorised Intermediaries may subscribe for the Bonds either for their own account or for the account of underlying customers, including retail customers. The minimum which each Authorised Intermediary may apply for in terms of the applicable subscription agreement is €5,000 / \$5,000, and in multiples of €5,000 / \$5,000 (as applicable), thereafter and such minimum and multiples shall also apply to each underlying Applicant.

- (iii) In the event that the aggregate value of the Applications received from Existing Bondholders transferring all or part of the Exchangeable Bonds held by them as at the Cut-Off Date through the Exchangeable Bonds Transfer, including the Cash Top-Up (as applicable), is in excess of the Euro equivalent of €23,000,000 but lower than the Euro equivalent of €25,000,000, the Issuer (acting through the Registrar) shall:
 - (a) first allocate all Bonds applied for by Existing Bondholders by way of Exchangeable Bonds Transfer, thus excluding Excess Bonds;
 - (b) allocate all Excess Bonds applied for by Existing Bondholders; and

- (iv) In the event that the aggregate value of the Applications received from Existing Bondholders transferring all or part of the Exchangeable Bonds held by them as at the Cut-Off Date through the Exchangeable Bonds Transfer, including the Cash Top-Up (as applicable), is less than the Euro equivalent €23,000,000, the Issuer (acting through the Registrar) shall allocate all Applications in full and proceed with an Intermediaries' Offer. Should the Issuer exercise its right to limit the offer of Bonds to an amount equivalent to, or in excess of, the Euro equivalent of €23,000,000, the cost of redeeming any remaining Exchangeable Bonds which would not have been bought back by the Issuer prior to the Exchangeable Bonds Redemption Date pursuant to the Buy-Back Programme, shall be funded through the Issuer's cash resources.

Subscription agreements received from Authorised Intermediaries through an Intermediaries' Offer, if any, shall be allocated without priority or preference and in accordance with the allocation policy as determined by the Issuer, acting through the Registrar, which will be communicated by latest 17:00 CET on 18 November 2025. Any amounts unallocated in terms of the subscription agreements shall be returned to the respective Authorised Intermediary by direct credit to the account indicated in the respective subscription agreement by latest close of business on 26 November 2025.

3.1 Forward-looking statements

Forward-looking statements can be identified by the use of forward-looking terminology, including the terms "believes", "estimates", "forecasts", "projects", "anticipates", "expects", "envisages", "intends", "may", "will", or "should" or, in each case, their negative or other variations or comparable terminology. These forward-looking statements relate to matters that are not historical facts. They appear in a number of places within the Prospectus and include statements regarding the intentions, beliefs, or current expectations of the Issuer and, or the Directors concerning, amongst other things, the Issuer's strategy and business plans, financial condition and performance, results of operations, liquidity, prospects, investments, and the markets in which it operates. By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may or may not occur, in the future. Forward-looking statements are not a guarantee of future performance and should therefore not be construed as such. The Issuer's actual operational results, financial condition and performance, and trading prospects may differ materially from the impression created by the forward-looking statements contained in the Prospectus. In addition, even if the operational results, financial condition and performance, and trading prospects of the Issuer are consistent with the forward-looking statements contained in the Prospectus, those results or developments may not be indicative of results or developments in subsequent periods. Important factors that may cause these differences include, but are not limited to, those factors identified under this section and elsewhere in the Prospectus. All forward-looking statements contained in the Prospectus are made only as at the date hereof. Subject to applicable legal and regulatory obligations, the Issuer and the Directors expressly disclaim any obligations to update or revise any forward-looking statement contained herein to reflect any change in expectations with regard thereto or any change in events, conditions, or circumstances on which any such statement is based.

3.2 Risks relating to the Issuer's role as the financing company of the Group

Being the parent company of the Group, the Issuer is dependent on the business prospects of its subsidiary companies, ranging from the entities in the Middle East, the Mediterranean basin and Sub-Saharan Africa. The Issuer's financial performance will be impacted should the financial performance of the Group decline.

3.3 Risks relating to the Group and its business

Risks Relating to the Industry:

3.3.1 *Dependence on oil and gas industry:* The Group is exposed to the risks associated with the trends and future outlook of the oil and gas industry as a whole, including the demand and/or supply for oil and gas in the future. The demand for the Group's services is dependent on the level of exploration to identify new reservoirs, as well to the level of activity to develop new discoveries once these have been determined commercially viable, and indirectly on the demand for oil and gas and their price. In a market downturn, the Group may suffer pressure on its pricing and profit margins and may suffer reduced revenues.

3.3.2 *The geopolitical instability of the energy market:* The price of oil and gas is, to a large extent, affected by geopolitical tensions, such as the conflict between Russia and Ukraine and ongoing conflict and, or geopolitical tensions in the Middle East and Africa. The volatility of these markets can affect the appetite of International Energy Companies (IECs) to undertake new project to explore and develop new reservoirs. This in turn will have a negative indirect impact on the current and new markets of the Group, and thus on its business pipeline and related revenues.

3.3.3 *The global trend towards a decarbonization of the energy supply:* The concerns derived from the climate change are causing a global push to shift from fossil energies to alternative sources such as wind and solar. In the long run this could lead to a decrease of the consumption of oil and gas and reduce the need for the services offered by the Group to this industry. There is a possibility that the tension on supply caused by the conflict in Ukraine may accelerate this trend, particularly in Western Europe. The Group could be negatively impacted should it not manage to otherwise adjust its strategy to cater for this shift in the energy industry.

3.3.4 *The shortage of financing for the fossil energy industry:* Following the pressure of regulatory bodies and of the public in general, some financing institutions are less inclined to fund projects linked with non-renewable sources of energy. This could affect the Group's capacity to fund new projects.

3.3.5 *Risks relating to emerging markets:* The Group's operations are dependent on emerging markets. These markets present economic and political conditions which may result in less social, political and economic stability. Therefore, the Group's business may be negatively impacted by political and economic instability, exchange controls, risk of nationalisation and changes in Government policies.

3.3.6 *Limited IECs in industry:* The oil and gas industry, particularly in the Mediterranean region, is dominated by a very limited number of International Energy Companies (IECs). The group's performance depends on it being able to maintain and increase its relationship with these IECs.

3.3.7 *Dependence on key personnel:* The growth of the Group has been, in part, attributed to the capabilities of the members of the executive management team. Their continued contribution to the Group is essential to the continued growth of the Group. Finding replacement staff with the experience in the industry can be a challenge and in the event that adequate replacements are not sourced, the Group's performance may be adversely impacted should this effect its ability to continue managing the business without interruption.

3.3.8 *Regulatory and environmental risk:* The Group operates in highly regulated jurisdictions, and all have their own unique compliance frameworks. Environmental risks arise from exposures to activities that may cause or be affected by environmental degradation, such as pollution. An infringement in any of these laws and regulations may have significant liabilities and tarnish the Group's brands, being Medserv, Regis and METS.

3.3.9 *Dependence on premises:* The Group operates out of its premises, situated both in Malta and overseas, which are generally subject to lease agreements or, in the case of the Medserv Site, subject to an emphyteutical deed. The Group is dependent on its facilities to perform its services in most countries where it is operating and could be negatively impacted should any of its lease agreements / emphyteutical deeds be terminated prior to its expected date of termination.

3.3.10 *Risks relating to the failure to implement sustainable and, or environmental, social, and governance considerations in the Group's business model:* There is a growing expectation for businesses to ensure that they conduct their business in a sustainable and environmentally responsible manner, including by taking proactive measures to reduce their carbon footprint, maximise the use of recycled and recyclable or biodegradable materials, reduce the use of plastic, and increase the use of alternative and sustainable means of design, production, manufacturing, and construction. This trend is driven not only by growing concern surrounding the depletion of the natural environment and natural resources, the adverse effects of climate change, and the consequential negative effects of unsustainable practices, but also by legal and regulatory requirements. Additionally, with an increased emphasis on environmental, social, and governance ("ESG") considerations at global level, the implementation of sustainable factors in the Group's business model is expected to come under increased scrutiny by investors, investors, regulators, regulators, and the public at large. ESG considerations for the purposes of the Group's business may include, include, but are not limited to, energy performance, performance, energy and resource efficiency, efficiency, waste management, management, energy and water use, the use of renewables, renewables, as well as social and employment considerations of workers and the health and safety thereof. The failure of the Group to ensure that it satisfies environmental and sustainability laws and regulations, regulations, or meet market pressures and consumer expectations concerning

sustainability could in future, in the event of the introduction of measures aimed at fostering increased sustainability and environmental protection, protection, have a material adverse effect on the Group's business, financial condition, condition, and, or results of operations, operations, including a loss of business or business retention, retention, exposure to regulatory fines, and the inability of the Group to obtain the necessary permits or other authorisations to carry out its business operations, projects, or investments.

8.2 Overview of the Group’s Business

The Group’s core business is the provision of integrated logistics services to the Energy industry. The Group presently has facilities in Malta, Cyprus, Egypt, UAE, Iraq, Oman, Mozambique and Uganda.

The Group operates to internationally recognised and certified standards and management practices for ethical compliance, quality, health, safety and environment. These standards are applied to all its operating locations which ensure the consistent delivery of excellence in operations. The Issuer is ISO9001:2008 registered¹. The Group’s HSSE Management System has been developed to both OSHAS18001² and ISO14001 standards³. Its port operations are International Ship and Port Facility Security Code (ISPS) compliant and in line with ISO28000 Supply Chain Security Management⁴. The Issuer is a member of the International Association of Drilling Contractors.

The oil and gas industry is divided into three major sectors: upstream, midstream and downstream. The upstream sector is also commonly known as the exploration and production (E&P) sector, which is the area in which the Group is involved. The upstream sector includes the searching for potential underground or underwater fossil fuel, drilling of exploratory wells, and subsequently drilling and operating the wells that recover and bring the crude oil and/or raw natural gas to the surface.

The Group has developed five principal product service lines in order to better meet client requirements, comprising:

- (i) Integrated Offshore Logistics;
- (ii) OCTG Pipe Services;
- (iii) Engineering Support Services;
- (iv) Mixing and Storage of Drilling Fluids; and
- (v) Environmental Services including power generation from solar energy.

¹ ISO 9001:2008 refers to a specific version (from the year 2008) of the ISO 9001 standard — part of the ISO 9000 family of quality management system (QMS) standards developed by the International Organization for Standardization (ISO).

² OHSAS 18001 stands for Occupational Health and Safety Assessment Series 18001. It is a British-developed standard that provided a framework for managing occupational health and safety risks — helping organizations control hazards, reduce workplace accidents, and ensure employee well-being.

³ ISO 14001 is an international standard developed by ISO for Environmental Management Systems (EMS) which helps organizations manage their environmental responsibilities in a systematic way.

⁴ ISO 28000 is the international standard for Supply Chain Security Management Systems (SCSMS). It provides a framework for organizations to identify, assess, and control security risks throughout the supply chain.

9.0 Trend Information

The following is an overview of the most significant recent trends affecting the Issuer and the markets in which the Group operates:

Global upstream activity remains strong, though operating in a somewhat softer price environment. According to the International Energy Agency's (IEA) August 2025 report, oil demand is expected to grow more slowly – by around 680 thousand barrels per day in 2025 and 700 thousand in 2026 – while supply is expected to expand at a faster pace⁵. Recent production increases from major producers point to a moderate risk of oversupply in 2026. Prices are likely to remain within a stable range, with less volatility than seen in 2022–2023. However, the timing of new projects will continue to depend heavily on policy developments and inventory trends. This suggests steady work programs overall, with occasional adjustments to project schedules rather than any broad retreat (IEA Oil Market Report, August 2025).

Supply dynamics are clearer following the Organization of the Petroleum Exporting Countries' (OPEC+) confirmation of the gradual reversal of voluntary output cuts resulting in a number of member countries increasing output as part of a plan to unwind 2.2 million barrels per day of previous reductions. For Gulf Cooperation Council (GCC) producers, this provides a stable outlook for drilling activity and upgrades to existing fields into 2026 (Reuters, August 3, 2025).⁶

Rig activity remains a key indicator of demand for Oil Country Tubular Goods (OCTG) services. The Middle East rig count has been largely unchanged compared to last year, signalling steady requirements for inspection, recertification, and premium connection repairs linked to rig operations and well maintenance (Baker Hughes international rig count August 1, 2025).⁷

In the Mediterranean, the East Med gas sector is advancing. In February 2025, Cyprus and Egypt signed agreements to allow Cypriot gas exports to Egypt for liquefaction and resale. This is expected to generate early-phase work, surveys, and staged procurement, leading to periodic increases in marine and shore-based activity through Limassol and Egyptian hubs.

In South America, Guyana continues its rapid expansion, marked by the start-up of ExxonMobil's Yellowtail project on August 8, 2025. Meanwhile, Suriname is entering the execution stage following the Block 58 final investment decision, confirming the group's strategic expansion into the region.

3.0 Risk Factors

THE VALUE OF INVESTMENTS, INCLUDING THE BONDS, CAN GO UP OR DOWN AND PAST PERFORMANCE IS NOT NECESSARILY INDICATIVE OF FUTURE PERFORMANCE.

THE NOMINAL VALUE OF THE BONDS IS REPAYABLE IN FULL UPON MATURITY, UNLESS THE BONDS ARE PREVIOUSLY RE-PURCHASED AND CANCELLED. THE ISSUER SHALL REDEEM THE BONDS ON THE REDEMPTION DATE.

AN INVESTMENT IN THE BONDS INVOLVES CERTAIN RISKS, INCLUDING THOSE DESCRIBED BELOW. In the event that an investor does not seek professional advice and, or does not read and fully understand the provisions of the Prospectus, there is a risk that such investor may acquire an investment which is not suitable for his or her risk profile. In particular, such advice should be sought with a view to ascertaining that each prospective investor:

- (i) has sufficient knowledge and experience to make a meaningful evaluation of the Bonds, the merits and risks of investing in the Bonds and the information contained or incorporated by reference to the Prospectus or any applicable supplement;
- (ii) has sufficient financial resources and liquidity to bear all the risks of an investment in the Bonds, including where the currency for principal or interest payments is different from the prospective investor's currency;
- (iii) understands thoroughly the terms of the Bonds and is familiar with the behaviour of any relevant indices and financial markets;
- (iv) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect his/her/its investment and his/her/its ability to bear the applicable risks; and
- (v) is able to assess as to whether an investment in the Bonds shall achieve his/her/its investment objective.

This Securities Note incorporates the Terms and Conditions of the Bond Issue and, in its entirety, creates the contract between the Issuer and a Bondholder.

3.3 Risks Relating to the Bonds

An investment in the Bonds involves certain risks including, but not limited to, those described below:

- (a) **Status of unsecured Bonds:** The Bonds, as and when issued and allotted, shall constitute the general, direct, unconditional and unsecured obligations of the Issuer and shall, at all times, rank *pari passu*, without any priority or preference among themselves and, save for such exceptions as may be provided by applicable law, without priority or preference to all present and future unsecured obligations of the Issuer. This means that any secured or privileged debts of the Issuer shall rank at all times ahead of the obligations of the Issuer under the Bonds, as a result of which the Bondholders may not be able to recover their investment in the Bonds in the case of insolvency or an equivalent situation, whether in full or in part. Furthermore, subject to the negative pledge detailed in section 9.25 of this Securities Note, third-party security interests may be registered which will rank in priority to the Bonds against the assets of the Issuer, as the case may be, for so long as such security interests remain in effect, which registration may further impede the ability of the Bondholders to recover their investment upon enforcement of such security interests, whether in full or in part.

- (b) **Market risk:** Investment in the Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Bonds. Investors should also be aware that the price of fixed rate bonds should, theoretically, move adversely to changes in interest rates. When prevailing market interest rates are rising their prices decline and, conversely, if market interest rates are declining, the prices of fixed rate bonds rise. This is called market risk since it arises only if a Bondholder decides to sell the Bonds before maturity on the secondary market.
- (c) **Subsequent changes in interest rates and the potential impact of inflation:** The Bonds are being issued with a fixed coupon rate and hence have a fixed rate of return. As such, subsequent changes in market interest rates, which are affected by a number of variables including the rate of inflation, may have an impact on the market value of the Bonds which typically moves inversely to movements in interest rates. Therefore, when market interest rates rise (currently market rates are experiencing an upward trend largely fuelled by the elevated levels of inflation), the price of the Bonds tends to decline and as a result the investor might not be able to recoup all of the capital invested if the Bonds are sold before maturity. On the other hand, when market interest rates decline, the price of the Bonds tends to increase. The extent of the change in the market value of the Bonds is also dependent upon the remaining term to maturity whereby the longer the term to maturity, the higher the impact. Moreover, given that the coupon rate is fixed, as inflation rises, the real rate of return on the Bonds declines as inflation reduces the value of the remaining coupon payments. The extent of the impact on the real rate of return depends on the changes in the level of inflation (higher inflation, lower real return) as well as the remaining years to maturity whereby the longer the term to maturity, the higher the impact on real returns.
- (d) **Continuing obligations:** Even after the Bonds are admitted to trading on the Official List, the Issuer is required to remain in compliance with certain requirements relating, *inter alia*, to the free transferability, clearance and settlement of the Bonds in order to remain a listed company in good standing. Moreover, the Malta Financial Services Authority has the authority to suspend trading or listing of the Bonds if, *inter alia*, it comes to believe that such a suspension is required for the protection of investors or the integrity or reputation of the market. The Malta Financial Services Authority may discontinue the listing of the Bonds on the MSE. Any such trading suspensions or listing revocations/discontinuations could have a material adverse effect on the liquidity and value of the Bonds.
- (e) **Amendments to the Terms and Conditions:** In the event that the Issuer wishes to amend any of the Terms and Conditions it shall call a meeting of Bondholders in accordance with the provisions of section 9.16 of this Securities Note. These provisions permit defined majorities to bind all Bondholders, including Bondholders who do not attend and vote at the relevant meeting and Bondholders who vote in a manner contrary to the majority.
- (f) **Currency of reference:** A Bondholder will bear the risk of any fluctuations in exchange rates between the currency of denomination of the Bonds and the Bondholder's currency of reference, if different. Any adverse fluctuations may impair the return of investment of the Bondholder in real terms after taking into account the relevant exchange rate.
- (g) **Changes in law:** The Bonds and the Terms and Conditions are based on the requirements of the Capital Markets Rules, the Companies Act and the Prospectus Regulation in effect as at the date of the Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in law or administrative practice after the date of the Prospectus.
- (h) **Early redemption:** The Bonds are redeemable at the option of the Issuer. Any or all of the Bonds may be redeemed by the Issuer on an Early Redemption Date. Once the Bonds are redeemed, the relevant Bondholders shall no longer be entitled to any interest or other rights in relation to those Bonds. If Bonds are redeemed on an Early Redemption Date, Bondholders would not receive the same return on investment that it would have received if they were redeemed on the Final Redemption Date. In addition, Bondholders may not be able to re-invest the proceeds from an early redemption at yields that would have been received had they not been redeemed. This optional redemption feature may also have a negative impact on the market value of the Bonds.

- (b) A transfer of Exchangeable Bonds for Bonds shall not be permitted if said transfer would result in an Existing Bondholder holding less than the Minimum Retention Requirement.
- (c) Given that Applications must be in multiples of €5,000 (in the case of EUR Bonds) or \$5,000 (in the case of USD Bonds), should the nominal value of Exchangeable Bonds surrendered by an Existing Bondholder not be in multiples of €5,000 (in the case of EUR Bonds) or \$5,000 (in the case of USD Bonds), Existing Bondholders shall be required to pay the Cash Top-Up together with the submission of their Application Form. - (d) Existing Bondholders electing to subscribe for Bonds through Exchangeable Bonds Transfer shall be allocated Bonds for the corresponding nominal value of Exchangeable Bonds transferred to the Issuer. The transfer of Exchangeable Bonds to the Issuer in consideration for the subscription for Bonds shall cause the obligations of the Issuer with respect to such Exchangeable Bonds to be extinguished and shall give rise to obligations on the part of the Issuer under the Bonds.
- (e) Bonds applied for by Existing Bondholders by way of Exchangeable Bonds Transfer shall be allocated prior to any other allocation of Bonds.
- (f) An Exchangeable Bonds Transfer shall be without prejudice to the rights of Existing Bondholders to receive interest on the Exchangeable Bonds in terms of section 7.3 above. The Exchangeable Bonds shall be redeemed on 05 February 2026 as determined by the Issuer and duly notified to Existing Bondholders.
- (g) Payment by Applicants of the full price of any Excess Bonds applied for, shall be made in Euro or US Dollar, as applicable, in cleared funds at the Bond Issue Price, either through a bank transfer to the respective Authorised Intermediary or by any other method of payment as accepted by the respective Authorised Intermediary.
- (h) Existing Bondholders subscribing for Bonds by means of an Exchangeable Bonds Transfer are, in virtue of such subscription, confirming:
 - (i) that all or part (as the case may be) of the Exchangeable Bonds held by the Applicant as at the Cut-Off Date are being transferred to the Issuer;
 - (ii) that the Application Form constitutes the Applicant's irrevocable mandate to the Issuer to:
 - (a) cause the transfer of the said Exchangeable Bonds in the Issuer's name in consideration of the issue of Bonds; and
 - (b) engage, at the Issuer's cost, the services of such brokers or intermediaries as may be necessary to fully and effectively vest title in the said Exchangeable Bonds in the Issuer and fully and effectively vest title in the appropriate number of Bonds in the Applicant.
- (i) Where the Applicant is the holder of Exchangeable Bonds which as at the Cut-Off Date are held subject to usufruct, the signatures of both the bare owner and the usufructuary will be required in the Application Form.
- (j) In addition to the aforesaid, Existing Bondholders transferring all of the Exchangeable Bonds held by them as at the Cut-Off Date may apply for Excess Bonds. In such case Existing Bondholders may subscribe for additional Bonds, in multiples of €5,000 / \$5,000 (as applicable), by completing the appropriate section of the Application Form.
- (k) In the event that Existing Bondholders apply for Excess Bonds, no guarantee of allocation shall arise with respect to the Excess Bonds applied for but such Excess Bonds shall be subject to an allocation policy, as shall be determined by the Issuer in accordance with section 9.5 of this Securities Note.
- (l) Existing Bondholders subscribing for Excess Bonds are, in virtue of such subscription, confirming that in respect of their Application for Excess Bonds, the Applicant's remittance will be honoured on first presentation and agrees that, if such remittance is not so honoured on its first presentation, the Issuer acting through the Registrar & Manager reserve the right to invalidate the relative Application, and furthermore the Applicant will not be entitled to receive a registration advice or to be registered in the register of Bondholders, unless the Applicant makes payment in cleared funds and such consideration is accepted by the Issuer, acting through the Registrar & Manager (which acceptance shall be made in the Issuer's absolute discretion and may be on the basis that the Applicant indemnifies the Issuer against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of the Applicant's remittance to be honoured on first presentation).
- (m) All Applications for the subscription of Bonds by Existing Bondholders must be submitted to an Authorised Intermediary by 13:00 CET of 07 November 2025.
- (n) Existing Bondholders who do not elect to avail themselves of the possibility to exchange their Exchangeable Bonds in terms of the procedure outlined in this section 9.2 shall receive all capital and accrued interest (up to but excluding 05 February 2026) on 05 February 2026, corresponding to the Exchangeable Bonds Redemption Date.

9.3 Intermediaries' Offer

- (a) Any balance of the Bonds not subscribed to by Existing Bondholders upon closing of the Issue Period, shall be offered for subscription by Authorised Intermediaries participating in the Intermediaries' Offer. Any subscriptions received during the Intermediaries' Offer shall be subject to the same terms and conditions as those applicable to Applications by Existing Bondholders, but limited to any remaining balance of Bonds after fully allocating to Existing Bondholders the Bonds applied, including Excess Bonds, for as detailed in section 9.2 above.

- (b) In this regard, the Issuer shall enter into conditional subscription agreements with a number of Authorised Intermediaries for the subscription of the resultant balance of Bonds, whereby it will bind itself to allocate Bonds thereto during the Intermediaries' Offer.
- (c) In terms of each subscription agreement entered into with an Authorised Intermediary, the Issuer will be conditionally bound to issue, and each Authorised Intermediary will bind itself to subscribe for, up to the total amount of Bonds as indicated therein, subject to the Bonds being admitted to trading on the Official List. The subscription agreements, which will be subject to the Terms and Conditions of the Prospectus, will become binding on each of the Issuer and the respective Authorised Intermediaries upon delivery, provided that these Authorised Intermediaries would have paid to the Registrar all subscription proceeds in cleared funds on delivery of the subscription agreement.
- (d) In terms of the subscription agreements, Authorised Intermediaries may subscribe for the Bonds either for their own account or for the account of underlying customers, including retail customers. The minimum which each Authorised Intermediary may apply for in terms of the applicable subscription agreement is €5,000 / \$5,000 (as applicable) and in multiples of €5,000 / \$5,000 (as applicable) thereafter and such minimum and multiples shall also apply to each underlying Applicant.
- (e) Completed subscription agreements, together with evidence of payment, are to reach the Registrar by 16:00 CET on 13 November 2025. The Issuer, acting through the Registrar, shall communicate the amount allocated under each subscription agreement by 17:00 CET on 18 November 2025. Any amounts unallocated in terms of the subscription agreements shall be returned to the respective Authorised Intermediary by direct credit to the account indicated in the respective subscription agreement by latest close of business on 26 November 2025.
- (f) The Issuer reserves the right not to proceed with an Intermediaries' Offer in terms of this section 9.3 when the aggregate value of allocated Bonds is equivalent to, or in excess of, the Euro equivalent of €23,000,000. In which case the Issuer shall limit the offer of Bonds to the amount subscribed for by Existing Bondholders during the Issue Period. Should the Issuer exercise its right to limit the offer of Bonds to an amount equivalent to, or in excess of, the Euro equivalent of €23,000,000, the cost of redeeming any remaining Exchangeable Bonds which would not have been bought back by the Issuer prior to the Exchangeable Bonds Redemption Date pursuant to the Buy-Back Programme, shall be funded through the Issuer's cash resources.

The registration advice and other documents and any monies returnable to Applicants may be retained pending clearance of the remittance or surrender of the Exchangeable Bonds, as the case may be, and any verification of identity as required by the Prevention of Money Laundering Act (Cap. 373 of the laws of Malta) and regulations made thereunder. Such monies will not bear interest while retained as aforesaid.
- (d) Dealings in the Bonds shall not commence prior to the Bonds being admitted to the Official List.

9.5 Allocation policy

The Issuer shall allocate the Bonds on the basis of the following policy and order of priority:

- (a) first to Existing Bondholders applying for Bonds by way of Exchangeable Bonds Transfer in accordance with section 9.2 above, and subject to a minimum application of €5,000 / \$5,000 (as applicable). In the event that the aggregate value of the Applications received from Existing Bondholders transferring all or part of the Exchangeable Bonds held by them as at the Cut-Off Date through the Exchangeable Bonds Transfer, including the Cash Top-up (as applicable), is in excess of the Euro equivalent of €25,000,000, the Issuer (acting through the Registrar) shall scale down Applications in accordance with the allocation policy to be issued in terms of this section 9.5 hereof, save that there shall be no scaling down of Applications where the number of Exchangeable Bonds surrendered for Bonds by the respective Applicant pursuant to the Exchangeable Bonds Transfer, is equivalent to the Minimum Retention Requirement. In such an event, Existing Bondholders applying for Excess Bonds, will not be allocated any Excess Bonds and an Intermediaries' Offer will not take place.

- (b) the balance of the Bonds not subscribed for by Existing Bondholders limitedly by means of Exchangeable Bonds Transfer shall be made available for subscription to Existing Bondholders in respect of any Excess Bonds applied for by Existing Bondholders in the Application Form. In the event that the aggregate value of the Applications received from Existing Bondholders transferring all or part of the Exchangeable Bonds held by them as at the Cut-Off Date through the Exchangeable Bonds Transfer, including the Cash Top-up (as applicable), is less than the Euro equivalent of €25,000,000 but, when aggregated with Applications for Excess Bonds, is in excess of the Euro equivalent of €25,000,000, the Issuer (acting through the Registrar) shall:
- (i) first allocate all Bonds applied for by Existing Bondholders by way of Exchangeable Bonds Transfer, thus excluding Excess Bonds; and
 - (ii) scale down Applications for Excess Bonds applied for by Existing Bondholders in excess of their holding in the Exchangeable Bonds, in accordance with the allocation policy to be issued in terms of this section 9.5 hereof. In such an event an Intermediaries' Offer will not take place.
- (c) In the event that the aggregate value of the Applications received from Existing Bondholders transferring all or part of the Exchangeable Bonds held by them as at the Cut-Off Date through the Exchangeable Bonds Transfer, including the Cash Top-up (as applicable), is in excess of the Euro equivalent of €23,000,000 but lower than the Euro equivalent of €25,000,000, the Issuer (acting through the Registrar) shall:
- (i) first allocate all Bonds applied for by Existing Bondholders by way of Exchangeable Bonds Transfer, thus excluding Excess Bonds;
 - (ii) allocate all Excess Bonds applied for by Existing Bondholders;
 - (iii) determine whether to proceed with an Intermediaries' Offer.
- (d) In the event that the aggregate value of the Applications received from Existing Bondholders transferring all or part of the Exchangeable Bonds held by them as at the Cut-Off Date through the Exchangeable Bonds Transfer, including the Cash Top-up (as applicable), is less than the Euro equivalent €23,000,000, the Issuer (acting through the Registrar) shall allocate all Applications in full and proceed with an Intermediaries' Offer.

Subscription agreements received from Authorised Intermediaries through an Intermediaries' Offer, if any, shall be allocated without priority or preference and in accordance with the allocation policy as determined by the Issuer, acting through the Registrar, which will be communicated by latest 17:00 CET on 18 November 2025. Any amounts unallocated in terms of the subscription agreements shall be returned to the respective Authorised Intermediary by direct credit to the account indicated in the respective subscription agreement by latest close of business on 26 November 2025.

In the event that the Bond Issue is subscribed for in full by Existing Bondholders, the Intermediaries' Offer shall not take place. Provided that the Issuer reserves the right not to proceed with an Intermediaries' Offer when the aggregate value of allocated Bonds is equivalent to, or in excess of, the Euro equivalent of €23,000,000, in which case the Issuer may limit the offer of Bonds to the amount subscribed for by Existing Bondholders during the Issue Period (equivalent to, or in excess of, the Euro equivalent of €23,000,000). Should the Issuer exercise its right to limit the offer of Bonds to an amount equivalent to, or in excess of, the Euro equivalent of €23,000,000, the cost of redeeming any remaining Exchangeable Bonds which would not have been bought back by the Issuer prior to the Exchangeable Bonds Redemption Date pursuant to the Buy-Back Programme, shall be funded through the Issuer's cash resources.

The Issuer shall announce the result of the Bond Issue and the basis of acceptance of all Applications and the allocation policy to be adopted through a company announcement by latest 18 November 2025.

Any Interest Payment Date which falls on a day other than a Business Day will be carried over to the next following day that is a Business

In terms of article 2156 of the Civil Code (Cap. 16 of the laws of Malta), the right of Bondholders to bring claims for payment of interest and repayment of the principal on the Bonds is barred by the lapse of five (5) years.

- (b) When interest is required to be calculated for any period of less than a full year, it shall be calculated on the basis of a 360-day year consisting of 12 months of 30 days each, and in the case of an incomplete month, the number of days elapsed.

9.8 Yield

The gross yield calculated on the basis of the Interest, the Bond Issue Price and the Redemption Value of the Bonds at Redemption Date is 5.50% per annum for the EUR Bonds and 6.50% per annum for the USD Bonds.

9.9 Registration Form, denomination and title

Certificates will not be delivered to Bondholders in respect of the Bonds in virtue of the fact that the entitlement to Bonds will be represented in an uncertificated form by the appropriate entry in the electronic register maintained on behalf of the Issuer at the CSD. There will be entered in such electronic register the names, addresses, identity card numbers (in the case of natural persons), registration numbers and Legal Entity Identifiers (in the case of companies) and MSE account numbers of the Bondholders and particulars of the Bonds held by them respectively, and the Bondholders shall have, at all reasonable times during business hours, access to the register of Bondholders held at the CSD for the purpose of inspecting information held on their respective account.

The CSD will issue, upon a request by a Bondholder, a statement of holdings to such Bondholder evidencing his/her/its entitlement to Bonds held in the register kept by the CSD. Upon submission of an Application Form, Bondholders who opt to subscribe for the online e-portfolio account with the CSD, by marking the appropriate box on the Application Form, will be registered by the CSD for the online e-portfolio facility and will receive by mail at their registered address a handle code to activate the new e-portfolio login. Further detail on the e-portfolio is found on eportfolio.borzamalta.com.mt/Help.

The Bonds will be issued in fully registered form, without interest coupons, in denominations of any integral multiple of €5,000 for EUR Bonds and \$5,000 for USD Bonds, provided that on subscription, the Bonds will be subscribed for a minimum of €5,000 / \$5,000 (as applicable) per individual Bondholder. Authorised Intermediaries subscribing for Bonds through nominee accounts for and on behalf of clients shall apply the minimum subscription amount of €5,000 / \$5,000 (as applicable) and multiples of €5,000 / \$5,000 (as applicable) to each underlying client.

Any person in whose name a Bond is registered may (to the fullest extent permitted by applicable law) be deemed and treated at all times, by all persons and for all purposes (including the making of any payments), as the absolute owner of such Bond. Title to the Bonds may be transferred as provided below under the heading 'Transferability of the Bonds' in section 9.14 of this Securities Note.

Such payment shall be effected within seven days of the Redemption Date. The Issuer shall not be responsible for any loss or delay in transmission or any charges in connection therewith. For as long as the Bondholder does not provide details of a bank account, the Issuer shall retain the interest payment for the benefit of the Bondholder until such time as a valid IBAN / account is provided by the Bondholder.

Upon payment of the Redemption Value, the Bonds shall be redeemed and the appropriate entry made in the electronic register of the Bonds at the CSD.

In the case of Bonds held subject to usufruct, payment will be made against the joint instructions of all bare owners and usufructuaries. All payments with respect to the Bonds are subject in all cases to any pledge (duly constituted) and to any applicable fiscal or other laws and regulations prevailing in Malta. In particular, but without limitation, all payments of principal and interest by or on behalf of the Issuer in respect of the Bonds shall be made net of any amount which the Issuer is or may become compelled by law to deduct or withhold for or on account of any present or future taxes, duties, assessments or other government charges of whatsoever nature imposed, levied, collected, withheld or assessed by or within the Republic of Malta or any authority thereof or therein having power to tax.

No commissions or expenses shall be charged by the Issuer to the Bondholders in respect of payments made in accordance with this section 9.11. The Issuer may be liable for charges, expenses and commissions levied by parties other than the Issuer.

9.12 Redemption & Purchase

- (a) Unless previously purchased and cancelled, the Issuer hereby irrevocably covenants in favour of each Bondholder that the Bonds will be redeemed at their nominal value (together with accrued interest up to (but excluding) the date fixed for redemption) on the Redemption Date. In such a case the Issuer shall be discharged of any and all payment obligations under the Bonds upon payment made net of any withholding or other taxes due or which may be due under Maltese law and which are payable by the Bondholders.
- (b) Subject to the provisions of this section, the Issuer may at any time purchase Bonds in the open market or otherwise at any price. Any purchase by tender shall be made available to all Bondholders alike.
- (c) All Bonds so redeemed or re-purchased will be cancelled forthwith and may not be re-issued or re-sold.

9.13 Events of Default

The Bonds shall become immediately due and repayable at their principal amount, together with any accrued interest, if any of the following events ("**Events of Default**") shall occur:

- (a) the Issuer shall fail to pay any interest on any Bond when due and such failure shall continue for 60 days after written notice thereof shall have been given to the Issuer by any Bondholder; or
- (b) the Issuer shall duly fail to perform or shall otherwise be in breach of any other material obligation contained in the Terms and Conditions of the Bonds and such failure shall continue for 60 days after written notice thereof shall have been given to the Issuer by any Bondholder; or

- (b) Any person becoming entitled to a Bond in consequence of the death or bankruptcy of a Bondholder may, upon such evidence being produced as may, from time to time, properly be required by the Issuer or the CSD, elect either to be registered in their name as holder of the Bond or to have some person nominated by them registered as the transferee thereof. If the person so becoming entitled shall elect to be registered, that person shall deliver or send to the CSD a signed notice in writing confirming

such election. If a person elects to have another person registered, such election shall be testified by transferring the Bond, or procuring the transfer of the Bond, in favour of that person. Provided always that if a Bond is transmitted in furtherance of this paragraph, a person will not be registered as a Bondholder unless such transmission is made at the nominal value of the Bonds, which is in multiples of €5,000 / \$5,000 (as applicable).

- (c) All transfers and transmissions are subject in all cases to any pledge (duly constituted) of the Bonds and to any applicable laws and regulations.
- (d) The costs and expenses of effecting any registration of transfer or transmission, except for the expenses of delivery by any means other than regular mail (if any) and except, if the Issuer shall so require, the payment of a sum sufficient to cover any tax, duty or other governmental charge or insurance charges that may be imposed in relation thereto, will be borne by the person to whom the transfer / transmission has been made.
- (e) The Issuer will not register the transfer or transmission of Bonds for a period of 15 days preceding the due date for any payment of interest on the Bonds or the due date for redemption.

9.15 Further Issues

The Issuer may, from time to time, without the consent of the Bondholders, create and issue further debentures, debenture stock, bonds, loan notes, or any other debt securities, either having the same terms and conditions as any outstanding debt securities of any series (including the Bonds) and so that such further issue shall be consolidated and form a single series with the outstanding debt securities of the relevant series (including the Bonds), or upon such terms as the Issuer may determine at the time of their issue.

9.16 Meeting of Bondholders

- (a) The Issuer may, from time to time, call meetings of Bondholders for the purpose of consultation with Bondholders or for the purpose of obtaining the consent of Bondholders on matters which in terms of the Prospectus require the approval of a Bondholders' meeting and to affect any change to the applicable Terms and Conditions of the Bonds.
- (b) A meeting of Bondholders shall be called by the Directors by giving all Bondholders listed on the register of Bondholders as at a date being not more than 30 days preceding the date scheduled for the meeting, not less than 14 days' notice in writing. Such notice shall set out the time, place and date set for the meeting and the matters to be discussed or decided thereat, including, if applicable, sufficient information on any amendment of the Prospectus that is proposed to be voted upon at the meeting and seeking the approval of the Bondholders. Following a meeting of Bondholders held in accordance with the provisions contained hereunder, the Issuer shall, acting in accordance with the resolution(s) taken at the meeting, communicate to the Bondholders whether the necessary consent to the proposal made by the Issuer has been granted or withheld. Subject to having obtained the necessary approval by the Bondholders in accordance with the provisions of this section at a meeting called for that purpose as aforesaid, any such decision shall subsequently be given effect to by the Issuer.
- (c) Upon request made at any time by Bondholders holding at least ten percent (10%) of the outstanding value of the Bonds, the Directors shall call a meeting of the Bondholders.
- (d) No change or amendment to, or waiver of, any of the applicable Terms and Conditions of the Bonds may be made unless such decision is made at a meeting of Bondholders duly convened and held for that purpose in accordance with the terms hereof.
- (e) A meeting of Bondholders shall only validly and properly proceed to business if there is a quorum present at the commencement of the meeting. For this purpose, at least two Bondholders present, in person or by proxy, representing not less than 50% in nominal value of the Bonds then outstanding, shall constitute a quorum. If a quorum is not present within thirty (30) minutes from the time scheduled for the commencement of the meeting as indicated on the notice convening same, the meeting shall stand adjourned to a place, date and time as shall be communicated by the Directors to the Bondholders present at that meeting. The Issuer shall within two days from the date of the original meeting publish by way of a company announcement the date, time and place where the adjourned meeting is to be held. An adjourned meeting shall be held not earlier than seven days, and not later than 15 days, following the original meeting. At an adjourned meeting the number of Bondholders present at the commencement of the meeting, in person or by proxy, shall constitute a quorum; and only the matters specified in the notice calling the original meeting shall be placed on the agenda of, and shall be discussed at and decided upon during, the adjourned meeting.
- (f) Any person who in accordance with the memorandum and articles of association of the Issuer is to chair the annual general meetings of shareholders shall also chair meetings of Bondholders.

- (g) Once a *quorum* is declared present by the chairperson of the meeting, the meeting may then proceed to business and address the matters set out in the notice convening the meeting. In the event of decisions being required at the meeting the Directors or their representative shall present to the Bondholders the reasons why it is deemed necessary or desirable and appropriate that a particular decision is taken. The meeting shall allow reasonable and adequate time to Bondholders to present their views to the Issuer and the other Bondholders present at the meeting. The meeting shall then put the matter as proposed by the Issuer to a vote of the Bondholders present at the time at which the vote is being taken, and any Bondholders taken into account for the purpose of constituting a quorum who are no longer present for the taking of the vote shall not be taken into account for the purpose of such vote.
- (h) The voting process shall be managed by the Issuer's company secretary under the supervision and scrutiny of the auditors of the Issuer.
- (i) The proposal placed before a meeting of Bondholders shall only be considered approved if at least 75% in nominal value of the Bondholders present at the meeting, or at any adjourned meeting, as the case may be, at the time when the vote is being taken, in person or by proxy, shall have voted in favour of the proposal. A matter decided at a duly convened Bondholders' meeting is binding on all Bondholders irrespective of whether they are present or not.
- (j) Save for the above, the rules generally applicable to proceedings at general meetings of shareholders of the Issuer shall *mutatis mutandis* apply to meetings of Bondholders.

9.17 Ranking of the Bonds

The Bonds, as and when issued and allotted, shall constitute the general, direct, unconditional and unsecured obligations of the Issuer and shall, at all times, rank *pari passu*, without any priority or preference among themselves and, save for such exceptions as may be provided by applicable law, without priority or preference to all present and future unsecured obligations of the Issuer. This means that any secured or privileged debts of the Issuer shall rank at all times ahead of the obligations of the Issuer under the Bonds, as a result of which the Bondholders may not be able to recover their investment in the Bonds in the case of insolvency or an equivalent situation, whether in full or in part. Furthermore, subject to the negative pledge covenant in terms of section 9.25 of this Securities Note, third-party security interests may be registered which will rank in priority to the Bonds against the assets of the Issuer, as the case may be, for so long as such security interests remain in effect, which registration may further impede the ability of the Bondholders to recover their investment upon enforcement of such security interests, whether in full or in part.

9.18 Authorisations and Approvals

The Board of Directors of the Issuer authorised the Bond Issue and the publication of the Prospectus pursuant to a Board of Directors' resolution passed on 06 October 2025.

9.20 Representations and Warranties

The Issuer represents and warrants to Bondholders, who shall be entitled to rely on such representations and warranties, that:

- (a) it is duly incorporated and validly existing under the laws of Malta and has the power to carry on its business as it is now being conducted and to hold its property and other assets under legal title; and
- (b) it has the power to execute, deliver and perform its obligations under the Prospectus and that all necessary corporate, shareholder and other actions have been duly taken to authorise the execution, delivery and performance of the same, and further that no limitation on its power to borrow or guarantee shall be exceeded as a result of the Terms and Conditions of the Prospectus.

9.21 Bonds Held Jointly

In respect of any Bonds held jointly by several persons (including spouses), the person whose name shall be inserted in the field entitled "Applicant" on the Application Form, or the first named in the register of Bondholders shall, for all intents and purposes, be deemed to be such nominated person by all those joint holders whose names appear in the field entitled "Additional Applicants" in the Application Form or joint holders in the register, as the case may be. Such person shall, for all intents and purposes, be deemed to be the registered holder of the Bonds so held.

9.22 Bonds Held Subject to Usufruct

In respect of a Bond held subject to usufruct, the name of the bare owner and the usufructuary shall be entered in the register. The usufructuary shall, for all intents and purposes, be deemed vis-a-vis the Issuer to be the holder of the Bonds so held and shall have the right to receive interest on the Bonds and to vote at meetings of the Bondholders but shall not, during the existence of the Bonds, have the right to dispose of the Bonds so held without the consent of the bare owner, and shall not be entitled to the repayment of principal on the Bonds (which shall be due to the bare owner).

9.23 Governing Law and Jurisdiction

- (a) The Bonds are governed by and shall be construed in accordance with Maltese law.
- (b) Any legal action, suit or proceedings against the Issuer arising out of or in connection with the Bonds and/or the Prospectus shall be brought exclusively before the Maltese courts.

9.24 Notices

Notices will be mailed to Bondholders at their registered addresses and shall be deemed to have been served at the expiration of twenty-four (24) hours after the letter containing the notice is posted, and in proving such service it shall be sufficient to prove that a prepaid letter containing such notice was properly addressed to such Bondholder at his/her/its registered address and posted.

9.25 Negative Pledge

The Issuer undertakes, for as long as any principal or interest under the Bonds or any of them remains outstanding, not to create or permit to subsist any Security Interest (as defined below), other than a Permitted Security Interest (as defined below), upon the whole or any part of the Group's respective present or future assets or revenues to secure any Financial Indebtedness (as defined below) of the Issuer unless the Issuer, in the case of the creation of a Security Interest, before or at the same time and, in any other case, promptly, takes any and all action necessary to ensure that:

- (i) all amounts payable by it under the Bonds are secured by a Security Interest equally and rateably with the Financial Indebtedness in question being so secured; or
- (ii) such other Security Interest is approved by a resolution duly passed by the Bondholders.

For the purposes of this section:

"Financial Indebtedness" means any indebtedness in respect of:

- (A) monies borrowed;
- (B) any debenture, bond, note, loan stock or other security;
- (C) any acceptance credit;
- (D) the acquisition cost of any asset to the extent payable before or after the time of acquisition or possession by the party liable where the advance or deferred payment is arranged primarily as a method of raising finance for the acquisition of that asset;
- (E) leases entered into primarily as a method of raising finance for the acquisition of the asset leased;
- (F) amounts raised under any other transaction having the commercial effect of borrowing or raising of money; or
- (G) any guarantee, indemnity or similar assurance against financial loss of any person.

"Security Interest" means any privilege, hypothec, pledge, lien, charge or other encumbrance or real right which grants rights of preference to a creditor over the assets of the Group;

"Permitted Security Interest" means:

- (A) any Security Interest arising by operation of law;
- (B) any Security Interest securing Financial Indebtedness, including bank loans and overdrafts, in the ordinary course of business;
- (C) any Security Interest securing any indebtedness of the Issuer created for the sole purpose of financing or raising finance for the redemption of all the Bonds;
- (D) any other Security Interest (in addition to (A), (B) and (C) above) securing Financial Indebtedness of the Issuer, in an aggregate outstanding amount not exceeding 80% of the amount resulting after taking the Relevant Value and subtracting therefrom
 - (i) the aggregate value of the liabilities of the Group secured by Security Interests referred to in (B) (C) and (D) above and
 - (ii) the aggregate principal amount of the Bonds still outstanding at the time.

PROVIDED THAT the aggregate Security Interests referred to in (B), (C) and (D) above do not result in the Relevant Value of being less than the aggregate principal amount of the Bonds still outstanding together with one (1) year's interest thereon;

"Relevant Value" means the market value of the total assets of the Group.

10.0 Taxation

10.1 General

Investors and prospective investors are urged to seek professional advice as regards both Maltese and any foreign tax legislation which may be applicable to the acquisition, holding and disposal of Bonds, as well as any interest payments made by the Issuer. The following is a summary of the anticipated tax treatment applicable to the Bonds and to Bondholders in so far as taxation in Malta is concerned. This information, that does not constitute legal or tax advice and does not purport to be exhaustive, refers only to Bondholders who do not deal in securities in the course of their normal trading activity.

The information below is based on an interpretation of tax law and practice relative to the applicable legislation, as known to the Issuer at the date of the Prospectus. Investors are reminded that tax law and practice and their interpretation, as well as the levels of tax on the subject matter referred to in the preceding paragraph, may change from time to time.

This information is being given solely for the general information of investors who do not deal in the acquisition and disposal of securities in the course of their normal trading activities. The precise implications for investors will depend, among other things, on their particular circumstances and professional advice in this respect should be sought accordingly.

10.2 Maltese Income Tax arising upon acquisition of Bonds

The acquisition of Bonds in the Issuer does not trigger any Maltese income tax or duty liability for the Bondholders.

10.3 Maltese Income tax on interest income arising from the holding of bonds

Since interest is payable in respect of a Bond which is the subject of a public issue, unless the Issuer is otherwise instructed by a Bondholder to receive the interest gross of any withholding tax or if the Bondholder does not fall within the definition of "recipient" in terms of article 41(c) of the Income Tax Act (Cap. 123 of the laws of Malta), interest shall be paid to such person net of a final withholding tax, currently at the rate of 15% (10% in the case of certain types of collective investment schemes) of the gross amount of the interest, pursuant to article 33 of the Income Tax Act. Bondholders who do not fall within the definition of a "recipient" do not qualify for the said rate and should seek professional advice on the taxation of such income as special rules may apply.

Article 41(c) of the Income Tax Act defines the term "Recipient", to include, *inter alia*, a person (both corporate or non-corporate) who is resident in Malta during the year in which investment income is payable to them, and EU/EEA nationals (and their spouse were applicable) who are not resident in Malta for Maltese tax purposes but who apply (at their option) the tax rates applicable to Maltese residents on the basis that the income that arises in Malta is at least 90% of their world-wide income.

This withholding tax is considered as a final tax and a Maltese resident individual Bondholder is not obliged to declare the interest so received in their income tax return (to the extent that the interest is paid net of tax). No person (whether corporate or non-corporate) shall be charged to further tax in respect of such income and the tax deducted shall not be available as a credit against the recipient's tax liability or available as a refund, as the case may be.

The Issuer will render an account to the Maltese Commissioner for Tax and Customs of all amounts of interest paid and tax so deducted, including the identity of the recipient.

In the case of a valid election made in writing by an eligible Bondholder resident in Malta to receive the interest due without the deduction of final tax, interest will be paid gross and such person will be obliged to declare the interest so received in their Maltese income tax return and be subject to tax on such interest at the standard rates applicable to that person at that time. Additionally, in this latter case the Issuer will advise the Maltese Commissioner for Tax and Customs on an annual basis in respect of all interest paid gross and of the identity of all such recipients. Any such election made by a resident Bondholder at the time of subscription may be subsequently changed by giving notice in writing to the Issuer. Such election or revocation will be effective within the time limit set out in the Income Tax Act.

In terms of article 12(1)(c)(i) of the Income Tax Act, Bondholders who are not resident in Malta satisfying the applicable conditions set out therein, including but not limited to the condition that the Bondholder is not owned and controlled by, whether directly or indirectly, nor acts on behalf of individuals who are ordinarily resident and domiciled in Malta, are not taxable in Malta on the interest received and will receive interest gross, subject to the requisite declaration/evidence being provided to the Issuer in terms of law.

10.4 Exchange of Information

In terms of the applicable Maltese legislation, the Issuer and/or its agent may be required to collect and forward certain information (including, but not limited to, information regarding payments made to certain Bondholders) to the Commissioner for Tax and Customs. The Commissioner for Tax and Customs will or may, in turn, automatically or on request, forward the information to other relevant tax authorities subject to certain conditions.

Relevant legislation includes, but is not limited to:

- (1) The agreement between the Government of the United States of America and the Government of the Republic of Malta to Improve International Tax Compliance and to Implement FATCA – incorporated into Maltese law through Legal Notice 78 of 2014 entitled the Exchange of Information (United States of America) (FATCA) Order (the “**FATCA Legislation**”). Under the FATCA Legislation, foreign financial institutions (“**FFIs**”) in Malta (defined as such for the purposes of FATCA) are obliged to identify and report financial accounts held by Specified U.S. persons, as defined under the FATCA Legislation, and certain non-U.S. entities which are controlled by U.S. Controlling Persons, as defined under the FATCA Legislation, to the Maltese tax authorities. The Maltese Government and the Government of the U.S. shall annually exchange the information obtained pursuant to the FATCA Legislation on an automatic basis. Financial account information in respect of Bondholders could fall within the scope of FATCA and they may therefore be subject to reporting obligations; and
- (2) Council Directive 2014/107/EU of 9 December 2014 amending Directive 2011/16/EU on Administrative Cooperation in the field of Taxation which provides for the implementation of the regime known as the Common Reporting Standard (“**CRS**”) – incorporated into Maltese law through Legal Notice 384 of 2015 entitled the Cooperation with Other Jurisdiction on Tax Matters (Amendment) Regulations, 2015. The CRS has been proposed by the OECD as a new global standard for the automatic exchange of financial account information between tax authorities in participating jurisdictions. Malta based financial institutions (“**FIs**”) (defined as such for the purposes of CRS) are obliged to identify and report to the Maltese tax authorities financial accounts held by a Reportable Person, as defined under the Maltese CRS legislation, and certain entities with one or more Controlling Persons, as defined under the Maltese CRS legislation, which is classified as a Reportable Person. Financial information relating to Bonds and the holders of the Bonds may fall within the purview of CRS and may be subject to reporting and information exchange provisions. Failure on the part of a Bondholder to provide the Issuer with the necessary information required for its compliance with applicable legislation, may have consequences on the Bondholder’s holding and, or may result in the Issuer having to report the Bondholder to the relevant tax authorities.
- (3) Investors are advised to seek professional advice in relation to the CRS and FATCA Legislation. Not complying with the legislation may give rise to certain fines or closure of financial accounts.

10.5 Maltese Income Tax on capital gains on transfer of the Bonds

As the Bonds do not fall within the definition of “securities” in terms of article 5(1)(b) of the Income Tax Act, that is, “*shares and stocks and such like instrument that participate in any way in the profits of the company and whose return is not limited to a fixed rate of return*”, and to the extent that the Bonds are held as capital assets by the Bondholder, no income tax on capital gains is chargeable in respect of a transfer of the Bonds.

10.6 Duty on documents and transfers on transfer of the Bonds

In terms of the Duty on Documents and Transfers Act (Cap. 364 of the laws of Malta), duty is chargeable, *inter alia*, on the transfer or transmission *causa mortis* of marketable securities. A marketable security is defined in the said legislation as “*a holding of share capital in any company and any document representing the same*”.

Accordingly, the Bonds should not be treated as constituting marketable securities within the meaning of the aforementioned legislation and, therefore, the transfer/transmission thereof should not be chargeable to duty.

11.0 Terms and Conditions of Application for the Bonds

11.1 The following Terms and Conditions shall be read in conjunction with all the other terms and conditions relative to and regulating the contractual relationship created between the Issuer and the Bondholders.

11.2 The issue and allotment of the Bonds is conditional upon the Bonds being admitted to trading on the Official List. In the event that the Bonds are not admitted to the Official List, no Exchangeable Bonds Transfer (see section 9.2) shall take effect and any application monies received by the Issuer from all Applicants will be returned without interest by direct credit into the Applicant's bank account indicated by the Applicant/Authorised Intermediary on the relative Application Form/subscription agreement.

11.3 Application for the Bonds may be lodged with any Authorised Intermediary (which include the Sponsor and the Registrar & Manager) by not later than 13:00 CET on 07 November 2025. Applications by Existing Bondholders must be accompanied by the full price of any additional Bonds applied for as applicable, in Euro for the EUR Bonds and in US Dollar for the USD Bonds. Payment may be made by credit transfer, by cheque payable to the respective Authorised Intermediary or by any other method of payment as accepted by the respective Authorised Intermediary. In any case, acceptance of payment shall be made at the Authorised Intermediary's sole and absolute discretion and may be on the basis that the Applicant indemnifies the Authorised Intermediary against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of the Applicant's remittance to be honoured on first presentation, and that, at any time prior to unconditional acceptance by the Authorised Intermediary of such late payment in respect of such Bonds, the Authorised Intermediary may (without prejudice to other rights) treat the agreement to allocate such Bonds as void, in which case the Applicant will not be entitled to any refund or payment in respect of such Bonds (other than the return of such late payment).

11.4 It is the responsibility of investors wishing to apply for the Bonds to inform themselves as to the legal requirements of so applying, including any requirements relating to external transaction requirements in Malta and any exchange control in the countries of their nationality, residence or domicile.

11.5 The contract created by the Issuer's acceptance of an Application filed by a prospective bondholder shall be subject to all the Terms and Conditions set out in this Securities Note.

11.6 If an Application Form is signed on behalf of another party or on behalf of a corporation or corporate entity or association of persons, the person signing will be deemed to have duly bound his principal, or the relative corporation, corporate entity, or association of persons, and will be deemed also to have given the confirmations, warranties and undertakings contained in these Terms and Conditions on their behalf. Such representative may be requested to submit the relative power of attorney/resolution or a copy thereof duly certified by a lawyer or notary public if so required by the Issuer acting through the Registrar, but it shall not be the duty or responsibility of the Registrar or the Issuer to ascertain that such representative is duly authorised to appear on the Application Form and bind the Applicant. Furthermore, in cases where the decision to invest is taken by a third party authorised to transact on behalf of the Applicant (a "**decision maker**") such as an individual that holds a power of attorney to trade on the Applicant's account or applications under a discretionary account, details of the decision maker need to be included in the relative panel of the Application Form.

11.7 Applications in the name of a corporation or corporate entity or association of persons need to include a valid Legal Entity Identifier ("**LEI**") (which needs to be unexpired) in the space provided on the Application Form. Failure to include a valid LEI code will result in the Application being cancelled by the Issuer, acting through the Registrar, and subscription monies will be returned to the Applicant in accordance with the terms set out herein.

11.8 In the event that an Applicant fails to submit full information and/or documentation required with respect to an Application, the Applicant shall receive a full refund, without interest, by direct credit transfer to such account indicated in the Application Form at any time before the Bonds are admitted to listing on the Official List of the MSE. Neither the Issuer nor the Registrar shall be responsible for any charges, loss or delay arising in connection with such credit transfer.

11.9 In the case of joint Applications, reference to the Applicant in these Terms and Conditions is a reference to each of the joint Applicants, and liability therefor is joint and several.

11.10 Applications in the name and for the benefit of minors shall be allowed provided that the Applicant already holds an account with the MSE. Any Bonds allocated pursuant to such an Application shall be registered in the name of the minor as Bondholder, with interest and redemption monies payable to the parents / legal guardian/s signing the Application Form until such time as the minor attains the age of 18 years, following which all interest and redemption monies shall be paid directly to the registered holder, provided that the Issuer has been duly notified in writing of the fact that the minor has attained the age of 18 years.

11.11 The Bonds have not been and will not be registered under the Securities Act of 1933 of the United States of America and, accordingly, may not be offered or sold within the United States or to or for the account or benefit of a U.S. person.

11.12 No person receiving a copy of the Prospectus or an Application Form in any territory other than Malta may treat the same as constituting an invitation or offer to such person, nor should such person in any event use such Application Form, unless, in the relevant territory, such an invitation or offer could lawfully be made to such person or such Application Form could lawfully be used without contravention of any regulation or other legal requirements. Having considered the circumstances, the Issuer has formed the view (due to the onerous requirements involved in the registration of the Prospectus in any territory other than Malta and/or compliance with the relevant legal or regulatory requirements) not to send Application Forms to Existing Bondholders having their address as included in the register of bondholders outside Malta, except where, *inter alia*, in the absolute discretion of the Issuer, it is satisfied that such action would not result in a contravention of any applicable legal or regulatory requirement in the relevant jurisdiction.

11.13 It is the responsibility of any person outside Malta wishing to make any Application to satisfy himself/herself/itself as to full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any other formalities required to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.

11.14 Subject to all other Terms and Conditions set out in the Prospectus, the Issuer (acting through the Registrar) or the Authorised Intermediary as applicable reserves the right to reject, in whole or in part, or to scale down, any Application, and to present any cheques and/or drafts for payment upon receipt. The right is also reserved to refuse any Application which in the opinion of the Issuer, acting through the Registrar, is not properly completed in all respects in accordance with the relative instructions or is not accompanied by the required documents.

11.15 Save where the context requires otherwise or where otherwise defined therein, terms defined in the Prospectus bear the same meaning when used in these Terms and Conditions, in the Application Forms, subscription agreements, in any of the annexes and in any other document issued pursuant to the Prospectus.

11.16 The Issuer has not sought assessment of the Bonds by any independent credit rating agency.

11.17 Subject to all other Terms and Conditions set out in the Prospectus, the Issuer reserves the right to revoke the Bond Issue at any time before the closing of the Issue Period and/or the Intermediaries' Offer (if any). The circumstances in which such revocation might occur are expected to be exceptional, for example where a significant change in market conditions occurs.

11.18 The Bonds will be issued in multiples of €5,000 / \$5,000 (as applicable). The minimum subscription amount of Bonds that can be subscribed for by all Applicants is the nominal value of the Bonds, being €5,000 / \$5,000 (as applicable).

11.19 For the purposes of the Prevention of Money Laundering and Funding of Terrorism Regulations (Subsidiary Legislation 373.01), as may be amended from time to time, all appointed Authorised Intermediaries are under a duty to communicate, upon request, all information about clients as is mentioned in articles 1.2(d) and 2.4 of the "Members' Code of Conduct" appended as Appendix 3.6 to Chapter 3 of the MSE Bye-Laws, irrespective of whether the said appointed Authorised Intermediaries are Malta Stock Exchange members or not. Such information shall be held and controlled by the Malta Stock Exchange in terms of the General Data Protection Regulation (EU) 2016/679 (GDPR) and the Data Protection Act (Cap. 586 of the laws of Malta) for the purposes and within the terms of the Malta Stock Exchange Data Protection Policy as published from time to time.

11.20 It shall be incumbent on the respective Authorised Intermediaries to ascertain that all other applicable regulatory requirements relating to subscription of Bonds by an Applicant are complied with, including without limitation the obligation to comply with all applicable MiFIR requirements as well as applicable MFSA Rules for investment services providers, all applicable Anti-Money Laundering and Counter Terrorist Financing rules and regulations, as well as the applicable MFSA Conduct of Business Rules.

11.21 The Bonds are deemed to be complex instruments in accordance with the provisions of the COBR and the ESMA Guidelines. When providing advice or portfolio management services with respect to the Bonds, Authorised Intermediaries are required to carry out a Suitability Test. This is done to establish whether the Bonds meets the objectives of the client, whether the client can withstand the proposed investment in the light of his / her financial circumstances, and whether the latter has sufficient knowledge and experience in the said financial instrument. Authorised Intermediaries shall be required to conduct an Appropriateness Test when providing a service with respect to the Bonds to retail clients on a non-advisory basis. The requirement to carry out an Appropriateness Test and, or Suitability Test shall also apply when transfers of Bonds are carried out on the secondary market.

11.22 By completing and delivering an Application Form, the Applicant:

- (a) agrees and acknowledges to have had the opportunity to read the Prospectus and to be deemed to have had notice of all information and representations concerning the Issuer and the issue of the Bonds contained therein;
- (b) warrants that the information submitted by the Applicant in the Application Form is true and correct in all respects. All Applications need to include a valid MSE account number in the name of the Applicant/s. Failure to include an MSE account number will result in the Application being cancelled by the Issuer (acting through the Registrar) and subscription monies will be returned to the Applicant. In the event of a discrepancy between the personal details (including name and surname and the Applicant's address) appearing on the Application Form and those held by the MSE in relation to the MSE account number indicated on the Application Form, the details held by the MSE shall be deemed to be the correct details of the Applicant;
- (c) authorises the Registrar and the MSE to include his/her/its name or, in the case of joint Applications the first named Applicant, in the register of debentures of the Issuer in respect of the Bonds allocated to such Applicant and further authorises the Issuer, the Registrar, the respective Authorised Intermediary and the MSE to process the personal data that the Applicant provides in the Application Form, for all purposes necessary and subsequent to the Bond Issue applied for, in accordance with the General Data Protection Regulation (EU) 2016/679 (GDPR) and the Data Protection Act (Cap. 586 of the laws of Malta). The Applicant has the right to request access to and rectification of the personal data relating to them as processed by the Issuer and/or the MSE. Any such requests must be made in writing and sent to the CSD. The requests must further be signed by the Applicant to whom the personal data relates;
- (d) confirms that in making such Application no reliance was placed on any information or representation in relation to the Issuer or the issue of the Bonds other than what is contained in the Prospectus and, accordingly, agree/s that no person responsible solely or jointly for the Prospectus or any part thereof will have any liability for any such other information or representation;
- (e) agrees that the registration advice and other documents and any monies returnable to the Applicant may be retained pending clearance of his/her/its remittance or surrender of the Exchangeable Bonds, as the case may be, and any verification of identity as required by the Prevention of Money Laundering Act (Cap. 373 of the laws of Malta) and regulations made thereunder, and that such monies will not bear interest;
- (f) agrees to provide the Issuer acting through the Registrar, with any information which they may request in connection with the Application;
- (g) warrants, in connection with the Application, to have observed all applicable laws, obtained any requisite governmental or other consents, complied with all requisite formalities and paid any issue, transfer or other taxes due in connection with their Application in any territory, and that the Applicant has not taken any action which will or may result in the Issuer or the Registrar acting in breach of the regulatory or legal requirements of any territory in connection with the issue of the Bonds or his/her/its Application;
- (h) warrants that all applicable exchange control or other regulations (including those relating to external transactions) have been duly and fully complied with;

- (j) agrees that unless such Application is made with Rizzo, Farrugia & Co (Stockbrokers) Ltd as an Authorised Intermediary, Rizzo, Farrugia & Co (Stockbrokers) Ltd will not, in its capacity of Sponsor, treat the Applicant as its customer by virtue of such Applicant making an Application for the Bonds, and that Rizzo, Farrugia & Co (Stockbrokers) Ltd will owe the Applicant no duties or responsibilities concerning the price of the Bonds or their appropriateness and suitability for the Applicant;
- (k) agrees that all documents in connection with the issue of the Bonds and any returned monies, including refunds of unapplied Application monies, if any, will be sent at the Applicant's own risk and may be sent, in the case of documents, by post at the address (or, in the case of joint Applications, the address of the first named Applicant) as set out in the Application Form and in the case of monies by direct credit into the Applicant's bank account as indicated by the Applicant on the Application Form;

- (n) warrants that his/her/its remittance will be honoured on first presentation and agrees that if such remittance is not so honoured on its first presentation, the Issuer acting through the Registrar reserves the right to invalidate the relative Application. Furthermore, the Applicant will not be entitled to receive a registration advice or to be registered in the register of Bondholders or to enjoy or receive any rights in respect of such Bonds, unless the Applicant makes payment in cleared funds and such consideration is accepted by the respective Authorised Intermediary (which acceptance shall be made in the Authorised Intermediary's sole and absolute discretion and may be on the basis that the Applicant indemnifies the Authorised Intermediary against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of the Applicant's remittance to be honoured on first presentation, and that, at any time prior to unconditional acceptance by the Authorised Intermediary of such late payment in respect of such Bonds, the Authorised Intermediary may (without prejudice to other rights) treat the agreement to allocate such Bonds as void and may allocate such Bonds to some other person, in which case the Applicant will not be entitled to any refund or payment in respect of such Bonds (other than return of such late payment));
- (o) agrees that all Applications, acceptances of applications and contracts resulting therefrom will be governed by, and construed in accordance with, Maltese law and that he/she/it submits to the exclusive jurisdiction of the Maltese courts and agrees that nothing shall limit the right of the Issuer to bring any action, suit or proceeding arising out of or in connection with any such Applications, acceptances of applications and contracts in any other manner permitted by law in any court of competent jurisdiction;
- (p) warrants that if he/she signs the Application Form on behalf of another party or on behalf of a corporation or corporate entity or association of persons, he/she has due authority to do so and such person, corporation, corporate entity or association of persons will also be bound accordingly, and will be deemed also to have given the confirmations, warranties and undertakings contained in these Terms and Conditions;

No interest shall be due on refunds. The Issuer shall not be responsible for any loss or delay in transmission or any charges in connection therewith; and
- (t) acknowledges and confirms that he/she has been provided with a copy of the Issuer's privacy notice applicable to Bondholders which is available here: medservregis.com/privacy-bonds/.

The following notes are to be read in conjunction with the Prospectus dated 20 October 2025 regulating the Bond Issue.

1. This Application is governed by the general Terms and Conditions of Application contained in the Prospectus dated 20 October 2025. Capitalised terms not defined herein shall, unless the context otherwise requires, have the meaning ascribed to them in the Prospectus.
2. The Application Form is to be completed in BLOCK LETTERS. For Applicants who are non-residents in Malta for tax purposes, the relative box in Section F must be completed.
3. The MSE account number pertaining to the Applicant has been pre-printed in Section A and reflects the MSE account number on the Register of MedservRegis plc at the CSD as at 16 October 2025. If an MSE account pertains to more than one person, the full details of all individuals must be given in Sections A and B but the person whose name appears in Section A shall, for all intents and purposes, be deemed to be the registered holder of the Bonds.

Upon submission of an Application Form, Applicants who opt to have an online e-portfolio facility (by marking the relative box in Section A), will receive by mail at their registered address a handle code to activate the new e-portfolio login. Registration for the e-Portfolio facility requires a mobile number to be provided on the Application Form. The Applicant's statement of holdings evidencing entitlement to Bonds held in the register kept by the CSD and registration advices evidencing movements in such register will be available through the said e-portfolio facility on <https://eportfolio.borzamalta.com.mt/>. Further details on the e-portfolio may be found on <https://eportfolio.borzamalta.com.mt/Help>.

4. Applications in the name and for the benefit of minors shall be allowed provided that the applicant already holds an MSE account. Any Bonds allocated pursuant to such an Application shall be registered in the name of the minor as Bondholder, with interest and redemption proceeds payable to the parents or legal guardian/s signing the Application Form until such time as the minor attains the age of eighteen (18) years, following which all interest and redemption proceeds shall be payable directly to the registered holder, provided that the Issuer has been duly notified in writing of the fact that the minor has attained the age of eighteen (18) years. Section C must be inserted with full details of the parents/legal guardians.
5. In the case of a body corporate, a valid Legal Entity Identifier ("LEI") needs to be inserted in Section A. Failure to include a valid LEI code, will result in the Application being cancelled by the Registrar. Applications must be signed by duly authorised representatives indicating the capacity in which they are signing.
6. **APPLICANTS ARE TO NOTE THAT ANY SECURITIES ALLOTTED TO THEM WILL BE RECORDED BY THE MALTA STOCK EXCHANGE IN THE MSE ACCOUNT NUMBER QUOTED ON THIS APPLICATION FORM EVEN IF THE DETAILS OF SUCH MSE ACCOUNT NUMBER, AS HELD BY THE CSD OF THE MALTA STOCK EXCHANGE, DIFFER FROM ANY OR ALL OF THE DETAILS APPEARING ON THE APPLICATION FORM. A SEPARATE REQUEST BY THE APPLICANT TO THE MSE TO CHANGE THESE DETAILS AS RECORDED AT THE MSE WILL HAVE TO BE MADE.**
7. Where a decision to invest is taken by a third party authorised to transact on behalf of the Applicant (a "Decision Maker") such as an individual that holds a power of attorney to trade on the Applicant's account or applications under a discretionary account, details of the decision maker need to be included in the space provided in Section C of the Application Form.
8. If your holding of Exchangeable Bonds is not a multiple of €5,000 and you wish to exchange the full amount, you must increase your application amount to the next whole multiple of €5,000 by means of a Cash Top-up for the difference. Applications must be for a minimum subscription of €5,000 and thereafter in multiples of €5,000 and must be accompanied by the relevant subscription amount in Euro. In light of the requirement specified in the 2015 Prospectus for Existing Bondholders to retain a minimum amount of €50,000 in Exchangeable Bonds throughout the term of the Exchangeable Bonds (hereinafter, the "Minimum Retention Requirement"), a partial transfer of Exchangeable Bonds for Bonds shall not be permitted if said transfer would result in the holding of Exchangeable Bonds by the Existing Bondholder to fall below the Minimum Retention Requirement.
9. An Applicant (both corporate or non-corporate) who is resident in Malta during the year in which investment income is payable to them, and EU/EEA nationals (and their spouse were applicable) who are not resident in Malta for Maltese tax purposes but who apply (at their option) the tax rates applicable to Maltese residents on the basis that the income that arises in Malta is at least 90% of their world-wide income may elect to have final withholding tax, currently 15%, deducted from interest payments in which case such interest need not be declared in the Applicant's income tax return. The Applicant may elect to receive the interest gross (i.e. without deduction of final withholding tax), but will be obliged to declare interest so received in the tax return. The Issuer will render an account to the Maltese Commissioner for Revenue of all interest paid, all amounts of tax deducted by the Issuer in respect of the interest paid and of the identity of all such recipients. Interest received by non-resident Applicants is not taxable in Malta and non-residents will receive interest gross. Authorised entities applying in the name of a prescribed fund will have final withholding tax (currently 10%), deducted from interest payments.

Non-residents of Malta should note that payment of interest to individuals and certain residual entities residing in another EU Member State is reported on an annual basis to the Director General Inland Revenue, Malta, who will in turn exchange the information with the competent tax authority of the Member State where the recipient of interest is resident. This exchange of information takes place in terms of the Council Directive 2014/107/EU, of 9 December 2014 amending Directive 2011/16/EU as regards mandatory automatic exchange of information in the field of taxation.

The Energy Industry

The global oil and gas industry in 2025 is navigating a delicate balance between geopolitical uncertainty, volatile pricing, and the accelerating energy transition. Following a period of strong investment in 2023–24, when upstream spending surpassed USD 600 billion for the first time in over a decade, momentum is expected to soften in 2025 as Brent prices retreat to around USD 65 per barrel and demand growth moderates. Elevated interest rates are further constraining access to capital, particularly in emerging markets, while regulatory and investor pressure continues to push companies toward cleaner energy solutions. Nevertheless, oil and gas infrastructure remains essential, and national oil companies and international majors are prioritising cash flow resilience and selective expansion, even as global energy investment shifts decisively toward renewables and low-carbon technologies.

Against this backdrop, regional developments continue to shape industry dynamics. In Libya, activity has rebounded after years of political instability, with new offshore projects commencing in early 2025 and further expansion anticipated through a shore base tender in Misurata. The Eastern Mediterranean has gained renewed strategic importance as Europe seeks to diversify away from Russian energy, though the pace of development remains tied to geopolitical risk resolution and infrastructure buildout. Meanwhile, Iraq maintains steady drilling demand despite regional tensions, and Angola's recovery has spurred renewed investment, with opportunities extending into neighbouring Namibia. Conversely, Mozambique's LNG prospects remain stalled by ongoing insurgent unrest, highlighting the fragility of some frontier markets.

For service providers in the sector like the Group, these dynamics present opportunities. Integrated logistics and shore base facilities, such as those in Malta, are seeing increased demand from international operators, while expansion into machine shop services in Abu Dhabi and potential entry into Saudi Arabia reflect strategic moves to capture growth in resilient markets. Looking ahead, the industry's ability to balance profitability with long-term sustainability, while adapting to shifting geopolitical and economic landscapes, will determine its trajectory through the remainder of the decade.

Key Markets for the MedservRegis Group

The Group continues to maintain a diversified geographic footprint, though market conditions vary widely. In Mozambique, operations remain subdued following TotalEnergies' 2021 force majeure declaration, with the Group downsizing to control costs but positioning for renewed activity once projects restart. Uganda remains a core hub, where the Group has invested heavily in a dedicated base at Buliisa and continues to service long-term contracts with Vallourec alongside ad hoc work for other clients. In Angola, managed through Mauritius, activity has strengthened as the economy recovers, with the reopening of the Luanda office in 2025 expected to unlock further opportunities in procurement and support services for major clients such as SONILS and AES.

The Group has also expanded into Guyana through a joint venture with NRG Holdings, establishing a local entity to provide lifting equipment and personnel, though growth has been delayed by shore base delivery setbacks; demand is expected to ramp up as ExxonMobil and its contractors progress offshore developments. Finally, Namibia has emerged as a promising new frontier, where recent discoveries by Shell and TotalEnergies, and new farm-in activity, have prompted the Group to register a local entity and appoint a business development manager to capture early opportunities in this high-potential market.

2. RECENT TRENDS AND OUTLOOK FOR THE GROUP

The oil and gas industry continues to be shaped by four fundamental forces: geopolitics, economic factors, evolving regulatory frameworks, and technological advancements. These dynamics influence global production levels, pricing structures, investment decisions, and energy transitions.

The Integrated Logistics Support Services (ILSS) business segment of the Group in the Eastern Mediterranean region remains diversified, continuing to provide services to multiple international energy companies. This segment continues to secure the existing business pipeline through contract renewals and tendering. Business development is expected to continue to increase for the ILSS segment as the business pipeline remains strong.

The Group's strategy remains focused on continuing its growth trajectory across geographic markets, client base, and product offerings. Particular emphasis and investment will be placed on the shore base in Malta, which services both the offshore oil and gas industry in Libya and the non-oil and gas sector, supporting local contractors across various industries. Planned investments include facility upgrades, increased capacity through the acquisition of new heavy lifting equipment, and the expansion of storage facilities.

Meanwhile, the Group continues to invest in the METS operations by increasing machine shop capacity and developing its new facility in Abu Dhabi. This expansion aims to enhance its service offerings and supports the Group's entry into the Saudi Arabian market.

The Group continues to participate in several tenders and is evaluating projects in both existing and new markets, particularly in Africa, South America and the Middle East, most of which are being driven by the Group's existing clients.

Contract wins and geographic diversification have been central to the revenue and margin momentum. In more recent years, MedservRegis secured multiple meaningful awards including multi-year shore-base and machine-shop contracts and extensions (including contracts related to inspection and tubulars work), plus new shore-base logistics agreements through its Cyprus and Malta operations. These contracts both increased utilisation of the yard and machine-shop and allowed the Group to capture higher-margin services such as inspection, reclamation/repair of tubing and shore-base logistics for multinational oil & gas firms — all of which supported the EBITDA rebound in FY2023 and provided the pipeline of work that underpinned the FY2024 performance.

The Group's results must be read in the context of industry dynamics through the period. Global oil markets re-balanced after the 2020–2022 shocks: Brent annual averages retreated from the very high 2022 average toward lower but still supportive levels in 2023–2024, creating a more constructive backdrop for offshore activity and contractor tendering as E&P operators resumed project-by-project spending (Brent annual averages: 2022 materially higher than 2023 and 2024). Regionally, renewed activity in the central Mediterranean and Libya in particular — including advances on Bahr Essalam and related Eni-led field development work — created tangible demand for shore-base logistics, well interventions and machine-shop services that map closely to MedservRegis's capabilities. The combination of relatively resilient oil-price levels and a pickup in regional offshore projects supported tender flow and contract conversion for specialist service providers like MedservRegis.

3. KEY CLIENTS & RELATIONSHIPS

The Group's reach and involvement has extended across a number of geographical areas over the years. The Group has always enjoyed a good relationship with the larger oil and gas companies, including Eni, ExxonMobil, BP and TotalEnergies.

Furthermore, key clients in the OCTG segment also include Sumitomo and Tenaris. METS UAE holds licences from Vallourec, Tenaris, JFE and NSMAX thereby enabling it to handle most premium threading connections.

While the MedservRegis Group has been invited to participate in international tenders by a number of these companies, the Group is also being asked to collaborate with other logistics companies, including through joint ventures. Such joint ventures allow the Group to partner with established connected partners of drilling companies which may lack management systems, accessibility to expert resources and know-how to cater for an offshore drilling project, such as freight forwarding companies, port operators, etc. Such companies would have the facilities available (such as warehousing, berthing facilities, yards, equipment, and human resources) which can be used by the Group to support an offshore project. As such, these partners would provide the physical resources, while the MedservRegis Group provides the expertise and its management systems.

ISSUER PERFORMANCE & FINANCIAL POSITION OVERVIEW

MedservRegis plc is a listed entity, and in view of previous bond issues, it is required to provide an annual update to the market about its financial performance and metrics during the previous financial year and a forward-looking assessment for the year of publication of the said Financial Analysis Summary. As listed in the first part of this document, within the 'Important Information' section, the Company has published a series of FAS detailing the analysis required in terms of the Listing Policies. These reports, along with the Group's consolidated financial statements are also available on the Group's website: www.medservregis.com

HISTORIC REVIEW – FY2022 TO FY2024

The review of the three financial periods FY2022 to FY2024 have been extensively covered in the Group's annual financial statements and the annual financial analysis summary as listed in the Important Information section earlier on in this report. A summary of the key points that affected the Group's results over these periods is included hereunder.

The Group's performance across FY2022–FY2024 reflects a group transitioning from integration into operational scale-up. Following the reverse-acquisition that created MedservRegis, **FY2022** was a year in which the newly combined Group focused on integrating the Medserv and Regis businesses, restructuring management and putting in place new financing to support growth; results for that financial period were modest as the Group absorbed transaction-related costs and the initial effects of consolidation. While the year was not transformational in earnings, reporting only a marginal profit for the year, it established the structural platform for the improved margins and higher EBITDA that followed.

FY2023 marked a clear step-up in underlying profitability driven by stronger operating execution and higher utilisation of the enlarged service footprint. The Group reported a materially higher EBITDA — rising to €17.5 million in FY2023, an increase of roughly 53% on the prior year — and a reported profit after tax of just under €1.3 million, demonstrating that the integration benefits and margin improvements began to flow through to the bottom line. Management attributed the improvement to both improved performance across the machine-shop/yard and logistics businesses and to cost and working-capital discipline following the merger.

In **FY2024**, the Group delivered a steady financial performance against a mixed external environment, with the Group reporting continued profitability improvement into the said financial year. The Group sustained operational delivery and maintained its fleet and shore-base capabilities while continuing to tender for longer-term contracts in the Mediterranean and selected Middle Eastern markets. The Group reported a higher net profit for FY2024 (at €2.1 million) compared to FY2023 (€1.3 million), consistent with management's emphasis on disciplined execution, cost controls and contract capture.

Taken together, the three-year picture is one of a company that moved from post-transaction consolidation (FY2022) to margin recovery and stronger cash-generating operating performance (FY2023), to a year of steady delivery and selective contract capture (FY2024). The enlargement of the Group's contract book and geographic footprint — particularly shore-base/logistics and machine-shop/tubulars work in Mediterranean and Middle Eastern regions — has both de-risked revenue concentration and raised the potential for recurring, higher-margin revenue streams.

These outcomes reflect the Group's shift from consolidation into selective growth backed by a stronger orders and contract backlog and are supportive of the growth expected in the next financial periods covering FY2025 and FY2026, as discussed in greater detail below.

7. FORWARD-LOOKING UPDATES

The next financial sections will delve deeper into the assessment of the forecasts for FY2025, which are based on the interim financial results published by the Group and take into account the trends observed since then. Furthermore, in terms of the Listing Policies, the FAS will also include the projected figures for FY2026. These forward-looking results are primarily underpinned by the key developments mentioned in section 2 of this report.

Unless otherwise stated, all amounts in the tables below are in thousands of euro (€'000) and have also been subject to rounding.

FY2025 REVENUE

The forecasts for the current financial year ending 31 December have been based on the key developments that the Group expected to happen during FY2025, as described in detail in section 2 of the FAS published on 20 June 2025, and as are summarised below:

- At the Malta base, volumes kept increasing as planned drilling campaigns proceeded as projected during FY2025. The Group has secured key contracts with the main IECs and their respective subcontractors specialised in engineering, procurement, construction, and installation (EPCI) services which are supporting the project works relating to the A&E structures & Bouri Gas Utilisation Project offshore Libya. These scopes have many varied requirements such as prolonged port stays for pipelaying vessels, accommodation barges and other specialised equipment. There has been notable anticipation of the services offered by MedOps, as well as an extension of scope, that led to increased revenues therefrom.
- In Libya, the Group was awarded a contract for the management of a supply base in Misurata, Libya, which is expected to start operating during Q4 2025.
- In Cyprus, the drilling campaign started in the beginning of Q1 2025 with the first well spudded in January 2025 and completed by April 2025 and the second well spudded in April 2025 and was completed by June 2025, as expected. In the June 2025 FAS, the Company anticipated to return to non-active mode from August 2025 onwards, however, the scope was extended during the year, contributing to improved levels of revenue than originally anticipated;
- In Egypt, the Group continues to service its two main clients and has secured another contract with an existing client for the provision of site support services in Abu Qir, Egypt.
- In the Middle East, as the Group increases its footprint in Abu Dhabi, this is expected to improve the capacity for business which will increase revenue contribution, accordingly; and
- In Sub Saharan Africa, Mozambique and Guyana are expected to continue to be impacted by project delays, resulting also in lower utilisation of PPE, that will lead to lower levels of revenue, more than originally anticipated.

Overall, the updates above are expected to yield an increase in revenues of over €4 million from the figures published in the June 2025 FAS, resulting in a net profit increase of just over €2 million.

FY2026 REVENUE

For FY2026, the activity in Cyprus is expected to be slower than FY2025, resulting in lower revenues for the Group. Similarly, the extended scope for MedOps in FY2025 means that for FY2026, the comparable revenue generated from this segment reflects lower revenues than what will be recognised in the current financial

year. Meanwhile, the slower FY2025 results for the Sub-Saharan region for Mozambique and Guyana are expected to recover marginally in FY2026, with comparable revenues improving year-on-year.

On 5 September 2025, the Group announced the award of a multi-million-dollar marine logistics base contract in Suriname spanning over a four-year period. This contract is expected to commence as from mid-2026.

CONSOLIDATED OUTLOOK

FY2025 and FY2026 are expected to render record revenue levels for the Group, at €84.1 million and €87.0 million, respectively.

The split of revenue between the various geographical regions is presented hereunder, including the projected and forecast revenues for FY2025 and FY2026, respectively.

Concentration remains in the Med and Middle East regions, although the latter's contribution to revenue is expected to be lower in the FY2025 and FY2026 financial periods, as activity in these regions ramps up. The contribution of Suriname as from FY2026 is expected to result in the region becoming a double-digit contributor to revenue during the course of the contract as described in further detail above.

In terms of reportable segments (as depicted in the below table), the revenue generation by the 'Integrated Logistics Support Services' ("ILSS") is significantly higher than that generated by the 'Oil Country Tubular Goods' ("OCTG") segment for the next two financial periods. As has been evident also in previous financial periods. EBITDA margins are expected to remain superior in the next two reporting periods in the OCTG business line than in the ILSS.

Revenue and EBITDA by Segment		ILSS	OCTG	PV Farm	Total
		€'000	€'000	€'000	€'000
FY2022	Revenue	42,990	23,425	524	66,939
	EBITDA	3,452	7,429	524	11,404
FY2023	Revenue	46,128	27,307	492	73,926
	EBITDA	6,395	10,617	492	17,504
FY2024	Revenue	36,940	32,599	469	70,007
	EBITDA	4,345	11,289	469	16,102
FY2025 (P)	Revenue	52,431	31,173	491	84,095
	EBITDA	9,853	9,203	491	19,547
FY2026 (F)	Revenue	51,714	34,741	491	86,946
	EBITDA	10,123	8,403	488	19,014

While direct and administrative expenses for FY2025 and FY2026 are expected to be higher, reflecting the uptick in operations, that is translated in additional revenues for the Group. Meanwhile, depreciation is not expected to be materially different on average over the two forward-looking period, reflecting the utilisation of existing PPE for contracts during the said years.

While net finance costs are indicative of an increase for the two periods FY2025 and FY2026, the underlying composition thereof does not include the netting effect that finance income generated in FY2024 had on this expense item. In fact, the finance cost for FY2024 amounted to €4.2 million, which is higher than the €4.1 million and €3.7 million anticipated for FY2025 and FY2026 respectively. Total borrowings are expected to be lower in the two financial periods ending 31 December 2026, reflecting the partial redemption of the outstanding bonds.

The Group's profitability for FY2025 and FY2026 is expected to reflect a significant improvement when compared to previous years, closing the periods at €4.7 million and €3.9 million, respectively.

FY2025 AND FY2026 UPDATES

The cash flow forecasts for FY2025 are reflective of the anticipated increase in revenues, as business momentum is expected to improve further during the year. This pick up has already been reflected in the Group's interim report for the first half of the year, where it reported a robust performance, particularly in view of the increased ILSS business activity in the Mediterranean region (Malta and Cyprus). Such performance is expected to resume during the rest of the year, as reported in earlier parts of this report.

Furthermore, FY2026 is expected to be characterised by the new contract in Suriname commencing during the said financial year.

This positive momentum in both financial periods is reflected in the cash flows that the Group is anticipating at the end of both years, despite the partial repayment of borrowings during such times and the ongoing additional investment and capital expenditure necessary to continue to service its clients and operations. At the end of FY2026, the Group is expected to have a closing cash balance of €21.1 million.

The Group's balance sheet continues to be characterised by the major assets as described in section 6 of this report, and such is being expected to be the case for the period to 31 December 2026. The increase in PPE reflects the continued investment by the Group into assets required for the operations under the various contracts undertaken, net of the depreciation charges as discussed in the earlier section of the income statement analysis.

Meanwhile, in the forthcoming months, the Group is anticipating a continued reduction in borrowings, as the bonds due to mature in early 2026 are expected to only be partly refinanced, with the balance paid off by the Group from own cash flows.

Net Debt	53,442	54,498	52,539	43,432	35,611

As a result of the reduction in borrowings and the cash build-up reflecting the uptick in operations discussed earlier, the Group's net debt is anticipated to decline to €43.4 million by the end of FY2025, and further to €35.6 million by the end of FY2026.

Meanwhile, total equity is expected to continue to increase, also reflecting the positive momentum for both FY2025 and FY2026, net of dividends that the Group anticipates paying to its shareholders.

7.4 RATIO ANALYSIS

The following set of ratios have been computed by Rizzo Farrugia & Co (Stockbrokers) Ltd using the figures extracted from annual reports and management information.

Note: where the ratios were non-computable because of a negative return or a negative result, the ratio has been recorded as 'n/a' or excluded from the list of ratios presented in view of negative returns in all years under review.

PROFITABILITY RATIOS

The below is a set of ratios prepared to assist in measuring the Company's ability to generate profitable sales from its assets.

	Actual FY2022	Actual FY2023	Actual FY2024	Forecasts FY2025	Projections FY2026
Gross Profit margin <i>(Gross Profit / Revenue)</i>	35.53%	39.06%	41.77%	40.10%	42.64%
EBITDA margin <i>(EBITDA / Revenue)</i>	17.04%	23.68%	23.00%	23.25%	21.87%
Operating Profit margin <i>(Operating Profit / Revenue)</i>	n/a	10.63%	8.97%	11.85%	10.67%
Net Profit margin <i>(Profit for the period / Revenue)</i>	0.81%	1.75%	2.99%	5.55%	4.54%
Return on Equity <i>(Profit attributable to owners of the Company / Average Equity attributable to owners of the Company)</i>	0.88%	1.83%	3.23%	7.12%	5.73%
Return on Capital Employed <i>(Profit for the period / Average Capital Employed)</i>	0.45%	1.13%	1.92%	4.43%	3.88%
Return on Assets <i>(Profit for the period / Average Assets)</i>	0.36%	0.87%	1.44%	3.23%	2.78%

Profitability ratios for FY2025 and FY2026 are expected to continue to build on the positive momentum achieved in recent years, as the Group continued its focus on improving margins and profitability of the contracts undertaken, despite the cost pressures. The acceleration of certain services under existing contracts in FY2025 are expected to result in significant improvements in profitability ratios when compared to earlier years and also those expected for FY2026, as the acceleration of the said contracts means that the results achieved in FY2026 would be impacted accordingly. Nevertheless, FY2026 is still anticipated to give positive and improved returns over earlier years.

LIQUIDITY RATIOS

The below is a set of ratios prepared to assist in measuring the Company's ability to meet its short-term obligations.

	Actual FY2022	Actual FY2023	Actual FY2024	Forecasts FY2025	Projections FY2026
Current Ratio <i>(Current Assets / Current Liabilities)</i>	2.07x	2.40x	2.30x	1.98x	2.31x
Cash Ratio <i>(Cash & cash equivalents / Current Liabilities)</i>	0.80x	0.91x	1.01x	0.84x	1.13x

The Group's liquidity ratios of FY2025 and FY2026 are expected to be largely aligned to those in previous years, reflecting the nature of the business. By refinancing the 2026 bonds ahead of maturity, the Group will be reducing the otherwise negative impact these bonds would have had on current liabilities. This will allow the Group to maintain a more stable and comparable current and cash ratios to previous years.

SOLVENCY RATIOS

The below is a set of ratios prepared to assist in measuring the Company's ability to meet its debt obligations.

	Actual FY2022	Actual FY2023	Actual FY2024	Forecasts FY2025	Projections FY2026
Interest Coverage ratio* <i>(EBITDA / Net finance costs)</i>	n/a	2.83x	6.68x	5.37x	5.17x
Gearing Ratio (1) <i>(Net debt inc. leases / Total Equity)</i>	0.89x	0.94x	0.91x	0.73x	0.58x

Gearing Ratio (2)

[Total debt inc. leases / (Total Debt plus Total Equity)]

0.55x 0.55x 0.55x 0.51x 0.49x

Net Debt to EBITDA

(Net Debt inc. leases/ EBITDA)

4.69x 3.11x 3.26x 2.22x 1.87x

*The interest coverage ratio for FY2022 cannot be reported as finance income exceeded finance costs, leading to a net finance income flow thereof.

The Group's solvency ratios for the forthcoming two periods are characterised by the lower level of net debt, which is expected to be positive for the finance costs incurred. The marginal decline of the interest coverage ratio is the result of the interest income that the Group recognised in FY2024, which is not expected to be repeated in FY2025 and FY2026. Nevertheless, this metric remains strong for both FY2025 and FY2026.

Another metric that is also indicative of improved level of gearing and the increase in the absolute value of EBITDA is the net debt to EBITDA, which continues to decline over the next two financial periods, from 3.26 times in FY2024 to 1.87 times in FY2026.

ADDITIONAL RATIOS

	Actual FY2022	Actual FY2023	Actual FY2024	Projections FY2025	Forecast FY2026
Earnings per Share (€) <i>(Profit attributable to ordinary shareholders / No of shares in issue)</i>	0.006	0.011	0.018	0.040	0.043
Dividend Cover <i>(EPS / Dividend paid per share)</i>	n/a	n/a	1.87	1.81	1.77

Year-on-year the Group has been returning profits and is expected to do so also in the forthcoming two reporting periods. This also contributed to returns to shareholders in the form of dividends as from FY2024, which the Group intends to resume also in FY2025 and FY2026.

The acceleration of some of the services under the existing contracts in the first half of FY2025 led to a positive variance across the FY2025 anticipated results. Revenues are expected to come just under €5 million higher by the end of the year, at €84.1 million, reflecting a 5.4% increase. This is accompanied by an increase in direct costs, largely aligned to the increase in activity. This positive momentum trickles down the rest of the income statement and is expected to result in a net profit for the year of €4.7 million, compared to the €2.5 million forecasted earlier this year.
